**WE** have been informed by Mr. Michael Kenny, of Edge Hill, that he has procured an Auctioneers license for 1907 and is open to engage for sales in any part of the County. Application may be made to John Murdoch, Middaugh House, Durham, or to himself at Edge Hill.—4pd.

**THE** Lacrosse boys are giving a concert here on the 12th. of February. The Operetta "The Beggar Student" by W. F. Firth and his clever company of artists consisting of Miss Eva May, Miss Edna M. Porte, Miss Beatrice Hunt and Mr. Arthur H. Francis. Remember the date Feb. 12th.

**MR. W. BLACK** is certainly a lover of a good horse and always knows where to find one. Last week he sold three horses and is now driving a very handsome rich brown gelding the admiration of every person that sees him. It is not hard to make horses noticeable when they are fed on International Stock Food.

**WE** were tackled the other day by two men from Egremont. They were kicking about the new School Act amendments. Both talked at once at the rate of five hundred words a minute, and though they kept up the cackle some time it didn't seem to us that they said anything. We had no chance to reply. Call again, gentlemen, when you're sober.

**RAILWAY** workmen on the new C. P. R. line between Flesherton and Durham recently unearthed a complete whiskey making outfit buried in the swamp in the south east corner of Grey. The machinery had evidently been buried there for 20 years. It was buried beside a large pine stump and was in a fairly good state of preservation. It had evidently been used to make whiskey for early settlers.

**THE** Baptist Anniversary will be held in the church here on Sunday, Feb'y 10th. The Rev. J. B. Kennedy, M. A., of Toronto, will occupy the pulpit morning and evening. On Monday evening following, Mr. Kennedy will deliver a lecture on the subject, "A Man's Man for a' That." Special music is being prepared by the choir for both occasions. Liberal free-will offerings are asked at all services for the work of the church.

**THE** new organ ordered by the Methodist Church some time ago reached here Tuesday and will soon be installed. It is described to us as a new combination pipe organ, a bimannual and a handsome looking instrument. The Church intends to have an opening service in a week or so when Mr. Passmore, a noted pipe organist of Guelph, will be present to manipulate the machine. Solos and choruses will be furnished on the occasion and a good time is promised. We submit an application for the leadership of the choir which we presume will be the pumping of the organ.

**THE** following is given by an Alabama exchange as the correct mode for entering a printing office. You should advance to the door and give three distinct raps or knock down the door. The devil will attend to your alarm. You give him your name, postoffice address and the number of years you are owing the paper. You will advance to the centre of the room and address the manager with the following countersign: Extend the right hand about two feet from the body with the thumb and index finger clasping a \$5 bill, which drop into the right hand of the manager, who grasps your hand and the bill. After giving him the news of your locality you will be permitted to retire with a receipt for an obligation properly discharged.

**THE** contractors on the new C. P. R. have received this week a number of cars of pine timbers from British Columbia. We understand the cars were loaded at Fort Moody.

**THE** Ontario Press Association meets in Toronto the last three days of this week. We understand that Mr. Ramage is going down and as a fraternal act we may go to take care of him. He'll be sure to get full when he attends the banquet. We did last year and we know he isn't proof against groaning tables of the most tempting appetizers. We'll keep a fatherly watch over him and see that he gets home all right.

**THE** young people of the Methodist church had a pleasant social gathering Tuesday night at the home of Mr. and Mrs. Edward Burnett. Lunch was served and a program provided. The program consisted of a couple of well rendered solos by Mrs. Little, a couple of recitals by Mr. Will Laidlaw, short addresses from Dr. Wolfe and the Pastor who acted as chairman. We must make special reference to a very thoughtful address delivered by Mr. David Smith on the subject of matrimony. Mr. Smith is a very serious speaker and the subject he selected to speak on is evidently very near to his heart. Dave is tired of bachelor life.

**MR. MICHAEL KENNY** is nursing a lame leg these days. On Monday of last week he met with an accident while working on the railway just east of the town. He was operating a wheel scraper, which unlatched in some way and caught Mr. Kenny in the hooks when it fell. He was held there for fifteen minutes or more before he could be released though three men were engaged in the rescue. Strange to say there were no bones broken and in a few weeks he will be all right again. He's glad now that he was working on the railway and paid his 5¢ a month which now gives him free medical attendance.

Mr. Maitland, who has been engaged as book-keeper with the National Portland Cement Co. for the past year, is leaving March 1st for Owen Sound where he has secured a more lucrative position with the Imperial Cement Co. at the County Capital. We understand Mr. Maitland has proved himself a careful and efficient officer and we regret to see him leave. The fact of him going back to his old job is an evidence of confidence on the part of his former employers.

### HOCKEY.

C. P. R. VS. WALKERTON.

An exciting game of hockey took place at Walkerton on Wednesday evening, January 30th. The rink was crowded, and much enthusiasm was shown. At half time the score was 2-1 in favor of C. P. R. The second half was a little faster and ended in a tie, 4-4. Both teams worked hard, and both deserve credit for playing a good, clean game. Mr. Bell, C. E., manager of C. P. R. team, gave the boys an oyster supper which they appreciated most heartily. The line-up on the ice was:—

C. P. R.	WALKERTON.

### A Habit to Be Encouraged.

The mother who has acquired the habit of keeping on hand a bottle of Chamberlain's Cough Remedy, saves herself a great amount of uneasiness and anxiety. Coughs, colds and croup, to which children are susceptible are quickly cured by its use. It counteracts any tendency of a cold to result in pneumonia, and if given as soon as the first symptoms of croup appear, it will prevent the attack. This remedy contains nothing injurious and mothers give it to little ones with a feeling of perfect security. Sold at Parker's Drug Store.

### TOWN COUNCIL.

The regular meeting of the town Council was held on Monday night. Members all present except Reeve Saunders whose election was set aside on charge entered by his opponent, Mr. Wm. Laidlaw. At the time of the nomination Mr. Saunders held the position of school trustee but resigned before taking his declaration of qualification. This seems to have been irregular and the seat is declared vacant and a new election ordered.

The minutes of last meeting were read and confirmed after which the following accounts were taken up by the Finance Committee and payment recommended:

Alex Russell, hardware	\$ 8 10
Wm. Irwin, printing	38 60
N. G. & J. McKechnie, Repairing Hall etc.	6 10

Robert Adlam, Rep'g Fire Hall	2 40
Durham Fire Brigade	9 50
Robt. Torry, Stoker, Fire hall	13 45

Total .....\$ 115 26

McGowan—McLachlan—That the sum of one hundred and fifty dollars be paid to Arthur H. Jackson for salary as treasurer for the year 1906 ending February 1st 1907, and that cheque be issued for the same.—Carried.

McLachlan—Whelan—That report of finance committee be accepted and cheques issued for the several am'ts.—Carried.

Mr. Darling, the Divisional Engineer of the Canadian Pacific Railway Co., presented a profile of the new road showing where the road is to go through town for which they asked the sanction of the town council. The original route given in these columns some months ago has undergone little change. A slight deviation has been made, however, to escape the school grounds, and this change causes the centre of the road to run through Dr. Hutton's house at the foot of Garafraxa street hill. The Council, and indeed the town generally, do not like the idea of the level crossing at the foot of the hill, and there is likely to be some opposition to the plans submitted.

The Council would like to see the crossing further up the hill where there could be a safe overhead driveway going up or down the hill. The Engineer objects to this however on the score of cost. He claims that a cutting through to the north of the Presbyterian Church would cost the Company in the neighborhood of two hundred thousand dollars, and at the same time interfere very greatly with the Church property. In fact he went so far as to say that a change of route would be made rather than incur so heavy an outlay to get through the town. He also intimated in the course of his remarks that the Company originally intended to put the station on the present school ground, but they now decided to have it to the west on George Street. Another meeting of the Council is to be held on Friday night to further consider the matter.

The question of a Treasurer for the town was talked over at some length. Mr. A. H. Jackson has held the position for the past year or so, and all the members of the Council agree that he is a capable and efficient officer. Mayor Calder gave it as his opinion that one hundred and fifty dollars a year was too much salary for the work, and feeling that Mr. Jackson was not going to consider a reduction he took the responsibility on himself to advertise for applications. From the general nature of the discussion it was almost evident that the Mayor was alone in his opinion regarding the work and the salary paid Mr. Jackson. Two applications were made for the position one from Mr. Dunn and one from Mr. Bean, but the matter was deferred and no action taken for the present.

### DOES YOUR HEART FLUTTER?

You know heart fluttering means you're not as well as you should be. It's an evidence of impaired nerve and muscular power. To obtain cure, try Ferrozone; it has a special action on the heart as seen in the case of Thos. Grove of Cole Harbor, N. S., who says: "If I exerted myself it would bring palpitation. To carry any heavy weight or go quickly upstairs completely knocked me out. When bad attacks came on I lived in fear of sudden death. Ferrozone gave my heart the very assistance it needed, and now I am quite well." For heart or nerves it's hard to excel Ferrozone, 50 per box at all dealers.
