### STOMACH TROUBLES.

Mrs. Sue Martin, an old and highly respected resident of Faison, Miss., was sick with stomach trouble for more than six months. Chamberlain's Stomach and Liver Tablets cured her. She says: "I can now eat anything I want and am the proudest woman in the world to find such a good medicine." For sale at Parker's Drug Store. Samples free.

### Varney.

The people of this community sympathize very much with Mr. Geo. M. Leeson in his sad bereavement, more so on account of him so lately coming to Varney. A sad beginning in his new home. We commend him to the One who is alone able to bind up the broken heart.

Mrs. J. M. Hunter, of Durham, visited at Mrs. J. W. Blyth's one day last week.

Tommy Wallace sold a fine driving horse to Wm. Black, of your town, for a very good price. Billy says it's a dandy and it would take a good lot more money to buy it now.

Miss Ida McTier has been stopping with her aunt, Mrs. Wm. Crawford, for the past few weeks.

Mrs. Crawford's sale went off good and lively on Friday. Auctioneer Clark was in good spirits. Everything put up was sold excepting the hotel. J. W. Blyth got the 5 1/2 acre lot of land.

We were very sorry to hear of little Cecil Barber getting his arm broken last week. The poor little fellow had only nicely gotten over a broken leg. He is a son of Mathew Barber.

Calvin Deane is burning lime for Billy Bryans. They burned and sold one kiln, and are at the second one.

Albert McClinton is about the proudest fellow around here now-a-days. He says he is King Dadd. The baby is a fine little girl, and mother and child are doing nicely.

Ethel Pettigrew, of Mt Forest, spent a week ago Sunday at home.

Mr. Wm. Renton is busy building the stone work for Alf. McCabe's house.

Wm. Caldwell treated himself to a dandy young horse lately. He got it up near Priceville.

The Epworth League held their annual business meeting on the 20th when the following officers were elected for the coming year: President, Mrs. R. J. Allen; 1st Vice, Wilbert Blyth; 2nd Vice, Mabel Mead; 3rd Vice, Mrs. Con. Kreller; 4th Vice, Eva Blyth; 5th Vice, Lena Allen; Secretary, Nella McNulty; Treasurer, Maggie McCalmon; Librarian, Winnie Lauder. Under the above staff of officers the League is sure to prosper during their term of office. The League will hold a social evening on the 17th of May. A good time is expected.

The Sacrament of the Lord's Supper will be administered next Sunday in the church here, and on the following Monday the Quarterly Board meeting will be held in the basement of the Methodist church, Durham.

We are pleased to say that Albert Morrison, who had his arm so badly out a few weeks ago, is getting along fine, and, it is thought, will have the use of his arm again.

### Hon. J. P. Whitney a Vice President

The Hon. J. P. Whitney, Premier of Ontario, whose portrait appeared in our last issue, in connection with the announcement of the firm stand he had taken in the Legislature in opposition to Sunday cars for Port Arthur and other places, has been elected by the Executive Board a Vice-President of the L. D. A. of Canada and has readily accepted that office. The Executive Board of the Ontario L. D. A. adopted by a standing unanimous vote the following resolution:

"That the Executive Board of the Lord's Day Alliance of Ontario, composed of representatives from all parts of the province, desires to express to the honorable Premier of Ontario, the Government, and the Legislature, its sincere and cordial appreciation of the firm stand, taken in the Private Bills Committee and in the House in favor of maintaining the Lord's Day as a day of rest and quiet in this province."—S—The Lord's Day Advocate.

### A QUESTION OFTEN ASKED.

Why so many people feel worse after taking pills than before? Trouble is that drastic pills are used. No remedial action is obtained, the bowels are irritated and dreadful constipation follows. In using Dr. Hamilton's Pills you are scarcely conscious of having taken medicine. Although very mild, Dr. Hamilton's Pills do regulate the bowels, stimulate normal action of the glands, and create neither nausea, griping or violent action. "Positively guaranteed for biliousness, indigestion, stomach, liver and kidney pills. For a safe family pill rely on Dr. Hamilton's, 25c per box at all dealers."

### Paste Diamonds.

Imitation diamonds are called "paste" because most of them are made of a paste which is composed of red lead, rock crystal, carbonate of potash, borax and white arsenic. This substance is technically known as "straas."

### White Lead.

White lead is the result of exposing sheets of lead to fumes of vinegar.

### The Prison "Cat."

The "cat" used in English prisons has eighteen inch lashes. It is never used except as a very last resource and in the case of utterly brutalized criminals.

### London's Smoke.

London's smoke travels far. A correspondent of the Times tells of seeing the country air filled with soot sixty-four miles away from the metropolis. He asked a shepherd where it came from. The answer was: "We call it London dirt. In the winter when it comes up the snow here is covered with black."

### Juanita River.

The Juanita, in Pennsylvania, was named from a tribe of Indians living on its banks.

### John Chinaman.

So far as can be learned the earliest instance of the use of the nickname John Chinaman as a designation for Celestials is in "A Letter to the Committee of Management of Drury Lane Theater," published in London in 1819.

### A Fighting Couple.

The Duke of Marlborough and the famous Sarah Jennings fought like Kill-kenny cats. He often threatened to horsewhip her, and she as often vowed she would leave him.

### Anise.

Anise is a favorite flavoring for beverages in the Mediterranean countries. In Athens anise brandy is a popular drink and is sold not only at cafes, but also by street vendors, who carry their glasses in a belt made especially therefor.

### Early Rising Birds.

The cuckoo is the earliest riser of any bird, and the greenfinch next. The lark is the latest.

### The Bible.

The authorized version of the Bible was prepared by forty-seven scholars, who were divided into six companies, to each of which a certain portion of the Scriptures was assigned. The work took three years, from 1607 to 1610.

### Tax on Hats.

In the reign of George III. hats of above 12 shillings in value paid a tax of 2 shillings.

### The Hot Blast Furnace.

The invention of the hot blast furnace as at present used is credited to Neilson, a Scotch engineer, who patented his invention in 1828.

"MADE to walk on" is what the manufacturers say of Campbell's Varnish Stains for staining and varnishing floors, woodwork and furniture. Well if they will stand being walked upon, they must be made from a varnish that is all right. Why not try a can? For sale by A. Russell.

### Prominent Manufacturer Speaks.

In Vanleek Hill, Ont., no one is better known than Geo. S. Watson. When he says "Catarrhzone is a real cure," depend on it being so. "My wife," he writes, "was subject to bad attacks of throat irritation and bronchitis. Many remedies were tried but few proved at all useful. Catarrhzone was different. It seemed to get right at the sore spots and brought relief quickly. We have found Catarrhzone an absolute cure for bronchitis and catarrh." Nothing cures more quickly so get it today, two sizes, 25c and \$1.00, at all dealers.
