MODEL BAKERY.

A Plea for Quality in Fruit.

In an address at the recent annual meeting of the American Pomological Society, held at Boston, Mr. G. Harold Powell gave some excellent advice in regard to growing fruit of first class quality. Many of the points which he brought out were noted with approval by Mr. W. A. McKinnon, Chief of the Dominion Fruit Division, and are given here for the benefit of Canadian fruit growers. Mr. Powell recommended as summer apples for the United States, Red Astrachan, Sweet Bough, and Williams: for autumn apples, Gravenstein and Alexander: for winter the Greening, the Newton Pippin, which he stated had sometimes sold as high as \$20 00 a barrel, the King, the Spitzenberg, Baldwin, Spy, and McIntosh Red. He recommended top grafting the King on two year old Spies, stating that in this way a vigorous tree bearing good crops would be obtained.

Regarding the Ben Davis, Mr. Powell made a very cutting criticism, declaring it had only one quality to recommend it, namely, its color; and stating that no fruit would take a prominent place in our markets or would continue to be a profitable one for growers, which depends upon a single virtue for its sale.

The Champion grape received a similar castigation. Its only virtue is its earliness, and this Mr. Powell thinks has made it one of the worst enemies of the grape grower, inasmuch as the price of the Champions at first very high, drops almost to nothing. The last price of the Champion, or what the public are willing to pay after they have become acquainted with its wretched quality, fixes the price for all other grapes which follow though they are infinitely superior in quality to the Champion. In other words, rock bottom prices having been once fixed it is impossible to get back to normal prices. Mr. Powell spoke rather more kindly of the Alberta peach, but is of the opinion that it also is not an unmixed blessing, to the fruit growers. It is a splendid shipper but has no quality.

The conclusion to be drawn from Mr. Powell's remarks is that whatever transient advantages may be obtained by the grower from the production of inferior varieties, it is to his permanent advantage, and it is his only wise policy to produce the highest quality in each sort of fruit which he places on the market.

Striking testimony to the value of such advice is furnished by some reports of fruit sales just received by the Fruit Division from London, England. On Oct. 7th, there were sold a large number of half-cases of Californian and other American pears, including about a dozen varieties. The Seckel which is generally regarded as a pear of the highest quality, though small in size, sold for 12/; the Glout Moreceau for 13/6; the Calabash (similar to our Bose) for 11/; the Comice (one of the varieties recommended by the Fruit Division) for 11/ to 12/. If we contrast these prices with those for fruit of inferior quality we must conclude that the Englishman wants only the best fruit and that he is prepared to pay for it. Bartlett's, which are certainly above medium quality fetched 6/ to 7/; Anjou 9/; Clairgeau 7/ to 7/6; Duchess 3/9; to 4/; Hardy 2/6 to 3/9; and Keiffers, which it is only fair to mention were "wet" only ten pence to 1/ a cask. Large quantities of Canadian apples sold on the same day brought all the way from 10/ to 25/ per barrel (the latter figure being for barrels) with the great majority at 15/ to 16/. On Oct. 12, half case of Comice pears were sold by the same firm for 11/6; while the Duchess variety fetched only 4/3, these being the only two sorts of pears banded that day. The highest figure for apples on that date was 25/; again to the credit of No. 1 Ribstones, while the lowest prices were 12/ for No. 2 Fall Pippins, and 13/ for No. 2 Ribstones and Gravensteins. The wide variation of 10/ per barrel, between No. 1 and No. 2 Ribstones, is particularly worthy of notice, indicating as it does that quality is sure to tell.

BOXES FOR APPLES.

In view of the scarcity and high price of apple barrels this season, and of the fact that in some districts farmers find it impossible to procure barrels at any price, the Fruit Division recommends the general use of boxes. These can be had knocked down, at almost any saw-mill for about eight cents each, and they should not cost more than ten cents each made up. As three boxes hold about as many apples as a barrel, they will be found much cheaper than barrels at fifty cents and upwards. The boxes should be well and strongly nailed, and should hold about forty pounds of fruit. The dimensions of the boxes used by the Grimly shippers are nine by twelve by eighteen inches, while the British Columbia standard box is ten by eleven by eighteen inches, these being inside measurements in both cases. The boxes should be made of strong material not less than five-eighths of an inch thick for the ends, and not less than three-eighths of an inch for the sides; the tops should have strips across the ends to prevent the weight of other packages, piled on top, from bearing directly on the fruit. It is also usual to leave open corners at the top and bottom for ventilation. Little or no packing material should be used as purchasers like to find the package quite full of fruit. A sheet of cardboard at the top and bottom will materially reduce the amount of injury from

bruises. But it should be remembered that even in this year of scarcity of barrels, it will not do to ship anything but first class fruit in boxes, as the reputation of the Canadian box and of the Canadian trade in general will greatly suffer if inferior or common fruit is imported in the box or any fancy package.

Hutton Hill.

(Intended for last week.)

A very successful Pie and Box social was held in the schoolhouse on Friday evening the 23rd of October. The program consisted of recitations, songs, plays, instrumental music and gramophone selections. All went home well pleased with the exception of those who paid over a dollar and a half for a girl's box and then let some one else take her home. Never mind Will Try again.

Miss Hannah Lawrence spent Saturday and Sunday at her home here. Mr. Robert and Miss Winnie Hopkins visited friends at Markdale.

Miss Maggie Alexander is learning the Millinery Business at Miss Dick's.

While in town the other day, Mr. W. Hargrave left his team tied in front of Mr. Parker's Drug Store while he was doing some shopping. By some unknown cause the horses broke loose and started for home where they arrived quite safe and waited Mr. Hargrave's return.

We omitted to mention that Mr. W. K. Reid had returned after a pleasant visit with his daughter in Manitoba.

Miss Mary McDonald is at present staying with her sister Elizabeth.

It might be as well for the person who took the new lantern and left the old one the night of the Pie Social to return it as there was a private mark on it.

Women and Jewels.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get this reliable remedy at Darling's Drug Store.

Orchard.

Intended for last week.

Rev. and Mrs. Truax, of Holstein, entertained the Epworth Leagues on Friday evening last. Every one was delighted with the entertainment provided and the hospitality shown.

Mr. F. Cowan and Miss F. Hampden, of Mt. Forest, visited Miss Calvert Thanksgiving Day.

Potatoes should not be a very scarce article with Mr. John Cornish as the yield is an abundant one amounting to 600 bushels.

Messrs. George Peter and John Calvert returned from Manitoulin last week with a large load of cattle.

LEG AMPUTATED.—On Friday last Dr. Moore, of Hornings Mills, assisted by Drs. Rooney and Steele, of Shelburne, went to Whitefield and amputated Mrs. Robt. Davidson's leg some distance above the knee. On the Tuesday previous Mrs. Davidson was alighting from a rig in the rear of E. Berwick & Co.'s store Shelburne, when the bone in the leg snapped in two. Not knowing the nature of the accident Mr. Davidson drove home at her request. After arriving there Dr. Moore was called in and after examination called Dr. Rooney in consultation. The result was that amputation was considered necessary. The accident was due to a swelling in the walls of the main artery, which rubbed against the bone and had worn it almost in two. The extra weight put upon it in alighting caused it to snap, but this would ultimately have occurred in any event. At last accounts Mrs. Davidson was progressing as well as could be expected.—SHELburne FREE PRESS.

Mrs. Wickwise sat up and shook her sleeping husband's shoulder vigorously. "What is it?" he mumbled. "I want you to snore either in soprano, bass, alto, or tenor, and confine yourself in one tone. You keep switching from one to another so rapidly that I can't sleep."
