### OBJECTS OF THE COMPANY

The Manitoba Cement Company has secured incorporation for the purpose of manufacturing a high-grade Portland Cement. It owns one of the most valuable cement deposits in Canada, located south of Morden, S 1/2 Sec. 4, Tp. 1, Rge. 6 west. The raw material has been thoroughly analyzed by the highest authorities on cement and pronounced by them suitable for the manufacture of a superior quality of Portland Cement.

When the plant shall have been completed the Company will own material sufficient for a least 200,000,000 barrels of cement, and a mill capable of converting this material into cement of the highest grade, and by reason of its position and open market in the West, can without question manufacture and market its product at a maximum profit.

### USES OF CEMENT.

Among others, Portland Cement Concrete may be used with advantage for the following purposes:—Bridge Piers, Foundations, Chimney Stacks, Sewers, Canals, Sidewalks, etc., for which it is more lasting and much cheaper than stone or brick. The demand for Portland Cement is rapidly increasing in the West, where building stone is scarce, and by the time it can be put in a 1,000-bbl. mill will not nearly meet the demand. All cement used in Manitoba is at present shipped from Ontario, the freight being \$1.20 per bbl. The Manitoba Cement Company will, therefore, have practically no competition in supplying Manitoba and the North-West Territories.

### PROBABLE RESULTS TO SHAREHOLDERS

The following statement of probable results to be secured is based on a very conservative estimate of cost and selling price:

Average selling price per bbl. at factory.....\$2.25	Gross Annual Profit.....\$315,000
Cost per bbl., incl. office and gen. expenses...\$1.20	Sinking Fund.....\$20,000
Profit per bbl. ....\$1.05	Repairs and depreciation.....\$70,000
Annual output, 200,000 barrels.	Total annual profit for surplus and dividends.....\$245,000

N.B.—The present wholesale selling price of cement in Winnipeg is \$4.00 per bbl.

### THE PLANT

The Manitoba Cement Co. will have associated with it a staff of the most competent, practical and thoroughly experienced engineers, who have superintended and designed the construction of some of the largest and most successful mills in Canada, United States and Europe.

The proposed plant of the Manitoba Cement Co. will have a daily capacity of 1,000 barrels of cement and will be the first cement mill in the West to use the latest and improved Rotary Kiln Process, which represents the most advanced ideas in cement manufacture. The buildings will be constructed of brick, cement and steel, and will be fire-proof throughout. The entire plant will be electrically driven by the direct current system.

The stock is now offered to the public at par in shares of \$5.00 each, 25 per cent. payable with the application for stock, the balance to be called by the Directors as required. Such calls not to exceed 25 per cent. of the amount subscribed per month. Applications for stock should be addressed to the Company's agents, J. F. H. Ussher & Co., 23 Wellington Street West, Toronto. Remittances should be made by cheque, bank draft or express order, payable to the Company or their agents. Forms of application for stock and the Company's large Prospectus may be obtained from

### HYMENEAL.

A pleasing event to which Oakvilleites have been looking forward for some time took place at twelve o'clock noon on Tuesday, the 17th inst., when Mr. Thos. Stait, merchant of Oakville, and Miss Lizzie E. Matthews, of High Bluff, and late of Durham, Ont., were made man and wife. The interesting ceremony was performed by the Rev. Lewis, of High Bluff, and the very large gathering of friends and relatives was a fitting testimonial to the high esteem in which each of the contracting parties are held.

The bride looked charming in a dress of ashes of roses cashmere, trimmed with white satin lace and applique, and a bridal veil supported by a spray of pearls, and carried a bouquet of white roses and carnations. Her travelling costume was of slate colored lady's cloth. Miss Carrie Stait performed the duties of bridesmaid, and wore a pretty dress of white organdie, trimmed with lace, and carried a bouquet of pink and white roses and carnations, while Mary Stait, of High Bluff, made a demure little flower girl. The groom was assisted through the trying ordeal by Mr. Milton Matthews, brother of the bride. At the close of the ceremony a sumptuous wedding repast was partaken of, and after an hour spent in social talk the newly wedded couple took the train for Winnipeg mid showers of rice, old boots and the very best wishes of their host of friends.

Among the many useful and beautiful presents were the following:

Bride to groom, diamond stick pin; groom to bride, fur coat and muff; groom to bridesmaid, pearl brooch; groom to his mother, gold brooch; Mrs. Wm. Stait, Sr., silver butter dish and towels; Wm. Stait, Sr., gold watch and chain to bride; Mr. and Mrs. Stait, Jr., silver pudding dish; Mr. and Mrs. Robt. Bell, fancy parlor lamp; Mr. and Mrs. S. Taylor, carving set; Mr. Robt. Lees, marble clock; Mr. and Mrs. J. Weir, silver cake dish; Mr. and Mrs. O. Burns,

silver sugar bowl; Frankie Burns, knife; Mr. and Mrs. M. Snider, lace curtains; Mr. James Bell, silver syrup dish and tray; Mr. J. Gorley, set of carvers; Miss Kennedy, silver berry bowl; Mr. C. A. Snyder, water-berry clock; W. McBeth, fancy vase; Mr. and Mrs. Valde, silver pickle dish; Mr. W. H. Burns, silver fruit dish; Mr. and Mrs. A. McBean, gold edged salad dish and nappies; J. Connor, silver butter dish; John Carrol, parlor lamp; Mr. and Mrs. J. Buchanan, table spread; Mr. Milton Matthews, silver fruit jar; Miss Mary Stait, cake dish; Miss L. Dalzell, fancy pin cushion; Mr. and Mrs. James Moffat, biscuit jar; Mr. and Mrs. Thos. Whitmore, silver cake dish; Miss J. McLean, silver butter knife; Mr. and Mrs. T. Caister, pepper and salt set; Miss Walton, linen centrepiece; Mr. and Mrs. J. King, silver butter dish; Mr. and Mrs. Dalzell, pickle jar; Mr. and Mrs. V. Anderson, set of carvers; Misses Minnie and Mary Jackson, fruit set; Master Gordon Bell, match holder and cake dish; Mrs. Jackson, table linen; Miss Annie Bell, sideboard drape.

Mr. and Mrs. Thos. Stait arrived home from their wedding tour Friday, 20th inst., a reception being given by Mr. Stait's mother, in which the young couple amused themselves with dancing and games until a late hour.—Weekly Graphic, Portage La Prairie.

### Fancy Judging Bad.

Dominion Live Stock Commissioner F. W. Hodson, Ottawa, at the annual meeting of the Canadian Association of Fairs and Exhibitions held in Toronto last week, suggested "Some improvements in our Fall Fair." He had no objections to horse races in themselves, but he had seen them ruin fairs before, and these shows simply degenerated into race meetings.

He would place a man over each division of the fair and have all the work under the secretary, who should be a sort of managing director.

Mr. Hodson urged the importance of an early beginning in the preparations for the fairs. If a show closed on September 15th preparations should be begun on September 16th for the next one.

People appreciated the educational feature of the exhibitions, and he would have such attractions as school children's exhibits, gymkana and caledonian games.

He advocated that a standard of excellence should be established in judging and uniformity adhered to. The several horses and cattle breeders associations should draw up these standards and submit them as models for the judges as the fairs to go by.

Because of fancy judging—paying of attention to colors, markings and the little details, rather than to practical tests—the Ayrshire class, for example, had been ruined, and they were but one of many.

Mr. Hodson stated that 50 per cent. of the farmers were losing money every year by keeping badly bred or badly fed animals. A farm of 100 acres should support 20 cattle in a year.

In the general discussion that followed, there was shown a strong feeling against the professional exhibitor at the smaller fairs. The meeting seemed to be of opinion that township and county fairs should confine their exhibitors to their own people. The results had been eminently satisfactory wherever this method had been pursued.

### Permanent Cure for Neuralgia.

Experienced sufferers state that no remedy relieves neuralgia so quickly as a hot application of Polson's Nervine, the strongest liniment made. Nervine is certainly very penetrating and has a powerful influence over neuralgic pains which it destroys almost at once. Nervine is highly recommended for Rheumatism, Lumbago, Sciatica and Toothache. Better try a 25c. bottle, it's all right.

### The Waist That Buttons Down the Back.

When Mabel squeezes in a waist That buttons down the back, And then cries out, in pleading tones: "Come here and help me, Jack." I sigh for those delicious days— Those days when I was free, And Mabel never pleaded to Be buttoned up by me.

Ah, what a privilege would I Have deemed it then to hear Her cry: "Come, please, and help me with These dreadful buttons, dear!" How gladly would I then have gone And given her a smack For each delightful button down The row upon her back.

But things, somehow, don't thrill me now As once they might have thrilled; And oh, the waists that Mabel wears Are always amply filled! My temper's wraped, my thumbs are sore, My fingers ache, alack! Confound those awkward, foolish waists That button down the back!

### Signs of Grip.

If yer bones all Ache like sin, Can't tell whar The pains begin; If yer weepy In yer eyes, Don't keer ef yer Lives er dies, Ef yer head ez Bilin' hot, Feel et bustin' Like ez not; Ef yer feet ez Clammy cold, Ef yer feels A centery old; Ef yer can't dig Up a think, 'Cause yer noddle's On der blink; Ef yer staggers When yer walks, An' yer stutters When yer talks; Don't go guessing', Take my tip; Git a doctor— Got th' grip!

### Beet Sugar Won't Pay.

As the Government has acceded to the request of the Ontario beet sugar manufacturers to import 5,000 German sugar beet growers. Some interest attaches to the following criticism of beet sugar manufacturing as a self-sustaining industry. Mr. Guy Wyatt, the writer, is a large cane sugar merchant Demerara, British Guiana, and a recognized authority on the manufacture of sugar.

In a letter to the Canadian Manufacturers' Association he says: Beet cannot compete against cane unless assisted by bounties or subsidies, and I am sorry to see Canada bolstering it up. When the U. S. has all the cane sugar they want, we hope Canada will take the bulk from British Guiana and the British West Indies.

### Revolution in Newfoundland.

Since the introduction into Newfoundland of the new Inhaler Remedy, "Catarrhozone," the treatment of catarrhal diseases has been entirely revolutionized. The old time snuff and internal medicine has been cast aside and everyone is inhaling Catarrhozone; it clears the head and throat in two minutes, and is very agreeable and pleasant to use. Catarrhozone is a wonderful cure for Coughs, Colds, Catarrh, Asthma, Bronchitis, Lung Troubles and Deafness. It relieves quickly and cures permanently. We advise our readers to try Catarrhozone. Price \$1.00, trial size 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

### Cause of Splitting Headaches.

Poisons accumulate in the blood and spread every moment to all parts of the body. The brain becomes congested, nerves irritated, and the result is that awful headache.

Ferrozone is nature's own remedy for headaches; it is a blood strengthener and purifier of unclean morbid matter, a lasting potent tonic, and the greatest invigorant and health maker known. Headaches never bother people that take Ferrozone after each meal. Buy a box from your druggist for 50c. By mail from Polson & Co., Kingston, Ont.
