DURHAM CHRONICLE

W. IRWIN, Editor and Proprietor.

Durham, Sept. 17, 1903.

Corner Concerns.

Under an arch of evergreens bedecked with beautiful flowers, on the lawn of Mr. G. Black, on Wednesday, September 9th, was performed a pretty wedding ceremony, the marriage of Miss Jennie S. Hargrave, of Swinton Park, to Mr. Jas. M. Allan, of Egremont. Miss Maggie G. Allan played sweetly the wedding march and the Rev. Mr. Matheson, of Priceville, tied firmly the marriage knot in the presence of about two hundred invited guests. Miss Mary A. Hargrave, cousin of the bride, and Mr. Robert Reid performed the pleasant duties of assisting the happy couple through the ordeal. The bride looked even more handsome than is her want to do in a dress of white organdie trimmed valenciennes lace and insertion, with bridal veil, while the bridesmaid looked pretty in her gown of white muslin trimmed with blue ribbon. Both carried in their hands pink and white dahlia. Then all repaired to the dining-room of the spacious stone house where tables were loaded with everything tempting to the palate and decorated with sweet peas and asparagus ferns. The wedding cake was such as can only be prepared by depths in confectionary, and was one of the grandest the company ever partook of. The enjoyment of the evening consisted chiefly of dancing, the String Band of the Haw Bros. furnishing the music. The presents were very costly ones, numerous handsome and useful. The brides travelling dress was a very handsome one of brown camel cloth with white satin blouse and hat quite in keeping with it. The best of good wishes, not only of those assembled but also their many friends go with them.

Mr. James Tucker went to the Toronto Exhibition last week, and his good wife went to spend a few weeks with her friends in Belgrave.

Miss Bella Allan is spending a week or two with her cousin, Mrs. Roberts, of Holstein, who, we are sorry to report, is ill.

Mrs. A. Baird is enjoying a few weeks' visit of her cousin, Miss Smith, of Winterbourne.

Co. Comr. Allan was in Ayton on Saturday to start the construction of the Binder twine factory.

Miss A. Sirrs has gone to reside in Durham and engage in the millinery business for the winter.

With his old time pluck, Mr. A. Crutchley has commenced to rebuild a barn again this fall and has most of the timber out for it.

Orchard.

Miss Jessie Mark, of Toronto, visited at her home for a few days last week.

Mr. Frank Calvert, of Brandon, Man., who has been visiting at the parental home, left for his home in the west on Monday last.

A number from here attended the fair in Toronto last week.

The Harvest Home services held in the Methodist church last Sunday were well attended, owing to the inclement weather on Monday evening the attendance was somewhat smaller than was expected, but with all it was a success.

Again we are called upon to re-

port the death of another resident, Eliza Bogle, widow of the late Andrew Bogle, who passed peacefully away to that home from which no traveller returns. The deceased had been in very poor health for some years passed. She leaves to mourn her loss, two sons and one daughter Maggie, who feels that vacancy in their hearts which never can be filled. The funeral took place Sunday afternoon to the Maplewood Cemetery and was well attended. The services were conducted by her pastor, Mr. Clark, of the Baptist church. The community are in deep sympathy for the orphan children.

Glenroaden.

Mr. John Cameron, who has been on the sick list for the past six or seven weeks, has returned to work at the Glenroaden Mills and is all right again.

Mrs. Richard Banks was visiting Proton friends for a few days last week. She was accompanied by her son, John.

Miss Ada Banks was home from Toronto visiting her parents and other friends for a few days last week. Sad hearts left behind.

Miss B. S. would like to know who A. Mack is.

Miss Bessie Banks is taking in the Toronto Exhibition this week, also Messrs G. Boyd, John McKechnie and Wm. Kenny.

Mr. Jno. Quinn, Sr., is busy cutting wood and likes the job well.

Mrs. Bailey, who has been visiting her daughter, Mrs. Quinn, Sr., is going up to Owen Sound next week to visit her son there. She is a spry old lady for her years—about 80.

Mrs. Gillen Boyd had a quilting one day last week and it is reported the maids and matrons worked well so Mrs. Boyd, Jr., says.

Mr. Jas. Vaughan, Sr., has invested in a horse, buggy and harness. A very wise move as he will be able to take things easy now, and have a drive when he is able. He has been in poor health for the past year, and not able to do much work.

Bob McFarlane's Fly Paper is too strong so Mrs. Boyd says as it caught a cat and before the cat got away it turned 14 summersaults.

The potato rot is making its appearance in this section but not to any great extent yet. It is to be hoped it will not be so bad as last year.

Wedding Bells are ringing to the north of here. More anon.

Messrs. A. Boyd and F. Staples took a trip to Proton and visited Messrs. James Banks, George Firth and John Topin, and were favorably impressed with country and crops there.

Messrs. Roberts and Williams were visiting Glenroaden friends for a few days lately, and report having a good time.

Messrs. Morlock and Sam Scott, of speckled trout fame, were up last week fishing and caught the limit.

A middle aged man was asked to bring up a coat from the mill yard a short time ago, and instead brought up a sack of straw. Say, Mr. Editor, what nationality was he, Irish or Scotch? The same nationality as our Cor. in all probability.

Nervine Cures Every Pain.

This is the testimony of sufferers in every part of the Dominion. Mr. Benjamin Dillon, of Leeds, Ont., states, "I am not in the habit of puffing up proprietary medicines, but I feel it my duty to add to the testimony as to the marvellous value Nervine as a remedy for pain. Nothing I think equals it as a universal remedy and householders ought to feel it as much a necessity as bread itself." Sold by dealers in medicine everywhere.

IN MEMORIAM.

In memory of Tillie Brown, who died August 31st, 1903.

A saddened, softened feeling
Is creeping o'er us now,
As we think of gentle Tillie
With pure uplifted brow.
And life like roses parted,
Always in sunny smile,
And the cadence of her sweet voice
As it slipped forth the while.

Friends stood round her dying bed
And tears unbidden came,
To think they never more should hear
Her merry voice again,
For God has called her from this earth
Where life is but a dream,
To dwell forever in the skies
Mid happiness supreme.

The bright spring time has come,
But with springs no cheer
To her lonely, weeping parents
Nor to her sisters dear.
For they fondly love each other,
And 'twas truly hard to part
Dear Tillie from her home and friends
And sever heart from heart.

Now the green grass is growing
Upon her little mound,
Where darling Tillie sleeps
Beneath the cold, cold ground.
And with sad hearts they turned,
When their darling was laid low
Under the dark, cruel earth,
And then they knew their woe.

But we can't forget her kindness,
In the happy times that's gone,
Nor her sympathy to others
Manifest to many a one.
So a long and fond farewell to her
We shall never see again,
But one whom we can't forget,
Our darling Tillie Brown.

By her Sister.

The Law of Poundage.

This is the law respecting the poundage or taking up of stray animals: In case the animal is a horse, bull, ox, cow, sheep, goat, pig, or other cattle, if distained by a resident, instead of delivering the same to the pound keepers, he may retain said animal in his own possession, provided he makes no claim for damage but notice in writing must be forthwith given to the owner, if known; and then, if not known, notice shall be given within 48 hours to the township clerk, together with a description of the color, age and natural and artificial marks on said animal. If the animal or animals be worth \$10. or more, the distrainer shall advertise the same for 3 weeks in a county paper. One month after being taken up, the distrainer shall advertise and sell same animal—three days notice of sale to be first given. Out of the proceeds he is authorized to pay for the advertising necessary care and trouble, and for food for animals. Balance, if any, if not claimed by owner within three months, must be paid to township treasurer for local municipal purposes.

Brain-Food Nonsense.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutrition is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get this reliable remedy at Darling's Drug Store. tf.

His Eye Knocked Out.

Owen Sound Times.

A pitiful accident, which is not without its malicious features, occurred on Saturday afternoon on Bay street, opposite the National Table factory. Ernest Webb, a young man of probably twenty-three years of age, who lives in Brooke, was wheeling towards Leith in company with George Doherty, a friend who had recently come up from Toronto to work in this town. As they wheeled along they noticed some youths on the top of the rock. One of them shouted something that Doherty understood to be, "Watch me pink that fellow on this side," and then with an oath hurled a stone with his left hand, which struck Webb square on the right eye, smashing the optic hopelessly. The young men, as they saw Webb fall, became frightened and ran back out of sight. Webb was taken to Dr. Lang's surgery where he showed rare pluck while the injury was being dressed. When the bandages were removed by the doctor on Monday the young man could see but faintly with the left eye, and it is feared that it may go blind in sympathy with the other. The young man's eyesight was not strong before the injury was received, having been weak since an accident four years ago. The part of the affair which arouses indignation is that the stone was thrown deliberately by one of a party of four young men who had been doing away with the contents of a keg of beer on the top of the rock. The police secured information which seems to point conclusively to Charles McCrae as the perpetrator of the deed. The police searched all Saturday night and Sunday for their man. On Sunday afternoon they chased him and would have winged him with their revolvers but refrained from shooting because of the proximity of a couple of houses whose inmates might be endangered. The police wired in every direction, and on Monday morning received a telegram from Chatsworth stating that the fugitives, which included McCrae and a couple of other young men whose characters had been previously unblemished by contact with the law. The fugitives were camping in a bush near Chatsworth depot, and P. C.'s Shute and Frizzell drove out at once. With the assistance of a Chatsworth constable they were surrounded. P. C. Shute removed his shoes so that he could give them a run if necessary, and then broke into the copse of trees where they were hiding. McCrae suggested that the trio put up a fight, but the other boys refused to respond. Two of them were quickly handcuffed together and with the other held tightly with his right hand he emerged with the three young men. There was evidence in the possession of the crown to show that McCrae was the one especially wanted, and on Tuesday the other two were released, to appear if wanted next Tuesday. McCrae elected to be tried by jury and was sent to gaol on a week's remand.

Farmer's Association.

A meeting of the farmers of this Riding is proposed to be held at the Town Hall, in Durham, on the 30th, at 7:30 p. m., for the purpose of organizing a Farmers Association. W. L. Smith is coming to organize and form an association in the interest of farmers, and with other speakers on the programme let us look forward to it.

THE CEMETERY.

The Directors of the Cemetery have completed at very considerable expense the water works at the cemetery, and opened hydrants there and in the park for the accommodation of the public. They propose building an ornamental rockery, and for this purpose will require a large number of stones, and in this work they ask the co-operation of all persons interested in the cemetery. Should anyone have in his possession any odd stones of 50 pound weight and upwards, the Directors will take it as a kindness if these stones are delivered in Durham at Robert Cochran's warehouse, or at the cemetery before the 1st of October.

J. P. TELFORD,
Sec'y Durham Cemetery.

Women's Institute.

A very interesting meeting was held at Mrs. W. L. Dixon's on Thursday last. Papers were given on "Cheese making in four hours," "Poultry" and "Farm Life." The discussions were very good. The meetings are held on the first Thursday of every month. The next three will be held at: Mrs. Geo. Binnie's, Bunesan, Oct. Mrs. Thos. McGirr's, Durham, Nov. Mrs. Wm. Ramage's, Thistle, Dec.

AFTER long and painful illness there passed away at her home here, on Thursday evening at the age of 49 years, Ellen Dowling, wife of the late Abel Stafford, who predeceased her 9 years ago. There remains to mourn her loss a family of six children three sons and three daughters. The daughters are Mrs. W. Teeter, of Markdale, Mrs. W. Watts, near Berkeley, and Lucy at home. The sons, Edwin, Earnest and Albert, are also at home. The funeral took place Friday to the Berkeley cemetery whither it was followed by a very large concourse of sorrowing friends. The Rev. Mr. Newell, her pastor, officiated at the house and grave.—Glascott Cor. Star

A simple minded Warton couple the man aged 45 years and the girl aged 19 undertook to get married last week and decided on Hepworth as the place for the act. There they purchased the ring and outfit and looked about for a minister. Joe Wanamaker saw them and offered to marry them. He asked them the questions and performed a mock marriage then demanded \$1.50, the groom's last dollar. When the couple applied for the minister's certificate Joe was a dilemma, and the thing leaked out. A warrant was sworn out for his arrest.—Wroxeter Star

One day week before last as Mrs. John Graham was passing through the barnyard she was attacked by an old sow, thrown down and otherwise abused. She received some flesh wounds on the arm and the hip. Mrs. Graham shouted for help and timely arrival of the dog rescued her from her perilous position. During the struggle the pig had Mrs. Graham's hand in her mouth. It was a narrow escape which might have terminated fatally. Mrs. Graham has recovered from her severe fright.—Fordwich Record.

Market Report.

DURHAM, SEPT. 16, 1903.

Fall Wheat	70 to \$ 72
Spring Wheat	70 to 72
Oats	28 to 28

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Women and Jewels.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all but it is certain a cure for coughs, colds and all bronchial troubles. You can get this reliable remedy at Darlings Drug Store. tf

Vinegar and Spices.

White Wine Vinegar from 30c gal. up. Cider Vinegar, English Malt 65c gal. Whole and Ground Spices.
