Mr. Thomas Gordon, of Owen Sound, recently resigned his position as Inspector of schools for West Grey, and the appointment of his successor will be made this week by the County Council. We do not know who the candidates are, but the Council will certainly make no mistake if they decide on Mr. H. H. Burgess, we understand, has an application. Mr. Burgess is a clever, all-around man, and a gentleman whose presence for good will permeate the inspectorate.

Broken.—While cleaning a money on Mr. Henry Parker's last week, Mr. John Vollet with an accident which will lay up for some weeks. Slipping from the peak of the roof, he slid rapidly, but with wonderful presence of mind he caught the eave to which he clung for a few seconds, when he again fell to the roof below, and thence to ground striking the steps in his hand. The large bone of the leg was broken above the knee, and it was at the time that he had several internal injuries, but as he is recovering nicely, it is hoped no serious results will follow. Great sympathy is felt for the injured man and family.

Wednesday last we had a call from Joseph Black, of Proton. It is remembered that two weeks ago, slipping from the Shelburne Press, gave an account of Mrs. Anderson's death under apparently suspicious circumstances, the suspicion based on the evidence of Mr. Norton, of Shelburne. Mr. Black denies a number of points in our account as inaccurate, and damaging to his character. That his subject to epileptic fits, and was at times in a depressed condition verging on insanity, he freely admits. In the account with him he made feeling reference to some circumstances which marred the happiness of their life. The women he says was epileptic fits, but until after marriage he was not cognizant of such trouble, believing "fainting spells" to which the woman referred on several occasions before marriage, were of character and that she would die of them. Mr. Black seems to be anxious to conceal the fact that she was epileptic, and is sorely grieved that it should be circulated so damagingly. He also expressed a desire to have the Chronicle published in order to place before the eyes of the world.

NOTICE.—The person who took a black dress overcoat away from the Township Hall on the night of Oct. 22nd, had better return it at once or leave it at this office, and save further trouble.—FRANK MEAGHER. 3

WE HAVE sent accounts to a number in and around town. Our patience is about exhausted. If costs are added you have yourselves to blame. Pay up Saturday and save trouble.

TOM JACKSON, of the Glen, tells us to hit the Grand Trunk hard for better yard accommodation. He's not the first to talk in this way, and we think with him that from the large amount of shipping done here the company should go to a little expense to accommodate the farmers. There is one thing certain they will do nothing if the agitation doesn't come from the public. We are here to agitate fairly for any necessary reform, and our columns are open for the full and fair discussion of all such problems.

A VERY pleasing event took place last Wednesday, when Miss Mary Milligan, of Bentinck, was united in wedlock to Mr. Thos. Mighton, of the same place. The ceremony was performed at the rectory at seven in the evening, by the Rev. Mr. Ryan. They were supported through the trying ordeal by Miss Winnie Reid and Mr. Joseph Corbett. The bride looked very charming in a beautiful gown of pearl grey whipcord trimmed with pale blue silk and pearl trimmings. The bridesmaid also looked handsome in white lawn trimmed with pale blue silk and ribbon. After the ceremony they drove to the bride's home where a supper was prepared for the occasion, after which the evening was spent with music and other amusements.

WE regret to chronicle the sudden and somewhat unexpected death on Sunday morning last of Mrs. George Anderson, of Glenelg, near Pomona. The lady who was about seventy years of age had been ailing for about a year from an affection of the heart and a combination of other ailments, but her immediate death was not looked for. On Saturday night, however, she took a bad turn, and on Sunday morning the end came while she was sitting in her chair. The deceased was a native of Prinside Mill, Roxboro', Scotland, and came to this country about fifty years ago with her parents, Mr. and Mrs. Adam Weir, Sr., and settled in Glenelg where she remained ever since. She leaves to mourn her loss a husband and five children. The children are Jennie and Maggie, now married and settled in Manitoba, and Mary Martha and Adam still at home. Two brothers, John and Adam Weir, residing in Glenelg, and a sister, Mrs. Robertson, in Kansas, mourn the loss of their deceased sister. Mrs. Anderson was a staunch Presbyterian all her life, but withal liberal in her Christian views, and rejoiced at the success of other religious bodies. Interment took place to Zion Cemetery on Tuesday last, Rev. Mr. Smith officiating.

LAST NOTICE.—All notes and accounts due me must be paid on or before Dec. 20th. After that date interest will be added.—W. LAIDLAW.

GROCERIES for Xmas Cooking—Cross & Blackwells' Peels and cleaned Raisons and Currants, 6 lbs. Figs for 25c, Prunes, Dates, Almonds, Walnuts, at The Big Store.

THE Ontario Gazetteer & Business Directory, 1901-1902, is just to hand. It's a very cheap looking affair, and the paper and binding are cheap too. It's all cheap but the price, \$5.00.

MR. HARRY BURNET purchased last week the property of Mr. Alexander Marshall just outside the town limits. The property consists of about forty acres of good land, for which, we understand, Mr. B. pays a good price.

EUGENIA had a big conflagration on Friday forenoon last when Wilson's big sash and door factory, managed by Mr. Thompson Wilson, was along with Mr. Wilson's dwelling which stood near by, destroyed by fire. Heated machinery was, we understand, thought to be the cause. 2,500 is the reported insurance, which will be a small portion of the loss, as the factory was very finely equipped with machinery.—Flesherton Cor.

CEMENT NOTES.

Good progress.

The bed and gearing plates for the rotaries are now in position on their foundations.

The machine shop is about completed. The slaters are at work and will finish the roof this week.

The railway switch to the machine shop and wet grinding building is now being constructed.

The Owen Sound Sun says: "No industry in Canada to-day offers a better field for profitable enterprise than the manufacture of Portland cement. This business is just springing to its prime in this country and is one of which every Canadian should be proud. At the present time Canada is importing over one-half of the cement used here from England and Germany, while the uses of the product are growing faster than its sources of supply. As an instance of this it is only necessary to point to the fact that in Owen Sound houses are now being built with this material and the town is seriously considering the idea of constructing cement bridges. The Sun has frequently referred to the big works located here and elsewhere in Canada. All the plants are extensive, but according to the latest reports the long-talked of works at Durham are to be larger than any of the other concerns."

The Guelph Herald says: "There is enough raw material in the vicinity of Durham, owned by the company, to keep a plant of this kind running for centuries. A careful analysis of the marl shows that it contains 98.05 per cent. carbonate of lime. The splendid manner in which the company has undertaken the erection of this enormous plant at Durham will undoubtedly result in the addition of another valuable manufacturing industry to the country, and it will demonstrate the fact that Canadians are rapidly taking advantage of the excellent facilities which their country affords them to increase its wealth and prosperity."

"The Durham Chronicle."

It's just a little paper it isn't up to date; It hasn't any supplement or colored fashion plate. It comes out every Thursday unless the forms are filed.

The outside is home-printed with boiler plate inside.

I haven't any cable direct from old Bombay; But it tells us that "Mr. Aljoe is the hero of the day."

It doesn't seem to worry about affairs of state But it tells us that "Will Firth on Sundays stays out late."

It never mentions Kruger or the Rev. Mr. Cook, But tells about George Staples when he went to see the "Book."

And that the "Sunday School workers are giving a festival."

And about the "Women's Lecture" in William Edge's Hall.

It tells about the measles that Charlie Moffat had And says that "Geordie Ritchie has become a happy dad."

It says that "turap-palling is shortly to commence."

And cites the fact that "Wm. Edge has built a brand new fence."

"Dodd's Kidney Pills cured Jack Moffat's ill and rheumatism," too.

"He was all doubled up on crutches" (I know that this is true).

Of Brights Disease my uncle Joe was cured by these same pills.

"They're wonderful" this paper says "for all those kind of ills."

It mentions the Duke's coming in two brief paragraphs.

And says that "Thos. Greenwood has bought two Gallaway calves."

And everything that happens within our little town.

The man who runs "The Chronicle" has plainly jotted down.

Some people make fun of it, but, honestly, I like to learn that work is booming upon the Edge Hill pile.

It's just a little paper—it hasn't much to say—but as long as it is printed I hope it comes my way.

Recited at an Entertainment at Edge Hill by Master Firth, a lad of ten or twelve summers.

HITS AND MISSES.

Some people are so thin in the skin that they should go into the wool business so as not to get hurt.

A modest druggist has been in trouble for the past two or three weeks because he heard a young lady speak of a horse "fur." He always thought it was hair.

Do ladies go to church on very stormy Sundays to hear what the preacher has to say, or do they go simply to show their new furs?

We had a tramp solicitor for a line of cheap commercial stationery in town last week. He wanted us to do some work at less than cost of material, but we sent him on. If the printers in this country do the work for what he claims they do, the lunatic asylum should have a new wing added.

When you ask a man to subscribe for your paper and he says, "Oh, I never read much, and besides, the times are too plagued hard," apologize and leave him. Life is too short to teach a jack soprano. All gentlemen nowadays read newspapers, and lots of them. Show us a man who lives for years in a town or community and never subscribes for the papers published there and we will show you a man whose head is shaped like a piece of pie, with the point up, and whose ignorance is only exceeded by his gigantic gall.

A Yankee undertaker advertises after this manner:—"Why live and be miserable when you can be comfortably buried for twenty dollars? We may expect something of the kind over here soon. Don't be surprised when you take up your newspaper if you read this sort of thing:—"Billy Morgan looked down the barrel of his daddy's gun to see where the bullet went when it went off. The funeral was handsomely conducted by Smith & Co., who have always a large staff on hand and are open to bury the whole neighborhood on twenty-four hours' notice. A pound of tea given away with every coffin. Order early and avoid disappointment."

A cow belonging to a farmer residing near Ottawa made a meal of a wad of bills, and the animal had to be slaughtered in order to recover the money. The bills amounted to \$145 and were in a coat which the farmer had hung up on the fence. The cow, which felt the pangs of hunger for a rich diet, came along and knocked down the coat, the money falling out of the pocket. The bovine tackled the bills, and soon the farmer's savings were undergoing digestion process. The cow was chewing at the coat when the agriculturist discovered her, and he concluded that the money had been swallowed by the animal. The latter was at once slaughtered, and the fragments of the bills were found in the stomach. The pieces were put in a bag, brought to the bank of Ottawa, and the clerks there succeeded in getting the numbers of bills to the extent of \$135.

McKenzie—Brodie Nuptials.

Relatives and friends to the number of about eighty assembled at the residence of Mr. Wm. Long, Egremont, on Wednesday, Nov. 20th, to witness the marriage of his niece, Miss Isabella B. Brodie, eldest daughter of Mr. and Mrs. Brodie, of Glenelg, to Mr. Wm. B. McKenzie, of Dromore. The marriage ceremony, which took place at 5 o'clock p. m., was performed by Rev. D. Campbell, of Amos Church, Dromore. The groom was supported by Mr. Robt. Brodie, brother of the bride, while Miss Mary Neal assisted the bride. The fair bride was gowned in cream serge trimmed with cream satin, cream ribbon and pearls, and wore a white wreath with bows of cream ribbon in her hair, while the bridesmaid looked pretty attired in silver grey serge trimmed with pink satin, pink ribbon and pearls, with white wreath and bows of pink ribbon in her hair. The bride's after-dress was grey serge with cream satin trimming; the bridesmaid's brown serge with brown velvet trimming. After the ceremony, the guests repaired to the dining-room where a sumptuous wedding repast was served. The remainder of the evening was spent in games and amusements of various kinds. Among the elderly persons present who added greatly to the pleasure and enjoyment of the evening were Mr. and Mrs. S. Neal, from near Varney, Mr. and Mrs. D. Brodie, from near Markdale, and Mr. and Mrs. A. McKenzie, Egremont, parents of the bridesmaid, the bride and the groom, respectively. The esteem in which the young people is held was evinced by a splendid array of costly, well-selected and useful wedding presents. The happy couple will spend a brief honeymoon with friends at Markdale, Owen Sound and points north, after which they will take up their residence on the 18th concession of Egremont.

Mr. McLeish, Presbyterian Evangelist, held a couple of special services on the South Line, Bentinck, and before leaving, we understand, he made arrangements to hold a two week's series of revival meetings in the Town Hall when the roads get good.

PARTRIDGES may be killed for one's own use or gift, but cannot be sold. The earliest date they can be sold is September 15th, 1905, four years hence, and no partridge, etc., can be supplied until that date as part of a meal by any hotel or restaurant keeper, even if specially licensed to supply game in season at meals.—Ex.

Coughs

"My wife had a deep-seated cough for three years. I purchased two bottles of Ayer's Cherry Pectoral, large size, and it cured her completely."

J. H. Burge, Macon, Col.

Probably you know of cough medicines that relieve little coughs, all coughs, except deep ones!

The medicine that has been curing the worst of deep coughs for sixty years is Ayer's Cherry Pectoral.

Three sizes: 25c., enough for an ordinary cold; 50c., just right for bronchitis, hoarseness, hard colds, etc.; \$1., most economical for chronic cases and to keep on hand.
