A FATAL ACCIDENT

James Culliton, of Melancthon, Died From Injuries Received at a Barn Raising.

(Shelburne Free Press)
A fatal accident occurred on Monday evening at a barn raising on the farm of Geo. McCauley, west half of lot 16, con. 4, O. S., Melancthon. A number of men were engaged in raising a frame barn when a girl fell striking James Culliton a glancing blow on the right side of the head, knocking him down. The timber then fell across his chest but he did not receive the full force of the timber as the weight was partially kept off him by another stick of timber. The falling timber rebounded and fell on his neck. He was immediately liberated and assisted to his feet and walked away from the building. Dr. P. J. McCue was present at the raising and he could find no signs of any severe injury. Mr. McCauley hitched up his team at once and drove the injured man to his home. He sat up in the democrat and did not appear to be suffering any severe pain, but it was noticed that his voice was getting hoarser. On reaching his home, lot 7, con. 4, N. E. Melancthon, he was able to get out of the wagon and into the house without assistance. As soon as he entered the house he sat down and asked for a drink of water. After swallowing about a spoonful he turned deathly pale and jumped to his feet and fell dead instantly.

James Culliton, the deceased, was a well-known and highly esteemed resident of the New Survey, and being unmarried lived with his brother and two sisters. He was 47 years of age. After his death Dr. Samuel Moore, coroner, of Horning's Mills was sent for, but on hearing how the accident occurred did not consider an inquest necessary. The funeral was held on Wednesday afternoon from his late residence to the R. C. cemetery at Melancthon. The sympathy of the community is extended to the bereaved friends.

STOMACH MACHINE IS USELESS.

Impossible to cure catarrh in the nose by dosing the stomach. Send the healing vapor of Catarrhazone after the germs and you at once accomplish good. Any case of catarrh curable,—all that's necessary is to inhale Catarrhazone—You stop hawking, nostrils are cleared, throat is healed and freed of phlegm; every vestige of the trouble is forever driven from the system. If you want permanent cure for catarrh, throat trouble or bronchitis, Catarrhazone is a stand-by. Two sizes, 25c and \$1.00 at all dealers.

A NARROW ESCAPE FROM LIGHTNING.

Sunday's heavy rain storm, which appears to have been more violent throughout the country south of the town, was nearly the cause of a fatality at the home of John Allau, Wagram. Dr. G. P. Allen with his family was spending Sunday at his father's farm, and during the storm which came on towards evening, a number of the family were sitting in the kitchen watching the heavy thunder clouds, when suddenly the lightning struck the chimney, following the stovepipe into the room. The dog, which was lying under the stove at the time of the crash, was the only victim to the stroke of electricity, although the several occupants of the room received severe shocks. The poor animal, whose hair was entirely burned off its breast died in a few minutes after being struck. Considerable damage was done to the exterior of the house, but fortunately and almost miraculously no loss of human life was suffered.—Mt. Forest Rep.

OLD OFFENDER CAUGHT.

Impossible to escape being cured if you apply Putnam's Corn Extractor to the worst corn on record. Painless, safe and costs only a quarter in any drug store.

Collision at Carlsruhe.

A run away freight car and a south bound freight train in charge of Conductor Flemming collided at Carlsruhe last Saturday afternoon, resulting in a badly damaged engine and car. Luckily no one was injured. A north bound freight in shunting into the siding at Ayton struck a car on the siding with some force and as there was no coupling attachment started it down the track. It seems almost unbelievable, but the car ran a distance of some six miles gathering momentum as it went, owing to the grade. A brakeman stayed pluckily with the car, but as the brake was missing he was unable to stop it. It is said that the car travelled the six miles in 10 minutes. After the mishap occurred it was too late to stop Flemming's freight, which had left Hanover. The engine driver on the freight sighted it in time to check the speed of his train and both he and the fireman jumped. The brakeman, who was on top of the car when he saw the train approaching, climbed down behind and dropped off. In spite of the terrific collision, both the car and the engine held to the rails although they were badly demolished. The up passenger train was delayed some three hours as a result of the accident.—Hanover Post.

KILLED BY LIGHTNING.

Bolt Tears Clothing Off Man's Body Near North Battleford.

A despatch from North Battleford, Sask., says: With his wife watching him through the window, Francois Grosjean, rancher living thirty miles northwest of here, was instantly killed by a bolt of lightning on Sunday afternoon. He was brought here for burial. Grosjean was leading a horse when the accident occurred. The horse was knocked down, but recovered. The bolt literally tore the clothing from Grosjean's body. The dead man was 55 years old, married, and had five sons.

ARE YOU SUBJECT TO STIFFNESS?

Perhaps it is in the neck or shoulders. First thing is a good rub with Nerviline. No more speedy remedy can be adopted. When applied to the muscles Nerviline gives the flexibility and vigor; inflammation, soreness and stiffness disappear. "Whether in the chest or throat nothing can surpass Nerviline" writes O. B. Denton Lumber Merchant at Oak Bay, N. B. "Rubbed on at night, trouble is gone by morning. I have proved Nerviline a great medicine." Everyone says the same, and Nerviline always makes good. 25c bottles sold every where.

A FREIGHT DERAILED.

Toronto, June 22—(Special)—C. P. R. freight No. 121, while going down grade was run into by a second freight, at Christal, near Milton, and derailed 12 cars, killing eleven head of cattle, and destroying a sleeper that was being dead-headed to Toronto. Superintendent Osborne states that the accident was due to the engineer of the second train losing control of the train for want of air. The wires were down and traffic was delayed for hours.

WHAT'S YOURS IS MINE.

A young man married a wife who helped him stock his farm to a very considerable extent. One day, when he was speaking of "his farm", "his team", "his cattle", she felt a little hurt and said:—"William, I think it would sound better to say "our farm", "our cattle", etc. Three days later they were dressing to go to a friend's house for the evening and she got ready first, and after waiting a little while, called upstairs. "What's delaying you William?" "My dear," he replied, in a distressed voice. "I'm looking for our trousers."
