Paint Season Will Soon Be Here

WE HAVE THE

Ramsay Paints

When we talk Paint to a customer we claim that we have a stock that stands for quality and satisfaction. A Paint must be made right—made to withstand the storms of rain and snow, as well as burning sun. With Ramsay Paints goes a guarantee of satisfaction. The Ramsay Paints have been made in Canada since 1842—made for Canadian weather—made properly. The quality of the Ramsay Paints remain long after the price is forgotten.

Let us tell you all about it.

SCHOOL TEACHERS' SALARIES.

Editor World: The rural school sections are being stirred up with regard to the new school law. It is plain to be seen that the sole cause of the outcry is that the trustees do not want to pay decent salaries to school teachers and want to continue the grinding process, which is gradually lowering them to the scale of the Province of Quebec. There is no denying the fact that the rural school trustees almost everywhere has all the characteristics which predominate in the farmer—extreme parsimony in all matters of a public nature. Our country roads, school houses and public services of every kind which come under the management of farmers are literally starved, and so it is rapidly becoming in the salaries of the school teachers, so much so that the profession was all but deserted by male teachers, and the education of our children left to females, who could be engaged at low salaries.

Those who are seeking prominence in these rural indignation meetings have never heard of except when a question which touches their pockets comes to the front. Had they desired to improve conditions in the rural schools they might have assisted in doing so by appointing representatives to the annual convention of school trustees in Ontario, which meets in Toronto and has done so for 30 years past, and from whose deliberations have resulted many of the most important rules and regulations in our school law. But since the beginning of that organization up to the present time only one solitary rural trustee has ever been sent to that gathering. The whole work and expense has been carried on by the trustees sent from the cities and towns. The country trustees in the province outnumber those of the urban districts by thousands, but that solitary trustee who attended many years ago is all that our rural friends have to show that they are interested in education until now, when their feelings are touched thru that very part of a farmer's anatomy—his pocket. Send a fair man down to the Toronto convention and get more liberal views of this educational business.

It Actually Destroys the Cause.

That's why catarrh is invariably cured by inhaling "Catarrhozone." The healing vapor spreads to every part of the breathin' gorgans. Germs infecting the tissues of the nose, throat and lungs are killed. Nothing is left to cause inflammation. Spots that sore ore healed. Discharge is cleared away and catarrh becomes something of the past. "Use Catarrhozone" and your recovery is guaranteed. Two sizes, 25c and \$1.00 at all dealers.

GENERAL NEWS ITEMS.

CLIPPED AND REWRITTEN FROM THE LATE DAILIES.

A sad accident occurred in Toronto last Friday when the four year old son of Mr. Albert Young of Dovercourt Road was struck by a car and had his head cut off.

At the annual dinner of the Queen's Own Rifle Sergeant's Association Brigadier General Ocker made an address of warning to Canadians giving it as his opinion that Canada should have better military equipment believing that she would some day have to rise up in arms and fight like the devil to defend her rich and beautiful domain from an invading foe. He does not wish to be considered an alarmist but, he thinks the wealth

and beauty of the country will attract an envious nature to strive to capture it.

The British House of Commons by a vote of 150 to 118 rejected the second reading of the bill proposing to introduce the metric system into Great Britain.

The Upper House of Parliament at Praetoria, Transvaal, passed an "Asiatic Ordinance" providing for the exclusion of Japanese and other Asiatics who are immigrating to South Africa in increasing numbers.

In the House of Assembly in Nova Scotia a wordy altercation took place between a member of the House and a citizen of Halifax. The member is reported to have been in the committee room considerably under the influence of liquor when he made an unbecoming remark. The result was a physical explosion which floored the member and caused blood to flow freely.

MANY CHILDREN SICK.

Get their feet wet, catch cold or cramps, and give mothers an anxious time. With the first shiver or sneeze rub the little one's chest with Nervilleine, gargle the throat and give ten drops in hot water at bed-time. Next morning all is well. No cold, no time lost at school. If Polson's Nervilleine isn't in your home get it there at once. Dealers sell it in large 25c bottles.

PA'S HOUSECLEANIN'.

When the April sun's a-shinin' hot an' things is nice an' fresh. When the willer's droppin' tossels an' the blackbird's in the bresh. An' pa comes in fer noonin' an' the floors is wet as souse, Then it's "Laws-a-massy on us! Your ma's a-cleanin' house!"

Then me an' Jim is sure to find rag carpets in the sun. When we'd planned to go a fishin' for the suckers in the run; But while pa takes his noonin' an' the hosses eats their snacks, Us boys can beat them carpets while we're restin' up our backs.

An' then next day pa's certain sure to have to go to town; But he always leaves us orders, "Help to put them carpets down." An' at night, when he gets home again you'd think to hear him groan About the hardship of it, that he'd done the job alone.

Poor ma! She has it awful hard, she'll work until she drops. An' pound her thumb nails half way off, an' wet her feet with slops; She'll get so hoarse that she can't speak, an' sore at every bone; But pa he says if it was him he'd let the house alone.

An' when that night the kids is sick and has to have a drink, An' ma she can't get up because her back's in such a kink. If pashould bang the furniture whilst groping fer a cup, You can feel him gettin' mad enough to fairly eat her up.

So me an' Jim was sayin', if the time should ever come When pa and ma should change their work an' pa should stay to hum, I wouldn't like to be a boy, but jest a little mouse To hear what things pa would say if he was cleanin' house. —William Fathey Gibbons in Woman's Home Companion for April.

THE LATE MR. C. B. RECORD,

FOUNDER OF THE RECORD FOUNDRY.

Reproduced above, is a portrait of the late Mr. C. B. Record, the founder and original head of the Record Foundry & Machine Co., of Moncton, N.B., and Montreal, P.Q.

Previous to Mr. Record going into the manufacture of stoves, those used in Canada were almost wholly of American manufacture. The character of the work turned out by the Record Foundry & Machine Co., at once gave their stoves a standing, and as a result a very large business soon grew up, largely owing to Mr. Record's untiring industry and perseverance against many obstacles.

Although Mr. Record retired from active business as far back as 1879, the solid basis on which he had established the industry, has resulted in its growth from a sturdy pioneer into one of the largest stove manufacturing plants on the northern half of the American continent. With two large plants, one in Moncton and one in Montreal, the Record Foundry & Machine Co. are known from Halifax to Vancouver, and their "Caloric" and "Admiral" furnaces and "Penn Esther" ranges recognized as the standard of Canadian excellence.

"HINGE-STAYS" MAKE DILLON TWICE AS STRONG

Short, stiff, hard, steel wire makes a "hinge-like" joint at every lateral wire on the Dillon fence. These "Hinge-stays" give our fence a greater degree of elasticity—enable it to withstand greater strains. They set back into shape after receiving a heavy blow, or the unusual pressure caused by a furious bull or other animal endeavoring to push his way through to freedom. Catalogue tells more about this "twice as strong" fence.
