IGORROTE VILLAGE.

To be Again Seen at Toronto Exhibi-

Visitors to the Canadian National Exhibition will again have an opportunity of studying at close range the barbaric Igorrotes from the Philippine Islands, whose village last year created such a sensation in Toronto.

The exhibit this year will be more interesting even than it was last year and visitors will see the world's most interesting wild people living as they live at home. Grass-thatched huts will dot the enclosure, and all around the primitive industries of these strange people will be seen in operation. All the sports and pastimes will be shown and these merry head hunting dog-eaters will show Canad ians how their own ancestors may have lived when the world was young. The Igorrotes are as wild as weeds, but they are a likable people, That all applications must be lcdg differing greatly from other brown people. As was the case last year, and the fine reputation the village Reeve. made last year is a guarantee that it will be well worth a visit this year.
