#### WOMEN PAY MORE.

Why Insurance Companies Discriminate Against the Gentle Sex.

Medical examiners of insurance companies say that the reason a woman pays more for the privilege of insurance than a man, is from the fact that women more readily fall victims to indigestion and stomach troubles and the fatal ailments that spring from these causes.

It is not the acute attacks that influence the insurance examiners alone, but the constant feelings of weakness, headaches, indigestion and stomach troubles-these things, physicians say, kill more people than many more serious diseases.

#### SIGNS ON THE FARM GATE.

Mr. A. A. Wright, M. P., South Renfew, has decided to offer signs for farm gates as prizes at the Renfew Fair. His example might well be followed by some of our own local worthies, in connection with Kemptville Fall exhibition. Selecting the townships of MacNabb, Horton and Admaston as the leading and representative agricultural communities of South Renfew, Mr. Wright proposes to allot four of the signs to All persons, they say, who have a each township, and to have superiorithe eyes, bloating, nervousness, sleep shows both an appreciation of the mate upon the power of example, be-For curative power in all stomach cause entertaining the belief that The devices which Mr. Wright is to hand out are to have painted on them the name (if any) chosen for the farm, the name of the owner and the post office address. While the idea is not a new one, in fact has been advocated on the platform and in the press for fully a decade past, it has never "caught on," to use an expressive slang phrase. Mr. Wright has taken a tactful, original way of introducing the innovation in this section, and it cannot be doubted that this method will prove quite as effec-

tive as it is diplomatic and new. If reasons exist for sign boards in towns and cities-and who can say nay?-their is ample justification for their use in the rural districts, where they might fittingly be supplemented tion. with mile posts and concession numbers. Not only would they prove of service to the farmers themselves, for every husbandman on occasions takes drives on country roads with which he is not altogether familiar, but they would be very helpful to the stranger from town and city, who is hampered by frequent stops to ask directions and often times feels that he is an annovance to the ones interhe is an annoyance to the ones interogated, particularly when the questioning is done after nightfall. To the individual the purchasing of these sign boards and placing them in position can entail but a small outlay of expense and trouble; therefore no one should hesitate to give the idea a trial -Kemptville Advance.
