BLUE Overalls 50c at The Big Store.

CLOVER, Timothy and Orchard Grass Seed at Parker's Drug Store

THERE'S NO use minding matters. We want those little accounts paid right away.

THE Zionites will be in town Friday night to spend a social evening at the Parsonage.

JUST ARRIVED.—Choice stock of English, Scotch, Irish and Canadian cloths. Your inspection is invited. W. Glass, the Merchant Tailor.

THE defective spots in last year's side-walks are now being repaired. Mr. Conery, the President of the Company is bound to make everything satisfactory.

DAN CAMPBELL has taken the Frost & Wood Agency, and John Livingston, we understand, will handle the Massey-Harris goods. Look out for Campbell's ad. next week.

ELIJAH ARMSTRONG writing from Souris, Man., says there's lots of work for harvesters if they're willing to do it. He is getting \$2.25 per day and says the farmers will be busy till Christmas threshing.

THE County Board met in Owen Sound on Monday last to distribute the Model Candidates amongst the three schools. The following were allotted to each at the meeting:—O. Sound 17, Durham 12, Meaford 7.

THE streets here are so crowded on Saturday nights that it is often quite difficult to get through the throng. It seems to us they should be lighted to give character to the place. It will not be long till there's a move in that direction.

THE Dress Goods shown in The Big Store windows this week are proof positive that they are the best Dress Goods in town, and Miss Hughes up-stairs as Dressmaker, The Big Store expects to exceed all other season's trade.

A REPORT from Owen Sound says: "Two of the victims of the Islander which was wrecked a fortnight ago on a voyage from the Klondike were young men of the County of Bruce, David Moran and Washington Porter. They were engaged as deck hands."

MANY citizens and others during the past week have witnessed the manufacture of cement blocks, for building purposes. So far we have only heard one opinion, as every one seems to think there is no better building material in existence. We see no reason, why a house properly constructed of these blocks, on a proper foundation should not last for a thousand years, and be in first-class condition at the end of that time. Some say it would last forever, but we'll not go so far as that.

THE work in connection with the Cement plant is progressing favorably. The road grading is being rapidly pushed ahead, and the making of cement building blocks for the construction of the works is going on nicely. About 125 men are now at work and many more can find employment. Mr. Walker and his gang are busy every day with the stone crusher, and a big heap of crushed material is the result of their labor. No time will now be lost till the mill begins to hum which will be as soon as possible. Everything is all right and there isn't a citizen or visitor but feels pleased at the business-like appearance the town is now able to assume.

MR. JAMES CARSON is doing a little canvassing this week with the County Map recently prepared and published by our townsman, Mr. J. P. Telford. The map is really a magnificent piece of work beautifully lithographed, well mounted and as accurate as anything of the sort can well be expected. In its preparation much time and research were spent, and we trust that the result of Mr. Telford's labor may now be rewarded. Each township is also published separately, and should, in our opinion, find a place in every household. We have no hesitation in giving it as our opinion based on years in school work that the complete map should be in every school house in the county.

THE Baptist Garden Party announced for Thursday evening last had to be postponed until Friday on account of the weather. Though Friday afternoon and evening threatened rain there was a goodly attendance. The proceeds amounted to about \$37.00.

NOTWITHSTANDING the fact that a By-law is in force to keep cows from running at large, there are still some to break into gardens frequently and cause considerable destruction and annoyance. The By-law is in force but it evidently is not enforced.

THEY must go out—Watches in Ireland. 3 solid silver cases containing good Waltham and Elgin movements, at half price. If interested in a watch this is your chance, I do not intend carrying this line of goods, so out they go.—Jas. Ireland.

THE Cement Building Block Manufacturing gang, four in number, are now turning out 125 per day. At this rate it would only take about a week to make enough for a large dwelling. George McKay, Allan McFarlane and two other fellows are hustling the work in good style.

THE Industrial Exhibition is in full swing this week and next and thousands of people will visit the Queen City to see our country's products. While it may be all right to do so we bespeak for our own local fair a very liberal patronage from the whole of S. Grey. Though the show may not be on a very large scale it's of interest because it's our own. Let us see it well patronized.

A GARDEN Party will be held on the grounds of Mr. D. Edge, Second Concession, Glenelg, on Tuesday the third of September. A good program is being provided. The Presbyterian Choir from Durham will be in attendance. Admission 15c. Children 10c. Gates open at 6 p. m. Tea served at 8 p. m. Proceeds in aid of the Durham Presbyterian Ladies' Aid. All are invited. Ip4.

Western Fair, London, Sept. 5 to 14.

All the prospects point to the Western Fair at London this year being the most successful ever held, it being the intention of the Directors to make the initial show of the century something to be proud of and to be remembered. All the departments are filling fast and in many cases it is evident the only complaint will be lack of space. The Directors are full of resources, however, and it may be taken for granted that everything on the grounds will be given a good show.

This year the special attractions are of more than ordinary interest, being made up of a brilliant collection of gymnasts, acrobats, aerialists, high wire performances, ground and lofty tumbling, all forming the most expensive ensemble ever got together for such a purpose, while in addition there is a full troupe of educated performing elephants, "The greatest animal act in the world," the sagacious beasts do wonderful things, displaying an intelligence almost human. They dance, doing the cakewalk to perfection, and play a variety of instruments, including the mouth organ, cymbals, hand organ and the bass drum. The biggest of the four plays nine-pins with the skill of a professional, and his partner marks on a slate the number of pins bowled over, while a third one sets up the pins for another bowler; they also do a number of very difficult balancing and gymnastic tricks, but the most sensational feat of all is the riding of a tricycle by the baby elephant.

Four evenings of grand fireworks display, including "Fall of China" and "Relief of Pekin," a most brilliant spectacular representation of recent events.

Mr. Chas. Ryan, son of Rural Dean Ryan, was in Atwood over Sunday, and took the work of Rev. Mr. Farr, who is spending a few weeks at the parental home in Glenelg. Charlie is a student at Huron College, London, and is quite in love with ministerial work to which he intends to devote his life.

Mr. Joseph Snell, B. A., of the Warton High School, was in town Tuesday. We caught a glimpse of him on the cement grounds where the building blocks are being made. We heard him remark that the business was all right and that cement was the coming material for all kinds of permanent structures.

Mr. Geo. Lamb, of Glascott, was a caller on Tuesday. He talks of selling out and going to the American Soo. We have no doubt he will be much missed as he has been a resident of the township of Glenelg for forty-seven yrs. He held the position of Councillor for a number of years, and assisted to audit the treasurer's books for two years. A couple of years ago he was appointed a Justice of the Peace, a position he proved himself competent to fill. He was also an occasional correspondent in these columns, and with his many other friends we shall be sorry to have him leave.

Mr. Roy Gordon left Monday morning for Toronto where he has taken a position in a jewellery store.

Mr. George Noble, of Vickers, who recovered only a few weeks ago from a serious illness, is again on the sick list and causing his friends much anxiety.

HITS AND MISSES.

It's not hard to get stuff to "fill up" a paper. The greatest difficulty is to get enough to fill the editor.

It isn't the clothes a man wears but the getting of his pay that worries the tailor.

If you want sickly, runts of young ones keep them at school all summer, holidays and all.

The new house Ed. Kress is building on the Hillside seems a little large for a single man. Perhaps he intends to keep boarders.

It must be refreshing to the cement experts to get so much free advice about the making of building blocks. If we were one of them we'd feel like carrying a gun.

The Editor and Publisher gets off this:—"Why is a village newspaper like a woman? Because every man should have one of his own and not be running after his neighbors."

Mr. Ireland has a local in about some watches he's bound to get rid of. He says he wants to test the advertising value of this paper. Call and see them, but don't all go at once. It pays to advertise in THE CHRONICLE.

It's singular but it's so, and we don't like it either. There are some people so mean while they live that they'll never take a paper, nor put five cents on the collection plate on Sunday. And yet when they die the minister will preach them into Heaven and the editor will boost them up to the choicest seat beside the great white throne. It's not right.

A select crowd was assembled in McKeechies' store one evening last week. There was Bill Wright and Sandy Hopkins, and Gilbert McKechnie and the editor of this paper, and a few other notables. By and by they began blowing about what they could do when they were younger. Gilbert didn't boast much about how well he could cradle, but all the other fellows did, and they were getting up to a pretty good day's work in talk, when Bill Wright chipped in again to say that Tom Farr was one of the finest cradlers he ever saw swing a blade, and how he could cut five acres a day and not work more than ten hours. Since then we saw Mr. Farr, and had the statement confirmed by the Rev. Gentleman himself that five acres was his usual day's work, and that he didn't believe working into the night to get a day's work done. To our mind he takes a very sensible view of things when he says that a person who works too long one day isn't fit for a good day's work the next. His record of five acres a day isn't going to spoil his ministerial work a particle, but as far as we can learn he is not much in love with cradles you have to swing.

The two auction sales held here last Wednesday proved a success. Mr. Miller disposed of the greater part of his furniture and Mrs. Brown did likewise. D. McPhail did the job and did it well.

During the thunderstorm last Thursday night the lightning struck Alex. Hamilton's woodshed, causing a clothes reel and four water barrels just outside the shed were completely destroyed. A few years ago a barn on the same farm was struck by lightning and burned down.
