A WALK TO THE MOON. Require For The Trip.

Would you take a walk on moon? Well, first you must obtain a plentiful supply of compressed air, water, and provisions.

On our backs are strapped tins of compressed air, from the interior of the realms of the unknown. And not discovered till it had gripped the which issue tubes with ingeniously constructed mouthpieces, which we securely fasten to our mouths. This is a necessary preparation, as there is no air on the moon.

Perhaps the first thing we notice is our extreme lightness. The fat man of our party suddenly discovers that he can run as fast as house bars his way, but, with the greatest of ease, he jumps over it,

Our strength, too, is enormously increased. Great blocks of stone. which two horses could barely move vards, and catches him again as he were a cricket ball.
