WOMEN PAY MORE.

Why Insurance Companies Discriminate Against the Gentle Sex.

Medical examiners of insurance companies say that the reason a woman pays more for the privilege of insurance than a man, is from the fact that women more readily fall victims to indigestion and stomach troubles and the fatal ailments that spring from these causes.

All persons, they say, who have a weakened digestive system and suffer from sick headache, dizzy spells, distress after eating, specks before the eyes, bloating nervousness, sleeplessness and the many other symptoms of indigestion, soon lower the tone of the whole system and are most susceptible to a fatal illness.

For curative power in all stomach troubles, nothing else is as safe yet effective, nothing else can be thoroughly relied upon to relieve all troubles from indigestion as Mi-o-na. It is unlike any remedy heretofore known, and is really one of the valuable discoveries in modern medical science.

It is not the acute attacks that influence the insurance examiners alone but the constant feelings of weakness, headaches, indigestion and stomach troubles—these things, physicians say, kill more people than many more serious diseases.

We absolutely agree that your money will be refunded should you buy a 50 cent box of Mi-o-na stomach tablets and not be satisfied with the results. Mi-o-na is sold by druggists everywhere, or will be sent by mail on receipt of price, 50 cents. Booth's Miona Company, Buffalo, N. Y.

THE COUNTRY MERCHANT.

"Yes," remarked a country merchant, "I certainly have a snap. The wholesale houses send duns every month and draw on me at sight, but if I send a bill to a farmer he becomes swearing mad and quits trading at my store. While I am hard up for money, many of those who are owing me are sending cash in advance to mail order houses. If I contribute money to any cause people say I am bidding for trade. If I don't they say I am a hog. Every day I am expected to dig up for everything that comes along, from a raffle ticket to a church fund, by people who claim I ought to do this because they do part of their trading here, but our friends Robert Simpson and T. Eaton, neither buy tickets or help the church fund, and yet get the cash in advance business; and if I were to circulate subscription paper among the wholesale houses where we trade, I would get the laugh proper. If I sell a pair of pants I must treat the family to candy and cigars; if I buy a load of potatoes I must do the same. Customers, who are able to pay, hang on to their money while I pay 8 per cent. at the bank to get ready cash. I have a big business during hard times and poor crops from people who are willing to trade with me, providing I can duplicate catalogue house prices and wait until harvest for money. My scales weigh too much, when I sell sugar, and too little, when I buy butter. I am a thief, a liar and a grafter. If I smile I am a soft soapy hypocrite, and if I don't I am a grump. Yes, certainly this is a snap." And he looked over \$10,000 worth of accounts, all good, and wonders how he could raise \$350 to pay a sight draft due to-morrow.—Ex.

Nervous Prostration

IT IS WORRY THAT KILLS, NOT WORK

Work without worry usually tends to prolong life. On the other hand, worry, with or without work, is fatal, because it uses up what the Doctors call the "Lecithin," a phosphorized fat which is the chief constituent of the brain and nervous system—a waste which, if not stayed in time, means complete nervous wreck. The evident moral is, "don't worry"—advice easy to give, and in these days of stress and strain practically impossible to take. The alternative is: find some way of replacing the wasted Lecithin—the phosphorized fat. This absolutely essential element will be found in its most perfect, palatable and assimilable form in

FERROL

an emulsion of Cod Liver Oil and Phosphorus (phosphorized fat) together with Iron, the recognized blood builder—making FERROL the ideal nutrient it claims to be.

For the prevention or treatment of nervous prostration FERROL is absolutely unequalled—it is safe, sure and speedy. The formula of FERROL is freely exposed, consequently

BOILER EXPLOSION AT CONN.

Two Men Killed and Another Seriously Injured.

A fatal accident occurred Saturday morning at Conn. by which two men were killed, while a third lies in a critical condition.

About nine o'clock in the morning the boiler at Bishop's chopping and saw-mill exploded, entirely wrecking the building and almost instantly killing Norman Gilstorf, an employee aged 21 years, son of Mr. Fred Gilstorf, a councilman of Arthur township, and P. Cannon, a prosperous West Luther farmer, about 45 years of age, who had just arrived with a load to the mill, and injuring the owner, Mr. Bishop, so seriously that his life was for a time despaired of, but we are glad to know that he is now recovering.

The cause of the accident is supposed to have been a defective boiler. The shock was so great as to be felt in the other buildings of the village.

Gilstorf was unmarried, but Cannon leaves a widow and several children to mourn his untimely end.

An unfortunate part of the accident was the absence of the local practitioner, Dr. A. R. Perry, who had been called away shortly before the accident, and a telephone message had to be sent to Mount Forest for Drs. Jones & Jones, who left immediately, but the roads were so bad that considerable time elapsed before the doctors arrived on the scene.

Mr. Cannon was one of the best known farmers in the locality. His farm of 200 acres was a model one. His death will be a loss to the community.

The heartfelt sympathy of the whole district is extended to the relatives of the unfortunate victim of this disaster, as was shown by the large crowds which attended the funerals on Monday, many attending from Mount Forest. Mr. Cannon was interred in the R. C. Cemetery, Proton, and Mr. Gilstorf who was an Orange Young Briton and Independent Forester, was given an imposing funeral by those Orders.

On Tuesday Dr. Perry, coroner, held an inquest, which adjourned in the evening for ten days. The most important witness was Mr. Fowler, Boiler Inspector, of Toronto, who was sent out by Attorney General's department in compliance with the request of County Crown Attorney Patterson, of Guelph. Mr. Fowler in his evidence attributed the cause of the explosion to the steam pressure being too high for the boiler which was an old iron one, and was not due to low water or burning of boiler.—Mount Forest Rep.

SCIATICA CURED AFTER TWENTY YEARS OF TORTURE.

For more than twenty years Mr. J. B. Massey, of 3322 Clinton St., Minneapolis, Minn., was tortured by sciatica. The pain and suffering which he endured during this time is beyond comprehension. Nothing gave him any permanent relief until he used Chamberlain's Pain Balm. One application of that liniment relieved the pain and made sleep and rest possible, and less than one bottle has effected a permanent cure. If troubled with sciatica or rheumatism why not try a 22-cent bottle of Pain Balm and see for yourself how quickly it relieves the pain. For sale at Parker's Drug Store.

BEFORE AND AFTER.

After you have won the lady, Cinched the daisy that you choose And the whole affair is settled, It seems easy to propose. But before you reached a climax And she kindly named the day, Then the labor seemed much harder Than a job of pitching hay.

Had you known she was so willing When at last the coast is clear, You the subject might have mentioned Without waiting for a year, But you wouldn't now acknowledge, With the invitations out And the wedding garments ordered, That you ever had a doubt.

How it strains you to remember Of the days that used to be, When you thought your name was Dennis.

With a large and ornate D. Now you walk around as cheery As a chap in ancient Rome, Just as though it had been settled Since the night you took her home.

NOT IF AS RICH AS ROCKEFELLER.

If you had all the wealth of Rockefeller, the Standard Oil Magnate, you could not buy a better medicine for bowel complaints than Chamberlain's Colic, Cholera and Diarrhoea Remedy. The most eminent physician can not prescribe a better preparation for colic and diarrhoea, both for children and adults. The uniform success of this remedy has shown it to be superior to all others. It never fails, and when reduced with water and sweetened, is pleasant to take. Every family should be supplied with it. Sold at Parker's Drug Store.

WILL KISSING BE PROHIBITED

The Osculatory Process Denounced by Scientists as Extremely Dangerous—How the Danger Can be Removed.

A keen discussion is being carried on by some of the best scientists as to the danger and "crime" of kissing, led by Dr. Somers, Health Officer of Atlantic City, and Dr. Nalpaspe, of the Medical Faculty of Paris. They charge the kiss with spreading gripple, scarlet fever, measles, mumps, whooping cough, typhoid fever, diphtheria, erysipelas, meningitis, tuberculosis, and many infectious skin diseases. They suggest legislation on the subject, and the posting of notices in railway stations, street cars and other public places, but they say it would be useless to post them on verandahs, in cosy corners, porches, shady nooks, or moonlit lawns. They also propose compulsory legislation for methods of disinfection of the mouth and purifying the breath, especially with a view to the protection of the innocent babies who are particularly subject to infection. The greatest and most effective purifier and germ destroyer known to medical science for the mouth, throat and breath, as well as for the blood, stomach and lungs, is Psychine, that triumph of the medical world that is attracting almost universal attention because of the wonderful results attending its use. One of its recent triumphs is told as a matter of experience in the following brief statement:

Dr. Slocum Co. I am sending you photo and testimonial here-with for your great remedy PSYCHINE. Your remedies did wonders for me. I was about 28 or 30 years of age when I took PSYCHINE. The doctors had given me up as an incurable consumptive. My lungs and every organ of the body were terribly diseased and wasted. Friends and neighbors thought I'd never get better. But PSYCHINE saved me. My lungs have never bothered me since, and Psychine is a permanent cure.

Psychine, pronounced Si-keen, is admitted to be the most wonderful of all disease and germ-destroying agencies. For building up the run-down system and curing all forms of stomach troubles and diseases of the chest, throat and lungs or head, it is simply unapproachable. It is a reliable home treatment. For sale at all druggists, 50c and \$1.00, or Dr. T. A. Slocum, Limited, 179 King Street West, Toronto.

BRUCE COUNTY RURAL PHONES

Farmers Offered These for \$12 Per Annum by Company Now Making Canvas.

(Toronto Star.)

Walkerton, April 27.—A company, known as the Bruce Telephone Company, has been formed, and agents of the company are now going from place to place throughout the county, making contracts with the municipalities for the right to erect poles. This company is establishing "rural telephones," that is to say, they expect to get the bulk of their business by giving phone connection between farm house and farm house, and again between the farm houses and the towns and villages. Already the company has made an agreement with both the village of Teeswater and the Township of Culross, and in all probability will soon be negotiating with Walkerton, Brant, and other municipalities in this vicinity. Farmers, especially are taking a keen interest in this rural telephone proposition, as it promises rural phones for \$12 per annum. The agreement made with Teeswater provides that the franchise is to expire at the end of 20 years, that subscribers are not to be charged more than \$12 a year, and that the company shall pay the village the sum of \$48 per year for the use of the streets.
