Brain-Food Nonsense.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutrition is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get this reliable remedy at Darling's Drug Store.

He Got Out.

He stood in the doorway, hat in hand, and the stuttering young lady was inviting him to call again.

"Come around s-s-s-s," she began, trying to say Sunday, but the sentence was never finished.

The dog thought she meant "Six 'im," and he did.

An Essay on Woman.

The Woman is the Female of the Human Race, which she wins by a Short Race.

In the Human Race, Man is Scratched. It is Woman who does the Scratching.

She has many Curious Habits. One is to Tie herself up in Whale Bone, and Pull and Squeeze herself in Something Dreadful. Then she Seeks some Man to put His Arm around her Waist and continue the Squeezing.

Woman's Crowning Glory is her Hair. My Mother is a very Estimable Lady, but I do not Mind Telling you that Half of her Crowning Glory is Usually on the Dressing Table. The other Half appears to Get into the Butter.

Father came Home the other night with a Bright Golden Crowning Glory on his Coat. Mother Dusted his Coat for Him.

Woman considers herself to be the Ornamental Portion of the Community. She is the Drone of the Hive, and Never Works. Only with her Tongue. And that never Stops.

In that Organ, the Tongue, Woman has Solved the Secret of Perpetual Motion.

Woman has One Great Quest. It is to Chase Some Poor Fellow until he Gets so Rattled that he proposes to Pay her Board and Lodging for the Rest of her Existence. She then says, "This is so sudden!" and the poor Fool is Booked.

She has Three Objects in Life: First, Dress; Second, Dress; Third, Dress.

She really has another Object—her husband. But he is an Object of Pity.

She is very Fond of Him, and says she Hopes she will never Lose Him. If she Did, she would either have to Get Another or else Work for her own Living.—From "Living Animals," by Ally Slopper.

A farmer near Clinton sold a calf the other day, eleven months old, which weighed 780 pounds. He got 5 cts. a lb. for it or \$39.20 in all. It was more of a baby elephant than a calf, and the farmer now feels sorry that he did not keep it for two or three years longer, just to see how big it would have grown.—Ex.

Pure-Bred Clydesdale Stallion

Macgregor's Last.

The undersigned has bought from Mr. O. Sorby, Guelph, the above named stallion foaled July, 1900; he is a beautiful bay, large and symmetrical, possessing size, quality and action, and, as his name denotes, he is the last youngest of the get of the famous Macgregor (1847). His dam is the prize-winning mare "Sweet Pea" (12942), and sired by the Cawdor Cup winner, Prince of Currahan (8131) by the famous Sweet Lavender (9180) was also a winner at many of the largest show in Scotland and has for her sire the renowned Darnley (222). In looking over Macgregor's Last's pedigree it will be easily seen that he is an exceptionally well bred animal himself and dam and grand dam are all by champion stallions and possessing a strong degree of Darnley and Prince of Wales blood, which has gone to make all the best sires of the present day. It would be impossible here to enumerate all the prizes they and their products have won. Any intending to improve their stock should patronize this exceptionally good young horse. Pedigree in full can be seen on application to owner.

Terms—\$12. PETER MUTCH.
