OUR town bakers are beginning to put on city airs. Mr. Stinson started a new delivery wagon a week or so ago and last week Messrs. Rowe and Hughes came out with an equally handsome outfit. Bakers have always got the dough and its right enough that they should put on style.

THREE doctors in Kalamazoo were holding a consultation. They looked the patient over thoroughly and well expending fully ten minutes time diagnosing the case with care. Then they retired to an adjoining room, closed the door, and a somewhat heated argument followed. One of the doctors thought the man had money two were sure he hadn't. They didn't operate.

THE Spring is very backward and vegetation very slow. We are told that flakes of snow were seen on Monday morning last, and from the temperature of the forenoon we have no doubt about the matter. We have not seen the observatory comparisons, but feel assured that the present month will be a record breaker for cold just as April was the coldest April in 58 years.

WE advertised money that was left at this office last week and on Friday night the right claimant, Mr. J. W. Manary, of Holstein gave us a call about ten o'clock. The purse contained eighteen dollars in cash and a promissory note for \$20. The description was satisfactory and we had no hesitation in giving up the purse and its contents. The finders were the McClocklin twins and as this is the second or third time the same boys left found money at this office we are getting thoroughly satisfied regarding their honesty. Many a person would have kept the money and left the note and pocket book for some one else. They were rewarded by Mr. Manary who was quite tickled over his good luck. It pays to advertise in the Chronicle.

A RAILWAY employee was caught between two construction cars near Allan Park, Monday and was seriously injured. He was taken Tuesday morning to Fergus hospital, accompanied by Dr. MacLaurin. He is a stranger here and we are unable to give his name or his former home.

MR. R. F. CHADWICK, of Winchenden, Mass. will accept thanks for remittance of two dollars "for extra postage for this year and also subscription in advance for next year." He says "anybody interested enough to take the paper should be willing to pay the extra postage." It is not our fault, that the postage has been increased, and we hope our readers on the other side of the line will not drop out on account of it.

THE South Grey Temperance Society held their annual meeting on Tuesday night in the school room of the Baptist church. A great deal of important business was transacted and it was unanimously decided to submit the question of Local Option at the next municipal election. All temperance workers are requested by the society to submit their forces to the accomplishment of this purpose. Due notice will be given of the various meetings to be held by the society.

THE base ball league will open the season's exercises on Tuesday next. It is said that Mayor Calder will pitch the double curve, and Alderman Cochran will be the first Casey at the bat. Alderman Swallow is to don the mask, the big mit and the body guard and perform the duties of catcher. Jim Leshan will be umpire, and Tom Whean will hunt for lost balls. The other members of the Council will also take part, but we are not advised of the positions to which they are appointed for the initial game.

AN interesting part of the Junior League program given in the Methodist church on Monday night was a letter to the young people from Mrs. Holmes, Tokio, Japan. The writer's description of the Japanese methods of house cleaning, voice culture, singing, and of the millinery fashions and display in Tokio, was amusing and instructive, whilst her account of the effect of Christian example and life was encouraging and stimulating to purer motive and nobler aim. Each Junior sustained his and her part in the vocal part of the program loyally and well. The proceeds will be devoted to the work of the Junior League. Will all friends who were present kindly accept the sincere thanks of the officers in charge. The letter referred to will be found elsewhere in this issue.

Messrs. Lou and George Straith visited their sister Miss Annie Straith on Sunday last. Mr. Lou Straith left Mt. Forest Monday morning to spend the summer at Arcola.

Miss Jean Stewart and Miss Annie Watt, return to-day to Toronto where they enter good positions. For several weeks they have been enjoying themselves with friends in this vicinity.

BILLS are out announcing meetings of the South Grey Women's Institutes to be held on the following dates:—Elmwood June 4th, Hanover June 5th, Durham June 6th, Holstein June 7th, Dromore June 18th. The delegates consist of Dr. Annie Backus of Aylmer and Miss Isabel Murray of St. Thomas.

The Gaelic Mercury says:—"Mr. Richard McEllistrum on lot 15, con. 3, Puslinch, reports that he has a hen which hatched out of 8 duck eggs 9 ducks. The ninth duck has four legs and can walk smartly on two. The fowl was hatched out of a double-yoked egg. It chipped the shell some four days ago and is strutting around the same as if he had extra pedals and is as smart as the rest of the brood. The duck is a curiosity in the neighborhood.

WORK is progressing very favorably on the new railway, but the contractors are in need of more help. Posters are out advertising for teams at \$4.00 a day to work on the road between Proton and Durham. It was understood a year ago that this portion of the road would be completed by the first of July next, but it will be some months later. Perhaps the snow will fly again before the road is in operation. There is no settlement yet between the Company and the town regarding right of way through the town, the principal hitch being over the protection at crossing at foot of Garafraxa street hill. Not only is there a difference in opinion between the Company and the Town Council but there is also a wide difference in local opinion. Some want a gate and watchman, some an electric bell, and others see nothing but death and destruction unless the hill be excavated and the town be given an overhead driveway. A decision of some kind must soon be arrived at.

Junior League Social.

The Junior League of the Methodist church had a very pleasant social meeting on Monday night last, and the program furnished was very interesting. The training of the little ones for the occasion was chiefly done by Mrs. Benton who deserves much credit for the excellent results. It was no small task to undertake, but there's no such word as "fail" to those who go to work with proper determination.

The program consisted of an Organ Solo by Miss Rita Irwin, Vocal Selections by Misses Bertha and Myrtle Sparling, Quartettes and Choruses by members of the League, a Solo by Miss Pansy Colling, a Solo by Miss M. Darling and a reading entitled "Among the Lepers" by Miss Florence Bryon. Mr. J. L. Flarity who had considerable to do with the League while he lived here was down from Owen Sound, and gave an address on "How to Bring Up Children." As Mr. Flarity is a bachelor he will know how it should be done. Some of the rest of us knew all about the business before we had families of our own.
