All kinds of Grain bought at Market Price.

John McGow

LET US SPRAY.

The Minister of Agriculture for Ontario has, for the past two years, had under consideration plans for further assisting the fruit growers of the Province. Spraying has now become, in producing a superior grade of fruit, the most important operation of the year, and while widely practised in certain sections, has not yet been given the attention that it requires in the apple sections. The advent of the power sprayer is of such recent date that the advantages it gives, especially in the spraying of apple orchards, is not yet appreciated.

For many years the Department of Agriculture has been advocating more and better spraying. Demonstrations in the use of hand and power outfits, and the preparation and application of the most effective mixtures, have been given throughout the Province with satisfactory results. It is now felt that such information has been sufficiently diffused and another step forward is proposed.

The Provincial Fruit Growers' Association has within the past three years assisted in organizing a large number of fruit growing associations. One of the aims of these associations has been the co-operative spraying of orchards by their members, and it is now proposed to assist these and kinder organizations in such spraying work. With this aid in view, the Minister of Agriculture has asked the Legislature for a grant of \$6000 to be devoted to the assistance of fruit growers in the purchase and operation of power spraying outfits. Many associations already own and are operating such machines and these will receive the same aid as those organizing during 1907. The conditions under which the grants are available have been made as simple as possible with the hope that a decided stimulus will be given to the proper spraying of orchards during this and coming seasons. Following are the regulations covering the payment of the grants:

A grant of \$50 will be made to any five or more farmers who unite to form a fruit growers' association for the purchase and operation of a power spraying outfit during the season of 1906. These associations need not be incorporated to qualify for this grant, through incorporation of co-operative associations should be obtained if the full benefits of co-operation are desired.

Co-operative fruit growing associations owning and operating two or more power sprayers will be eligible to draw a grant for each machine operated.

The number of such associations receiving assistance during the present year shall not exceed 100.

At least 25 acres of fruit trees must be thoroughly sprayed during the proper season with each outfit.

A reasonable portion of such spraying must be done on the farms or orchards of each of the parties forming the association.

Such associations before receiving any portion of the grant shall satisfy an inspector of the Department of Agriculture that the above conditions have been complied with and shall make such reports as shall satisfy the Minister of Agriculture.

Associations desirous of participating in this grant must apply to the Department not later than the first day of May.

Suffered for Five Years With Kidney and Liver Trouble.

"I suffered for five years with kidney and liver trouble, which caused severe pains across the back and a blinding headache. I had dyspepsia and was so constipated that I could not move my bowels without a cathartic. I was cured by Chamberlain's Stomach and Liver Tablets and have been well now for six months," says Mr. Arthur S. Stickland, of Chattanooga, Tenn. For sale at Parker's Drug Store.

The Post Office Department have decided to exclude from the mails in future pictorial post cards upon which there are illustrations outlined with what is known as diamond dust, which causes injury to the electric post-marking machines in use in the city post-offices. No objection is made however to the forwarding of the cards to destination if they are enclosed in suitable envelopes.

Take LAXATIVE BROMO QUININE Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c

DIED AT THE HOUSE OF REFUGE

The following item, which appeared in last week's Flesherton Advance is of local interest. It was contributed by Mr. Fred Gee, the press correspondent of the House of Refuge.

"Another death has taken place since our last report. Robert Smith died at 8 p. m. on Saturday the 6th inst., and Mrs. Saunders at 2 p. m. on Sunday last, the 13th, or one week lacking six hours of the former's death. The deceased lady was a native of England and came to Canada when young. She had attained the venerable age of 86 years and had been three times married, her last husband having predeceased her several years ago. She was one of the first inmates admitted to the home having been here two years and nine months and was the last survivor of the three female inmates of the home when your cor. was admitted. She was a life long and staunch adherent of the Methodist church of which she has been a true and consistent member. She frequently led in prayer at our divine service on Sabbath afternoons, her prayers in her native vernacular were the essence of simple fervency; she was always the first to rise to her feet in our aftermeetings to testify for Christ, and her testimonies rendered in her simple untutored manner, were so full of Godliness and love to others and thankfulness for the home provided for her that she could not fail to impress on the minds of her hearers that she led the life of a true and faithful follower of Christ, not only in word but in her every day actions which were a tangible proof of her Sunday testimony, and she gained many friends among the people of Markdale who swell the congregation in our service room each Sabbath; she also led family prayers each morning and evening at the women's end of the house. She expressed in her testimony the Sunday before her death that may be it would be the last Sabbath she would meet with any of us on earth but prayed to God that we should all meet again in Heaven. We understand that she was only two or three days confined to her bed and died at the time above stated in the arms of the matron who was holding her up in bed to prevent suffocation. She was conscious to the last, her end was peace. She will be greatly missed. She was for a number of years a well known resident of Durham, but whether or not she leaves any family connections I cannot say. When admitted she brought her grave clothes with her and requested the matron to put nothing colored on her at her death, she desired to be buried pure within and white without. Her desire was fulfilled. At 2:30 p. m. to-day the inmates were assembled in the service room together with about two dozen friends from Markdale, principally ladies, when the Rev. J. S. I. Wilson held the burial service over the remains which were exposed to view through the glass of a very neat casket provided by undertaker Chapman without extra charge, the deceased having been an old and intimate friend of Mr. and Mrs. C. The sermon of the Rev. gentleman was solemnly impressive and drew many tears to the eyes of not only her former associates, but also from the eyes of some of the lady attendants at the service from town. It was truly gratifying to see so many kind friends interest themselves in the Christian old lady inmate of the House of Refuge, and they should feel truly grateful that they have such friends. Mr. C. kindly supplied the hearse gratis."

"One of the most useful nuisances in the world," says a gardener "is soot—the kind that clogs the stovepipes and chimney, and falls on the floor when the chimney is being cleaned. Thrown on the ground in the garden, soot is a splendid fertilizer better can't be bought for garden stuff. Sifted on potato vines, pea vines, tomato vines, flower plants and bean plants it is sure death to beetles, insects and worms of all kinds. It will kill parasites on rose and rose bushes with neatness and despatch. Dropped on ant hills, it is a sure exterminator. Water bugs flee from it. It is death to plant lice and others. It will kill fleas. It should be placed in an insect powder box and used dry, just as any other powder is used." No family should be without it.

Winnipeg April 22.—Seeding is reported to have started at a number of points in the Province to-day, operations having begun on Portage Plains, at Rapid City and around High Bluff.

DOCTORS USING PATENT MEDICINES

The Honest Physician is Anxious to Cure and Uses the Best Available Remedies.

The proposed legislation through the Dominion Parliament for the regulation of the manufacture and sale of patent or proprietary medicines is of the utmost importance, and it is receiving a great deal of attention, not only by the proprietary medicine manufacturers, but also by the leading doctors and druggists. Every manufacturer of reliable and high class remedies welcomes the bill as a step in the right direction. The discussion has brought out the fact that the best physicians in Canada and on the continent approve of and prescribe Psychine in cases of the most difficult character. In a recent instance of very serious throat and lung trouble the patient had been using Psychine. Two leading United States specialists were consulted, in addition to two eminent Canadian physicians. Upon learning what the patient was using, a sample of Psychine was taken and analyzed, with the result that the physicians advised its continuance. They prescribed no other medicine but Psychine, with the result that the patient has fully recovered and is a splendid walking and talking advertisement for the wonderful curative power of a remedy that will "stand up" before the keenest professional criticism and analysis. As a builder up of the system and restorer of all wasted conditions, Psychine has no equal, and the best and most earnest physicians recognize this fact.

"At the age of 25 my lungs were in a terrible state. I had a gripe the year before; it settled on my lungs and I kept steadily growing worse till I got down so low I was in bed for six weeks. I had a consultation of doctors, and they said they could do nothing more for me. Then I started to use Psychine. I took the medicine for more than a year. It certainly did wonders for me. I am now as strong as I was before my sickness."

MRS. H. HOPE, Morpeth, Ont. Psychine, pronounced Si-keen, is the greatest of tonics, building up the system, increasing the appetite, purifying the blood, aids digestion, and acts directly upon the throat and lungs, giving tone and vigor to the entire system. At all druggists, 50c. and \$1.00. Dr. T. A. Stearns, Limited, 179 King Street West, Toronto.
