I can say confidently and SWORN STATEMENT, OCT. 3, 1901 assure anyone interested, or a sufferer, that I positively owe my life and present excellent health to-the results brought about by their use. I was taken sick and confined to my bed on December 28th, 1893, and was successfully treated for La Grippe, then Pleurisy, followed by Kidney Troubles, and latterly Bright's Disease. lost the use of all my limbs; my entire body became swollen to a terrible size, and my skin became as hard as and similar to leather the pores all having closed up, and I suffered the most agonizing pain. I was subject to periodical spells of utter prostration and insensibility, to a state of absolute coma. I was also a victim of dangerous convulsions in which my facial expression and other muscles would become severely

contorted and tense. 2. My regular physician attended to me, and, though medical consultations were held over my case by two city doctors, nothing could be done. My case grew gradually worse and latterly I was given up as hopeless. My wife, friends and neighbors were certain from what they saw and were told by the visiting doctors that I would die in a very short

3. My wife was casually reading a newspaper about this time, and saw a description of a similar case, in which a patient gave testimony of the relief and cure that had been effected on him by Dodd's Kidney Pills. I started to take them right away, and from the first pill I discovered a change for the better. After the first box I was wonderfully improved, and at the end of the fourth I was sure I was to get well again. I continued taking them until the seventeenth box, and I can now positively declare that I am perfectly cured and able to do a day's work with any of my comrades in the shop, and Dodd's Kidney Pills undoubtedly cured me, because from starting to take them I took no other medicine whatever.

AND I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the ACT RESPECTING EXTRA JUDICIAL OATHS.
