LAST week we announced the sale of Mr. Wright's bakery to Messrs. Stinson and Hind and stated the intention of the new proprietors to begin this week. Towards the end of the week, however, we learned that Mr. Stinson had ruded his bargain, and decided not to enter the partnership. Determined to go on with the deal, Mr. Hind got his brother to join him in the business and on Monday morning last the Durham bakery passed to the Hind Bros., who, we trust, will be successful in their undertaking. Though Mr. Wright is out of the business, we are glad to learn that he will still remain a citizen of the town.

REV. J. LEDIARD, of Owen Sound, was in town Monday night and addressed a meeting in the Town Hall in the interest of the neglected children's shelter at Owen Sound. On Tuesday morning the writer in a short interview learned that fourteen children had been taken from Durham and vicinity and afforded the benefits of the shelter. We learned also in the same interview that no assistance has ever yet been given to support the institution, which, to our mind is deserving of the consideration of every true spirited, sympathetic lover of his fellow beings. We understand the public will be asked in a few days to make contributions to the institution, which, in our judgment, is worthy of support.

JUST as we go to press a magistrate's case is in progress. Jim and Charlie Lee of the Chinese Laundry are the complainants. The charge is one of assault and battery against two young men of the town. It seems hard to believe that Durham has a man mean enough to originate a quarrel with those poor little beggars whose conduct here some of the young white people might imitate with a good deal of profit. Mayor McIntyre is the presiding magistrate.

## HITS AND MISSES.

A writer of keen observation says: "We live in a land of high mountains and high taxes, low valleys and low wages, big crooked rivers and crooked statesmen, big lakes, big pumpkins, men with pumpkin heads, silver streams that gambol in the mountains, pious politicians that gamble in the night, roaring cataracts and roaring orators, fast trains, fast horses and fast young men, sharp-toed shoes, noisy children, fertile plains that lie like a sheet of water, and a lot of Grit and Tory newspapers that lie like thunder.

An innkeeper, referring to a horse which two novices were to drive, told them he was perfectly quiet, but the rein must be kept off his tail. "Right," said they; "we will bear it in mind." When they returned the innkeeper inquired how they got on. "Splendidly," was the reply. "We had one rather sharp shower, but we took it in turns to hold the umbrella over the horse's tail, so there was no real danger.

A newspaper was running a serial story, "The Truth." One week, so much space being devoted to other matters, the editor was unable to continue the story, so made the following announcement, containing perhaps more truth than any other item in the paper: "The Truth" was crowded out of this issue on account of the press of more important matter.—Farmer's Advocate.

## Brain-Food Nonsense.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get this reliable remedy at Darling's Drug Store. tf.

## Neglected and Dependent Children of the County of Grey.

The above was the subject of an exceedingly interesting address given Tuesday night in the Town Hall by Rev. Jas. Lediard, the Agent of the Children's Aid Society. Mr. Lediard is the master of a persuasive eloquence and he employs it in his plea for Neglected Children. They are, he says, the country's and the churches' best assets and no pains or expense are too much to train them to good citizenship. The following facts came out in the address:

There are about 30 C. A. Societies in the province. Over 2,000 children have been rescued and placed in homes. Of these nearly 100 belong to this county and are wards of this society.

Many instances were given of cruelty and neglect and immoral surroundings from which children had been removed by the speaker and by the very efficient help of Constable Jas. Carson who has always been a warm friend of the Society. No less than 14 children have been removed from this town and the adjacent country. On this Mr. Lediard based a strong plea for financial help, and instanced the bases of Meaford, Hanover, Thornbury and other places who by an annual canvass of the citizens are enabled to send in a good round sum yearly to assist in this important and benevolent work.

As a result the following ladies were appointed a committee for this purpose and will at once solicit aid for this work:—Mrs. Grant, Mrs. McArthur, Mrs. Ramage, Mrs. Stewart, Mrs. Wolfe.

The chair was occupied by Ex-Warden Binnie, who with the Revs. Ryan and Farquharson spoke briefly and approvingly of the work for our waifs and strays.
