ABOUT THE LOVELY AUTOS.

THE AUTOMOBILE NUISANCE.

It is said the automobile has come to stay. This may be true. But if so, along with it, under present conditions have come to stay much of restraint, inconvenience and hardship to every farmer and country resident who drive horses on the highway. It is not merely the danger of life and limb when a trip is undertaken as formerly, but the entire destruction of the comfort and relaxation which driving behind the horse on a country road furnishes, on account of the fear and nervousness lest an automobile should be encountered. Formerly the automobilists selected only the leading highways, but latterly they are taking possession of the side lines also, so that no road is safe for their presence. Women can no longer drive in safety during the busy season to the village or town lest they encounter one of these "fiendish monsters" and are driven into the ditch with the danger of an upset or runaway or both. In considering the situation one is forced to enquire who are these who thus take possession of the highway? What percentage of the population do they represent? How much do they contribute towards the up-keep of the roads they use? It will be found that many of them are mere tourists, who have no interest whatever in the country through which they pass. As for the rest they represent a small percentage of the population, but having money and leisure they choose to spend both in this form of pleasure, although it may prevent the residents of the neighborhood from the ordinary use of the highway which they have helped to build and for repairing which they are annually taxed.—Farming World.

HORSE AND AUTO.

Mr. Jas H. Farr's horse was tied to a telegraph pole on Saturday opposite Mr. W. J. Hermeton's tin shop, when an automobile came along and then there were things doing. The horse reared, and plunged around at a great rate and broke the shaft of the buggy and parts of the harness, before it could be got under control. But it was only a farmer's horse and a farmer's harness, and a farmer's buggy, and where the automobile is concerned, farmer's don't count for much.—Telescope.

FARMER'S WIFE HURT.

About 8 o'clock Sunday evening a Mrs. Kamsdt. from near Mildmay, was driving over to see her sister, Mrs. John Ernst of Brant, when she was overtaken by Carroll's automobile, near the residence of Mr. John Whitehead. The horse became unmanageable, and Mrs. Kamsdt. was pitched out of the rig. She lay there in an unconscious condition until help arrived. Her head was badly hurt, and at the time of this writing she is lying in bed at the home of her sister here. Smashing farmers' rigs, frightening their horses, and half-killing their wives, is, we suppose, rare sport for the average automobile driver. The same machine was the cause of smashing another farmer's rig an hour or two earlier in the evening, opposite Oliver McConnell's residence. Grand sport this!—Telescope.

NARROW ESCAPE.

We have since learned that the lady who met with the accident at Mr. Oliver McConnell's, and which was caused by the automobile, was Mrs. John Hollick of Culross. When the machine came along, the horse ran to the side of the road and backed the buggy into the wire fence. The cross-bar of the buggy broke as did also the hold-backs on the shafts, and then the horse ran away. Mr. McConnell's boy scared the horse through the open gate and it was captured at the barn. Nobody was hurt, but it was a pretty unpleasant experience.—Telescope.

MANY CHILDREN SICK.

Get their feet wet, catch cold or cramp, and give mothers an anxious time. With the first shiver or sneeze rub the little one's chest with Nerviline, gargle the throat, and give ten drops to hot water at bed time. Next morning all is well. No cold, no time lost at school. If Poison's Nerviline isn't in your home get it there at once. Dealers sell it in 25c bottles.

DISASTROUS FIRE IN MEAFORD.

(Meaford Mirror)
About 10:30 last Thursday evening a serious fire occurred at the residence of Mr. W. J. Juniper, Sykes street. Mrs. Juniper was blowing out the hall lamp, and had another light in her hand, preparatory to retiring to bed, when the flame fired up and lighted her dress. Mr. Juniper quickly appeared on the scene in response to his wife's cries, and endeavoring to put out the flames on her dress, was badly burned about the fingers. The fire spread very rapidly and there was a great danger of the children, who were already in bed, being suffocated. Mr. Juniper rushed upstairs and passed out the young ones through the window, afterwards jumping from the veranda roof himself, narrowly escaping a bad accident.

The fire alarm was rung and the brigade soon on the scene. It is due to the prompt response of the firemen to the call that so little damage was done to the building. After about twenty minutes work they succeeded in putting out the blaze. The damage is fully covered by insurance.

Mrs. Juniper's burns were of a terrible nature and mostly on the upper part of the body. At the time of writing we learn that she is a little better, but it will be some weeks before she recovers from the effects of the burns and the shock.

It Actually Destroys the Cause.

That's why catarrh is invariably cured by inhaling "Catarrhozone." The healing vapor spreads to every part of the breathing organs. Germs infecting the tissues of the nose, throat and lungs are killed. Nothing is left to cause inflammation. Spots that are sore are healed. Discharge is cleared away and catarrh becomes something of the past. Use "Catarrhozone" and your recovery is guaranteed. Two sizes, 25c and \$1.00 at all dealers.

LAW COSTS.

In a liquor prosecution before Messrs. McNamara and Robb, Walkerton magistrates, the other day, several witnesses expressed dissatisfaction with the low scale of fees allowed for their attendance at court. Witnesses from Teeswater, for instance, sixteen miles, could only be allowed one dollar and sixty cents. All others in the same proportion. This is the scale of fees in the Ontario consolidated statutes, fixed by Sir Oliver Mowat thirty years ago. In prosecutions under the Dominion statutes, twenty five cents more is allowed to each witness in summary cases, but in criminal cases they get nothing at all. It is about time these scales of witness fees were revised. The legal gentlemen who fixed them are a good deal more generous to themselves. Besides, the general cost of everything has greatly advanced in the meantime. A Teeswater witness, for instance, has to pay one fifty or two dollars for a livery rig. He spends a whole day on the journey both ways and attending court. His necessary expenses will certainly be a dollar, with something more for incidentals. For all this the law at present allows him a dollar and sixty cents. It is certainly time for a change. It is to be hoped that the attention of the Attorney General may be called to the matter in the coming revision of the Ontario statutes. There is no reason why individual citizens should be called upon to discharge their duty to the State at their own expense. The community at large should bear the burden, and pay witnesses decently.—Tara Leader.

HAD AN AWFUL TIME.

But Chamberlains Colic, Cholera and Diarrhoea Remedy Cured Him.

It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for this remedy.—SAM H. GWIN, Concord, Ga. For sale at Parker's Drug Store.

The Telegraphers' Strike.

On Saturday Mr. Peter Todd sent a telegram to Calgary, the cost of which was one dollar. On Monday he got 50c. back for the reason that his message got no further than Winnipeg, striking operators there, refusing to handle it. From that point on the message had to be forwarded by mail. This illustrates how strikes paralyze business. We do not know whether the message in this case was important or unimportant, but it wouldn't have made any difference. The whole business of the country is now controlled largely by the labor unions, in the United States. This particular strike, was occasioned by the discharge of an employee at Los Angeles, California, for incompetency. The labor Union demanded his reinstatement. The Telegraph Co. refused to take him back, and then the strike followed. In this particular case the companies are likely to win out, but no sooner is one strike settled than another breaks out.—Telescope.

Watery Blood Nerves are Weak Face is Pallid You Lack Strength You Look Sickly.

Until You Ironize and Fortify the Blood There's No Hope of Cure.

Thousands of tired workers need the invigoration, the strength, the nerve-force which Ferrozone can supply.

Ferrozone imparts strength because it nourishes.

Ferrozone is able to nourish because it supplies to the blood the elements it lacks.

Once the blood is vitalized its tonic influence is circulated to every nook and corner of the body, carrying new life with it.

Cases on record prove that Ferrozone builds up when else fails. Mr. Alonzo W. Douglas of Woodbridge, Ont., says: "I desire to state the use of Ferrozone. Two years ago I was stricken with Pneumonia. So severe was the attack and so reduced was my strength that my life was despaired of. I had the very best medical attention, but made no progress towards recovery. When reduced to practically a skeleton a kind friend told me of the remarkable powers of Ferrozone. An improvement began almost at once. I gained steadily in weight and strength until Ferrozone made me a new man. I will gladly answer inquiries from other sufferers if they care to have further particulars about my recovery. Ferrozone deserves its great measure of success."

When a man in Mr. Douglas' low condition can be quickly cured, aren't the chances good for you? Don't fail to try Ferrozone. Price 50c. per box at all dealers.

HE ET THEM.

Maw sez green apples never should be et

She sez 'at little boys are sure to get The awf'lest pains if they should dis- obey

'N eat 'em. I had some to-day. I eat the juice of thirteen Northern Spies.

'N one of 'em was just an awful size. I got no pain. I bet green apples ain't

Ez bad ter kids as Paris Green or paint. But Maw, she said they wuz I wonder why?

I can't believe 'at Maw would tell a lie If I'm found out I got a good excuse, I never et the pulp, just sucked the juice.

P'raps Maw's digestion ain't as good as mine. Paw often sez my stomach's made 'o pine.

'Cause after I have et some pickled beets

I want ice cream 'n fancy cakes, 'n sweets.

O' course green apples mebbe raise a whirl

'Tith Maw but then, you see, she is a girl.

This afternoon I'm goin' out once more

To find that tree. 'Bout three o'clock or four.

I guess I'll have another dandy feed, About a dozen 'll be all I'll need.

'N wouldn't Maw be frightened if she knew

Of all the wicked things I'm goin' to do?

By jing, I'm feelin' queer. I wonder how

If them green apples 'll kick up a row? Some small black specks is botherin' my sight.

—Gee whillikens. I bet that Maw is right

—OH MOTHER! MOTHER!! Get a doctor, quick.

I et green apples an' I'm AWFUL sick.

—Toronto News.

THE OWEN SOUND COLLEGIATE INSTITUTE

Re-opening

Tuesday, September 3rd, 1907

The Owen Sound Collegiate Institute will re-open for the Fall Term on Tuesday, Sept. 3rd, at 9 a.m., when pupils will be enrolled and classified, and classes organized for the General Course; the Commercial Course; for all grades of Teachers' Certificates; for Pass and Honor Matriculation, and for entrance into all the learned professions.

Staff and Equipment—The staff consists of twelve teachers, all specialists and men of the highest professional standing. The equipment is thoroughly modern and among the best in Ontario.

Manual Training and Household Science—Rooms have been thoroughly equipped at a cost of over \$1200, and the students of the lower forms receive instruction in these important departments.

Commercial Course—To meet the demand for a better commercial education, the Board has thoroughly equipped a Commercial Department and instruction is given in the several subjects required for a good business education, including practice in shorthand and typewriting. The student who successfully completes this course is granted a diploma by the Collegiate Institute Board.

For the past seven years Owen Sound Collegiate Institute has prepared more teachers than any other school in the Province.

Terms—The fees are: For pupils from the Counties of Grey, Bruce, Wellington, Dufferin and Simcoe, Ten Dollars; from other counties, Twelve to Fifteen Dollars.

For Annual Announcement or other information apply to THOS. MURRAY, Principal, JNO. RUTHERFORD, Sec'y-Treas.

—Mary sat upon a pin And showed no perturbation For some of her was genuine But most was imitation.
