Lease of Life. A despatch from New York says:-The life of the Empress Frederick of Germany would probably have been saved had she permitted surgeons to remove her stomach when

it was first ascertained that she was suffering from cancer." This statement was made Monday afternoon by Dr. Wilfrid G. Fralick, who in April last performed an operation of the kind, removing the stomach of D. G. Bodman, of Newark, N.J. On next Tuesday afternoon, at the Metropolitan Hospital, Dr. Fralick expects to remove the stomach of a business man of this city, who is nearly dead from can-

"The first operation of this kind of which I can get any information was performed in Germany by Dr. Schlatter, a well-known surgeon and scientist," continued Dr. Fralick. "It prolonged the patient's life for some time and put an end to his suffering. We have no trouble removing cancer in other parts of the body, when the cases are brought to us in time. The stomach being almost a vital organ presents greater difficulties, but it can be removed, and the patient can get along without great inconvenience."

"So far as I can learn there have been but three operations performed in which the entire stomach has been removed. The German operation before mentioned; the Bodman operation, in Newark, and one in Brooklyn. On next Tuesday I will remove the stomach of a man who has been suffering from cancer for some time. If he did not undergo the operation his death would be a certainty within a few weeks. If he stands the operation I can promise him a renewed lease of life and there is a possibility of a cure. At any rate, he will not suffer the tortures that come in the last days of a cancer victim."

EURNED AT THE STAKE.

An Alabama Mob Takes Ven-

A despatch from Birmingham, Ala., says:-John Wesley, a negro, was burned at the stake near Enterprise, Ala., before a crowd of 500 enraged and determined citizens of Coffey County on Wednesday morning. The mob was composed of both whites and blacks, and though the victim pleaded for mercy, and frantically endeavored to break the chains that tightly bound him, not a trace of sympathy was shown.

Pennington had committed a brutal assault upon Mrs. J. G. Davis, beginning January 1, 1896, there- ENTERPRISE AT THE SOO. wife of one of the most prominent farmers of Coffey County, and had confessed his guilt.
