Dr. Slocum's Great Tonic and Disease Destroyer

PSYCHINE

(PRONOUNCED SI-KEEN)

Used in Thousands of Homes in Canada

THOSE WHO don't know what Psychine is and what it does are asking about it. THOSE WHO do know what Psychine is and what it does are using it. They regard it as their best physician and friend.

THOSE WHO use it are being quickly and permanently cured of all forms of throat, chest, lung and stomach troubles. It is a scientific preparation, destroying all disease germs in the blood and system. It is a wonderful tonic and system building remedy, and is a certain cure for

COUGHS, LA GRIPPE, Colds, Pneumonia, Bronchitis, Catarrh, Weak Voice, Sleeplessness, Nervousness, Malaria, Anaemia, Bronchial Coughs, Chills and Fever, Difficult Breathing, General Weakness, Female Troubles, Fickle Appetite, Hemorrhages, Night Sweats, Consumption, Catarrh of the Stomach.

All these diseases are serious in themselves, and if not promptly cured in the early stages are the certain forerunners of Consumption in its most terrible forms. Psychine conquers and cures Consumption, but it is much easier and safer to prevent its development by using Psychine. Here is a sample of thousands of voluntary and unsolicited statements from all over Canada:

Dr. T. A. Slocum, Limited:
Gentlemen,—I feel it my duty to advise you of the remarkable cure effected by your Psychine and Oxomulsion, which have come under my personal observation. Three men, well known to me, Albert Townsend, Hazel Hipson and John McKay, all of Shelburne County, were pronounced by the best medical men to have consumption, and to be incurable and beyond the reach of medical aid. They used Psychine and Oxomulsion and they are now in good health. I feel it a duty I owe to suffering humanity to state these facts for the benefit of other sufferers from this terrible disease.

Yours very truly,
LEANDER MCKENZIE, J.P.,
Green Harbor, N.S.

Psychine, pronounced Si-keen, is for sale at all up-to-date dealers. If your druggist or general store cannot supply you, write Dr. T. A. Slocum, Limited, 179 King Street West, Toronto.

John McGowan

THE SCHOOL ACT.

At a special meeting at S. S. No. 10 Glenelg and Egremont on Jan 28, 1906, called by the trustees to discuss the School Act the following resolutions were adopted. Moved by Arch MacCuaig, seconded by Thomas Tucker:

1. That we approve of the clause referring to Township Councils collecting by a general rate \$300 00 for each school within the township, as it tends to equalize the territory of the school sections as well as the school taxes.

2. But do object to collecting the additional sum of \$200.00 for every assistant teacher in those schools, as there are no rural schools requiring more than one teacher excepting those in villages. Therefore we think it unreasonable to compel the ratepayers of the whole township many of whom have difficulty in getting their own children to any school to pay the village school teacher.

3. That we object to the amendment to the clause referring to the dismissing of the Inspectors, and do respectfully request that it be cancelled. As the people are more interested in the welfare of their children than the Inspectors or the Lieutenant Governor in Council, notwithstanding any claims or insinuations made to the contrary, therefore their co-operation should be maintained.

4. That we resent to the clause referring to minimum salaries to teachers and do respectfully request that it be cancelled.

As there is a great difference in the usefulness of teachers it would be an injustice to some of them and would associate the teachers in the mind of the public with tyrants who do not scruple at robbing loyal citizens of their money and honor. Also as rural school supporters have paid and are paying the lion's share of the education of our teachers and other professions as well, and as we are none from the privileges that we enjoy ourselves, therefore we do resent to being compelled to supplement the earnings of those whom we have helped to educate at the expense of those whom we have not.

5. That the principle on which the Legislative and County Grants are distributed is most despicable and would recommend that it be distributed according to the per cent. of the whole number of children of school age in the section attending school and the work accomplished in each school and the minimum equipment. Thereby being directly an encouragement to ratepayers, teacher and pupils to co-operate for the advancement of education.

6. That we do not approve of doing away with the Model Schools, as it would be detrimental to those of limited means, and our experience is that they are the most successful.

7. That it is not the lack of our teachers' qualifications is the cause of the poor progress made in rural schools, but the irregular attendance of the pupils, and generally the cause of the small attendance is the small profits in farming, therefore the children have to help. Also the course of studies laid out for the teacher by the Educational Department a great deal of which is more ornament than use to the average rural school pupil, who generally does not get past the Third Reader, and would suggest that more prominence be given to Arithmetic, Writing, Reading and Spelling and How we are Governed.

8. That a copy of this resolution be sent to "The Durham Chronicle," "The Durham Review," "The Weekly Mail and Empire," "The Weekly Globe," and "The Weekly Sun" for publication and Dr. Jamieson, M. P. P. respectfully requesting him to use his influence in maintaining the rights and honor of rural school supporters as well as other classes all of which is respectfully submitted.

NORMAN MACINTYRE,
Chairman.

BLUE PILLS NO LONGER USED.

When the stomach needs cleansing, the bowels increased activity, the liver additional power, don't use mucral pills, try Dr. Hamilton's. DEATH OF MRS. ALKINS.

Mrs. William Alkins has gone the way of all flesh, passing away at her home in Hanover on Wednesday evening of last week at the age of 71 years and 13 days. Death was the result of a paralytic stroke. She had been ailing for some years, but had not been confined to her bed. Deceased was held in high respect by all who knew her. She was a loving wife and kind mother, and her passing leaves a sad void behind. She was born near Georgetown in the county of Haldon, and was a daughter of George. She came with her parents to Brant when quite young and at the age of 17 married Mr. Alkins, who pre-deceased her nine years. They resided in Bentinck after their marriage for a few years, and then moved to Brant, where the deceased lived until she moved to Hanover four years ago. The following children survive:—Thomas in Muskoka, Katharine (Mrs. Walker) of Manitoba, Eliza (Mrs. Geo. Noble) of Hutton Hill, Emma (Mrs. John Murray) of Toronto, Jane (Mrs. J. Noble) of Bentinck, Maud (Mrs. Thos. Reay) of Bentinck. The funeral took place at Brockbank's Cemetery, on Saturday afternoon, Rev. S. A. McLachlan, M. A., conducting the obsequies.—Post.

ONE THOUSAND YEARS OLD.

Highgate, Feb. 2.—While the Township Council was in session this week, a telephone message was sent from Clearville stating that a wild man had taken possession of Ernest Morrison's barn on Talbot street, and refused to eat anything or leave the place. He had slept in the barn since Sunday, keeping himself in hiding when any person came about. The Council ordered Constables MacLean and Scott to go out and bring him to Highgate. The two constables drove out and found the fellow with his feet frozen and almost famished. Mr. Morrison gave him an enormous meal, and after being thawed out he was brought to town and a charge of vagrancy laid against him before Magistrate McMackon, Peet and Laverton.

The Council adjourned to try the case, and the prisoner gave his name as Benjamin Slein. He said he was 1,000 years old; had two wives and killed them both; he also had 500 children, all cutting wood. He told the magistrate he had run away from the London Asylum, but the officials of that institution were telephoned and replied they knew nothing about him. For safe-keeping he was sentenced to Chatham jail for 30 days, during which time an effort will be made to find out where he came from.

The astonishment that he did not freeze to death was quickly dispelled when it was found he was "tied up and dressed" in two suits of underclothes, three shirts, four vests, four top coats, two overcoats and a smoking jacket, two pairs of socks, and two caps. Around his neck he had two yards of mosquito netting.

He appeared to be about 35 years old, about 5 feet 10 inches in height, and weighed 170 pounds (with the larger portion of his wardrobe off). He has had smallpox some time ago, as the pockmarks are plainly visible on his face and body.—Toronto Star.

Can Consumption be Cured?

There is plenty of indisputable evidence to prove that Consumption has been cured even after the symptoms were well defined and the lungs actually involved.

On the other hand, there has always been a point beyond which the disease has been considered incurable. Until a comparatively recent date this point had a place at a very early stage of the malady, but modern scientific discovery and common-sense methods of treatment have gradually moved the hopeless point further and further back, until now the Consumptive is not "given up" until the very last stage of the disease is reached.

Nothing in recent years has done so much to improve the chances of Consumptives as the advent of

FERRROL

In fact, it is claimed that, with plenty of fresh air, sunlight and comfortable surroundings, FERRROL has pushed the hopeless point to the limit, that is to say, where these fail the chances of cure are very slim indeed.

FERRROL does not kill the germs of Consumption (anything that will do that will kill the patient), but FERRROL does the work by repairing the waste tissue, enriching the blood, toning the nerves, in short, by building up the whole system and thus enabling nature to expel the disease.

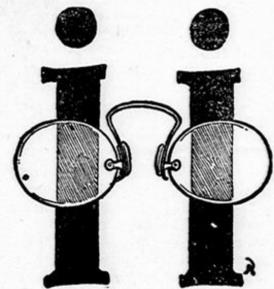

The only possible chance of curing Consumption is by proper nutrition, and FERRROL is the only perfect nutrient, because it combines in palatable and easily digested form the very essentials of life—Oil, Iron and Phosphorus.

We feel some diffidence in claiming that FERRROL will cure Consumption, lest we be misunderstood, but we have not the slightest hesitation in stating that it is an infallible cure for BRONCHITIS, CHRONIC COUGHS, CROUP, WHOOPING COUGH, CHRONIC RHEUMATISM, NEURALGIA, NERVOUS EXHAUSTION, SCROFULA and all wasting diseases.

For restoring lost weight and building up the run-down system FERRROL is absolutely without an equal.
