Tramps in England.

A committee appointed by the British Parliament to investigate the tramp problem in England estimates that in seasons of depression there are 80,000 tramps in the country, and that it is never less than half that number. Tramps are everywhere and constitute an eyesore. They are considered to be vehicles of infectious diseases. Legislation by Parliament to regulate and mitigate the evil is recommended, though no solution of the problem short of finding employment and paying better wages is regarded as possible.

The Work of Corn Breeding as Conducted by the Canadian Seed Growers' Association.

(Extract from last Annual Report of Secretary.)

The work of corn breeding in Canada, though limited chiefly to Southern Ontario, has made material advance during the past year. Not only has the number of growers largely increased, but the general public is beginning to realize more than ever before something of the nature and importance of this particular branch of work, and as a result the demand for specially grown seed corn has increased.

The system of corn breeding which has been adopted by the Association and which may be found in the second Annual Report, page 53, under the section entitled 'The Row System' has for its basis the ear row test. Each row of fifty or more hills in the plot is planted with corn from a separate ear, which arrangement gives each ear an opportunity to show the breeding which is behind it and to which it owes its excellence.

Since the Dent varieties cannot be matured to good advantage in the more northern dairy districts, it is necessary to send south for the seed, and during the past year there has been an increased demand for seed which is of known origin and which has received special care according to the regulations of our Association.

Where corn is grown for grain in the cooler regions of the north, the early maturing Flint varieties are grown. Of this class of corn we now have several varieties represented, although the King Philip, Longfellow, Compton's Early, and Salzer's North Dakota, are most popular. While earlier strains of the Dent varieties might be developed for the shorter seasons, yet this practice has not been recommended, since early corn is believed to be antagonistic to large yields.

This in the single-ear Dent varieties is particularly noticeable. Flint corn, on the other hand, may easily produce two and three ears per stalk; and, as a result, a hill of three stalks of Flint corn may be made to closely approach in actual yield of grain a hill of three stalks of the single-ear-bearing Dent types.

A careful study of the corn crop in Canada seems to demonstrate that wherever corn is to be improved it is always advisable to adopt a type which can be relied upon to mature thoroughly in the district. Otherwise the seed will have to be often changed as a result of non-maturity of the crop, which fact leaves no chance to improve the variety by means of selection.

CORN IN WESTERN CANADA.

Within the past few years the farmers of the west have been studying the corn question with a great deal of interest. Although we do not anticipate that the west will ever become a great corn country, yet we believe that the time is not far distant when it will pay the farmer to grow more or less corn. The Experimental Farms at Brandon and Indian Head have for years demonstrated the possibilities of growing corn as a fodder crop, while many farmers have likewise verified this.

Since Western Canada comes within the northern limit in which corn can be grown in America, and since the growing season is very short, an early Flint variety must be looked for. Experience has shown that by careful work these early varieties may be made to produce crops which pay well for the time and labor expended upon them. It is a common practice to take some of the earlier Dent varieties and endeavor to adapt them to the conditions in the north.

We believe this to be wrong, and advise those of our members in the west who desire to do something along this line to begin with corn grown as far north as possible and endeavor to improve upon this. A large number of stalks, each bearing at least two smaller ears, should be looked for per acre, instead of trying to develop the size of the ear.

Chamberlain's Cough Remedy One of the Best on the Market.

For many years Chamberlain's Cough Remedy has constantly gained in favor and popularity until it is now one of the most staple medicines in use and has an enormous sale. It is intended especially for acute throat and lung diseases such as coughs, colds and croup, and can always be depended upon. It is pleasant and safe to take and is undoubtedly the best in the market for the purpose for which it is intended Sold at Parker's Drug Store.

Exchange Clippings.

There is a legend to the effect that the man in the moon was banished there as a punishment for gathering wood on Sunday. George Wagner, of Carrick, may never have heard that story, or if he has was evidently not impressed by it, for on Sunday of the first of September he hitched up his team and went out to the field for a load of peas. Some of the people out there thought this didn't look well, and complained to Constable Russell, of Walkerton. The result was an information for violating the Lord's Day Act. Wagner pleaded guilty and was fined \$5 and costs.—Telescope.

The life of a young wife and mother went out on the 18th con. of this township on Friday afternoon when Mrs. Wm. Little succumbed to the wasting attacks of consumption. This death is a particularly sad one, deceased not yet having reached middle age, and leaving a devoted young husband and two babes to battle with life alone.

She was a warm-hearted, kindly, well-meaning lady who enjoyed the good will and friendly feeling of all her acquaintances, and all of whom give expression to the sincerest regret at her departure from the community where she was ever a social, cheerful spirit. Even in her last illness, from the character of which she knew must result fatally, she did not give way to morose conditions, but kept the "silver lining" displayed prominently to the last. Besides the fore-going mentioned relatives an aged father and step-mother survive to cherish the memory of an obedient daughter. A brother also survives, and to all these the heart of the community goes out in sympathy. The funeral on Monday afternoon to St. Paul's Church Cemetery was expressive of the regard in which deceased was held by the people among whom she performed many little acts of kindness during her short life. The interment was made in the Lutheran Cemetery, Revs. Neudoerffer and Budge performing the final ceremonies.—Aytton Advance.

Had Tetter for Thirty Years.

I have suffered with tetter for thirty years and have tried almost countless remedies with little, if any, relief. Three boxes of Chamberlain's Salve cured me. It was a torture. It breaks out a little sometimes, but nothing to what it used to do.—D. H. BEACH, Midland City, Ala. Chamberlain's Salve is for sale at Parker's Drug Store.

A noise as of a heavy explosion startled the citizens one evening last week. On inquiry the following explanation was offered: Norris Bros. were back of their shop, occupied at something. A barrel that had contained gasoline was sitting by, and Peter, after lighting a cigarette, put the lighted match through a hole in the barrel top and instantly there was a terrific explosion, blowing out the stout oak barrel head and scatter it over a radius of a hundred rods. Beyond a jarring of many people's nerves, no damage was done.—Flesherton Advance.

Assignee's Notice to Creditors.

In the matter of Fred E. Siegner, of the town of Durham, in the County of Grey, Hardware Merchant, insolvent.

NOTICE IS HEREBY GIVEN that Fred E. Siegner, of the Town of Durham, in the County of Grey, carrying on business as a Hardware Merchant at the said town of Durham, has made an assignment to me under R.S.O., 1897, chap. 147, of all his estate, credits and effects for the general benefit of his creditors.

A meeting of the creditors will be held at the office of Mackay and Dunn, in the town of Durham, solicitors for the assignee, on Friday, the 13th day of September, 1907, at the hour of 2 o'clock in the afternoon, for the purpose of receiving a statement and for the ordering of the affairs of the estate generally. Creditors are requested to file their claims with the undersigned solicitors for the assignee, with the proof and particulars thereof required by the said Act on or before the date of this meeting.

WILLIAM LAIDLAW, Assignee. MACKAY & DUNN, Solicitors for Assignee. Dated at Durham, Ont., Sept. 5, 1907.

Nerveless Women

No Animation, Lack Endurance. Weak, Unstrung, Tired.

Ferrozone Will Cure.

For sick women no remedy exists that uplifts like Ferrozone. No remedy exerts so profound an influence upon the functions that supply clearness of skin, brightness of eye, elasticity of spirit, abundance of strength.

Ferrozone is a marvelous former of blood—rich, red nutritious blood, the kind that circulates life and activity to every organ in the body.

Buoyancy, vigor and vim are restored,—to the nerves is given vitality, to weak places is strength sent.

Wonderful power in Ferrozone, and any weak, pallid woman can be quickly nourished back to joyous health if Ferrozone is used.

Won't you try Ferrozone?

It will cure you just as it did Mrs. Abram Carley, of Strange, P. O., Ont.—who says: "I consider that I should recommend this preparation because I have proved it is simply wonderful in building up. I was all run down, suffered from an extremely nervous and unstrung condition. My sleep was broken down and didn't rest me as it should. My appetite was fickle and only certain food appealed to me. My color was dull and I looked sick. Ferrozone gave me a splendid appetite,—I grew stronger day by day. My nervousness and apprehension disappeared. Ferrozone has given me absolute strength and I recommend it highly."

No tonic is more effective, absolutely safe for women and girls and even children, good wherever there is weakness, debility, nervousness or ill-health. Try Ferrozone, 50c. per box at all druggists.

LICENSES WILL BE SUSPENDED.

A deputation from Teeswater waited on Hon. Mr. Hanna, Provincial Secretary, on Thursday last to request him to act on the local option vote, which was voided on a technicality. When a pole was taken on the local option by-law, the vote for local option was declared to be two-fifths of one vote short of the three-fifths of the total votes polled required by statute. This result was obtained through the disqualification of one vote for the bye-law because the ballot did not bear the returning officer's initial. It was, however, clearly shown that two voting papers had stuck together, and one had been initialed and the other marked. The Provincial Secretary stated that as soon as the attention of the department had been drawn to the facts a telegram had been sent to the License Commissioners to suspend granting licenses but when it reached the Commissioners licenses had already been issued. The department would, however, put the matter before the Commissioners so that the vote of the people should be given effect to next year, when renewals of licenses were applied for. Mr. Alexander Mills, K.C., was the spokesman of the deputation, which consisted of about a dozen delegates.—Bruce Times.

Sick Headache.

This disease is caused by a derangement of the stomach. Take a dose of Chamberlain's Stomach and Liver Tablets to correct this disorder and the sick headache will disappear. For sale at Parker's Drug Store.

The proprietor is a tenant on the "Supernault" farm, and as he lost all his crop recently by fire from lightning, everything must be sold.

ANTHONY DESCHAW, Proprietor. JOHN CLARK, Auctioneer.

Darkies' Corners.

Mr. Hiram Dean accompanied by Mr. Robt. Allen of the 4th con. left for Toronto Thursday morning last to take in the Exhibition and visit friends.

Mr. Arthur Weir took in the Exhibition in the Queen city.

Mrs. Jas. Lawrence we are pleased to learn, is feeling better since consulting a Toronto specialist.

We regret to learn of the death of Mrs. Jas. Allen of Edge Hill, and wish to extend our sympathy with that of the community to the bereaved ones in this their hour of sorrow.

Mr. Thos. Meena arrived home from the West last Thursday looking well, after spending a few months.

The majority of the farmers of this burg are through harvesting and the hum of the threshing machine can now be heard in all directions.

September is certainly making up for the deficiency of rain in August, and is pretty catchy weather for people who have some of their grain in the field.

Mrs. Thos. Meena and family, also Miss Jennie Meena visited at Mr. and Mrs. Sam Ritchie's one day last week.

Mr. Graham Timmins accompanied by his sister Miss Susan and Master Herbie, called on the Hewitt family one day last week.

Mr. Alex Aljoe accompanied by his sister Miss Annie took in the Queen City Exhibition.

Born—On Friday Sept. 13th 1907, to Mr. and Mrs. Tolchard, a son

A CASE IN WEST ARCHAT.

Mrs. A. P. Ferguson a well known Cape Bretoner has cured asthma by "Catarrhzone." Her statement is convincing "Although I was troubled for years it was only recently I tried Catarrhzone. When an attack started I got out my inhaler and invariably got quick relief. Feeling satisfied Catarrhzone would cure, I continued the treatment till one bottle was finished. I didn't use more because I was cured and the asthma has never returned." Catarrhzone is sure death to asthma and bronchitis. Try it and be convinced. Two sizes 25c and \$1.00 at all dealers.

Now for Business College. Don't delay. Get free Catalogue at once. Best College, best terms, best results. R. A. FARQUHARSON, B.A., British Canadian B.O., 796, Yonge St., Toronto.
