FOR OUR READERS.

To Prove That Hyomei Will Cure Catarrh, Every Reader of the Chronicle Can Have Special Guarantee.

If there is any doubt in your mind as to the power of Hy-o-mei, the medicated air treatment, to cure all catarrhal troubles, this remarkable offer should expel that doubt.

We give our personal guarantee with every dollar outfit of Hyomei sold, to refund the money unless it gives satisfaction. We take all the risk of cure, and no reader of the Chronicle can afford to suffer longer with catarrh when an offer like this is made.

With every Hy-o-mei outfit is a neat pocket inhaler, and Hy-o-mei breathed through this inhaler, reaches the most remote air-cells of the nose, throat and lungs, destroying all catarrhal germs, and soothing and healing the irritated mucous membrane.

Hy o-mei really gives you a health-giving climate in your own home, so that when you breathe its medicated air, your nose, throat and lungs will be filled with air like that on the mountains, high above the sea level, where grow balsamic trees and plants, which purify the air with their volatile antiseptic fragrance so healing to the respiratory organs.

We do not want anyone's money unless Hy-o-mei gives relief and cure, and we absolutely agree that money will be refunded unless the remedy gives satisfaction.

All druggists should be able to supply you with Hy-o-mei or we will send it by mail on receipt of price, \$1.00, and every package is sold with the distinct understanding that it costs nothing unless it cures. Booth's Hyomei Company, Buffalo, N. Y.

THE BONUS CURSE.

TO THE EDITOR DURHAM CHRONICLE:

Some time ago the head of the Government at Ottawa gave vent to the opinion that Canada should emulate the United States in its industrial progressiveness and business methods. Next thing we hear from the same source is that we are going to have in Canada a northern Pittsburgh that would rival if not exceed its southern neighbor. No sooner said than done the company was formed, the concern built and established on the shore of the great Atlantic at a place called Sydney, and concurrent with all this come the funds to subsidize the undertaking. Bonus upon bonus is set apart for it and patient toiler from Halifax to Vancouver as a revenue taxpayer has to contribute to the building up of this great northern Pittsburgh so unlike in its inception to its great southern neighbor. And then as a business concern why should the revenue tax-payer of Canada be called on to support it at all placed as it is on the very verge of Canadian industrial limit. How unjust it is that we revenue tax-payers should have to pay to an establishment that is no earthly use to us and yet millions upon millions of the people's money have gone to its share. And just as the time draws nigh to be rid of all these iron bounties the great Finance Minister steps on the scene to say that the bounties are not to come to an end but are to be continued and largely increased.

What a bold audacious man—was it not enough to say and that in the face of public opinion that retiring Ministers must have a pension but now he comes on with characteristic boldness and in the face of a law that would end the matter he proposes not only to continue but to increase the iron bounties that he may still gorge that pet nestling of his on the shores of the Bay of Fundy and which he has been feeding for some time back with golden pellets—millions upon millions at the public expense. Down with Mr. Fielding the great Finance Minister, down with him in earnest or any other man that thinks he can ride over the people in such fashion. We have heard of some lazy fellows that go around sponging living on their friends, but these men in authority seem to like sponging on the taxpayer and feeding their friends on the fat of the land, riding about in their chariots of gold or regaling themselves in their beautiful yachts on the waters of the great Bay; and now he wants to give 15 millions more to these friends of his of the iron smelting craft which is 15 dollars a year on each and every family or group of six over the whole Dominion. Minister Fielding must think we are a lot of fools to submit to such presumptuous extravagance. No wonder we are forced to cry out Down with Mr. Fielding! There was a people under a religious frenzy who cried out and threw dust in the air and said away with such a fellow from the earth he is not fit to live. Now certainly Mr. Fielding is not fit to live any longer as Minister of Finance. He is like the Kite that was mounted to a wondrous height and got giddy with its elevation. He is losing his balance. Mr. Tarte had to go and the Ross Government had to go and if Mr. Fielding does not go or have to go we will have a revolution or a landslide more remarkable than the other. Not long ago Mr. Fielding was unseated on account of bribery, but was re-elected because his opponent spoiled himself by using words that were offensive to both parties, and in Bruce a Government candidate was elected with ease owing to the unwillingness or unfitness of the opposition candidate or through some unaccountable mismanagement on the opposition side; and again in South Grey the same inscrutable and unaccountable over again. This thing of proposing opposition candidates who are sure not to be elected is very suspicious looking on both sides. Bribery seems to be the handmaid of partyism and she wags the sinners with her golden locks. Our politicians tell us of an abounding revenue let them answer the question where does it come from? They also tell us that increased expenditure is not extravagance. What about Mr. Fielding's proposal to give fifteen millions more money to the smelting houses is not that extravagance with a vengeance? What have the people around Toronto, South Grey, Winnipeg or Vancouver to say to this thing of paying a revenue tax to enrich a few men down in Nova Scotia. Awake, farmers, awake, and all revenue taxpayers awake! Surely it is high time to wake up and get our eyes open and see that as long as we send party men to parliament we will have partyism, bribery and corruption for these terms are almost synonymous. Do not send a party man to parliament on no account for if you do you are guilty of perpetuating a system of bribery and corruption which is a disgrace to our country. Be independent and help save the country from such a state of morbid political immorality and debasement; yes, let us be independent and send independent men to parliament. The independent electors must put their hands to the plow or things will go from bad to worse. To the independent electors I would say let this thing of partyism be eliminated from amongst us and in plainer language let it be wiped out, and you are the man to wipe it out; and if you wish to be more emphatic let it be stamped out, and you are the man to stamp it out.

Away with partyism, away with tariff protection, iron bounties, railway subsidies and a host of others. Millions upon millions of our hard

earned money given away to make rich men richer. Yes, to make millionaires. No objection to millionaires if they make their money by their own tact and good honest management, but to think of the government collecting money off the hard working man and then giving it away in fistfuls to make millionaires of their many friends who come with such sly and cunning importunity to get their share of the prog. Away with such! Some people call it robbery and if robbery is a misnomer then what will we call it? Away with Fielding the great Finance Minister or any other man that will be guilty of such unnecessary and unprecedented extravagance. Where is the independence of South Grey, where those electors who so submissively still continue to pay to this abounding revenue? Do they know how much each one is paying or are they so blind with the influence of partyism that they will not see—that each and every farmer on the average is paying 60 dollars a year into the Dominion Treasury and if Mr. Fielding succeeds in giving away 15 million dollars more to the iron smelters then he will have to pay 75 instead of 60. The proof of this is taken from the Weekly Sun of some months back where it says that the revenue collected by the Dominion Government off Ontario is three times the amount collected by ordinary tax collector of municipal rates in said province of Ontario. Then we must say if an average farmer pays \$20 a year of tax to the township collector he must pay 60 to the government revenue.

There is still another proof. Mr. Editor, but as my scribble is even now too long, I beg to remain,
Yours respectfully,
ROBERT LEGATE.

Every Man His Own Doctor.

The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family, nor can he afford to neglect them, as so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must from necessity be his own doctor for this class of ailments. Success often depends upon prompt treatment, which can only be had when suitable medicines are kept at hand. Chamberlain's Remedy has been in the market for many years and enjoy a good reputation.

Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints.

Chamberlain's Cough Remedy for coughs, colds, croup and whooping cough.

Chamberlain's Pain Balm (an antiseptic liniment) for cuts, bruises, burns, sprains swellings, lame back and rheumatic pains.

Chamberlain's Stomach and Liver Tablets for constipation, biliousness and stomach troubles.

Chamberlain's Salve for diseases of the skin.

One bottle of each five preparations costs but \$1.25. For sale at Parker's Drug Store.

CHARGED WITH BIGAMY.

Constable Hodgins of Bervie drove into town last Thursday in charge of a prisoner named William Edwin Switzer, who had been remanded to jail by Magistrate Barker of Kincardine. The charge against Switzer is that of Bigamy. In other words it is alleged that he has more wives than the law allows. The records show that in 1894 Switzer was married to Miss Ida Jane Baldrow at Strathclair, Manitoba. Miss Baldrow was an Ashfield girl, and went up to Manitoba by arrangement to marry Switzer. She proved to be a frugal, hard-working woman and they made money fast. But it transpired that the married life of Mr. and Mrs. Switzer was not a very happy one. Switzer told his wife frequently that he had married the wrong girl and finally picked up and left her. He came to Holyrood, bringing his three children with him, and in January last, married a Ripley girl. This last marriage was performed in Pembina in North Dakota. The second wife knew Switzer from the time he was a boy, in fact they went to the same school, so that when she married him she knew all about his first marriage. The first wife is at present in Kincardine, and both wives have been subpoenaed to give evidence against him. The first wife has also started a suit against him for alimony. After lying in jail from Thursday till Monday, he managed to get bail, and was liberated. His preliminary trial will take place before Magistrate Barker on Friday of this week.—Telescope.
