Hay Fever Can Be Prevented.

Don't seek other climes at "Hay Fever Season" don't destroy your stomach and nerves by drugs—prevent the disease. Hay Fever is caused by germs that float about in the air and finally find lodgement in your throat and lungs. Medicine won't reach them there but Catarrhazone will. Catarrhazone is sure death to germs. Start now to use Catarrhazone. Inhale it into the throat, lungs, nasal passages and bronchial tubes; it goes wherever the air you breathe goes, and it will prevent and cure Hay Fever. Endorsed by not less than one thousand doctors in Canada and U. S. Sent to any address for \$1.00 forwarded to Poison & Co., Hartford, Conn., U. S. or Kingsport, Ont.

THE LATE DR. McLELLAN.

(The Mail and Empire.)

Dr. James A. McLellan the veteran educationist of Ontario, died at his residence, 83 Macpherson Avenue, at 10:30 last night. His death will be a subject of regret to thousands of High School graduates by whom he was known, as well as his many intimate friends in the province. Dr. McLellan has been seriously ill for many weeks, due to a general breakdown of the system, and for some time hopes of his recovery had been practically abandoned. He was 75 years of age.

Twenty years ago Dr. McLellan took a very prominent part in educational matters, and was then known as the leading authority on mathematics in Ontario, and was one of the foremost and most vigorous educationists of the Dominion. In the development of Ontario's school system he stood next to Dr. Ryerson, but devoted his special attention to High Schools. He brought the teaching of mathematics to a very high standard and then turned his attention to literature, becoming widely known as a powerful lecturer.

A NOTABLE CAREER.

On the establishment of the School of Pedagogy in Toronto in 1890, Dr. McLellan was appointed principal of the institution and moved to Hamilton with it in 1896, when it was renamed the Ontario Normal College. He resigned in 1906 on account of ill health, but remained in Hamilton until June last, when he returned to Toronto.

Dr. McLellan was born in Shubenacadie, N.S., in 1832, of mixed British descent, his ancestors being United Empire Loyalists. He taught school when 15 years of age, and came to Toronto in 1857, attending the Normal School and later the university. He graduated B. A. and medalist in mathematics and metaphysics in 1862 got his degree of M. A. in 1863; L. L.B., in 1872, and LL.D., in 1873. He taught in the St. Mary's Grammar School in 1860, and became head of Yarmouth Seminary in its opening in 1864. While there he took an active part in furthering Confederation, for which he received the thanks of Sir John A. Macdonald. In 1869 he was appointed mathematical master in Upper Canada College, and in 1871 High School Inspector in Ontario. In 1875 he was made director of Normal Schools, and ten years later, director of Teachers' Institutes.

He was elected a director of the Dominion Educational Association in 1895, and was President of the Ontario Educational Association. He also produced text-books on mathematical subjects. In religion he was a Methodist and in politics a Liberal, having opposed the late John Crawford in West Toronto in the general election of 1872.

He married, in 1851, Miss Harriet Tounslay, daughter of an early settler of Toronto, who is still living with a family of eight children. They are Mrs. Rogers, now in the North-West, Mrs. Randolph, of California; Mrs. Walter Scott, Kew Beach; Mrs. B. Richards, of Hamilton; Mrs. R. L. Baker, of Toronto, and Messrs. James A., W. M., and Charles K. McLellan, all living in Toronto.

For Lung Troubles

Ayer's Cherry Pectoral certainly cures coughs, colds, bronchitis, consumption. And it certainly strengthens weak throats and weak lungs. There can be no mistake about this. You know it is true. And your own doctor will say so.

The best kind of a testimonial— "Sold for over sixty years."

Keep the bowels regular with Ayer's Pills and thus hasten recovery.
