TELFORD, their Solicitor Durham, Ont.

AN OPEN LETTER

From W. J. Gage, Esq., Toronto

A Problem of National Importance

Dear Friend:—

A bright young lawyer at the Muskoka Sanatorium for Consumptives some weeks ago, speaking of the burden placed upon him by having consumption, said:

"One has to lead a life of concealment. If I go away from this place people are afraid of me."

This is the sad lot of those who suffer from this dread disease.

On behalf of the thousands who are sick and will not be received by other hospitals, I make this appeal for the Muskoka Free Hospital for Consumptives.

Nearly 10,000 people from every part of Canada aided in this good work last year, sending us \$26,000.

The Trustees have faith that a still larger number will help.

The Physician's offices, throat rooms, etc., up to the present have occupied rooms in the hospital that rightly belong to patients.

To make better provision for the work, and furnish more accommodation, a new administration building is now under way. A cottage for the Physician and his young wife had also to be built.

To provide for this outlay, and to care for patients for the coming year, we must secure at least \$50,000.

The Muskoka Free Hospital for Consumptives never refused a patient because of his or her inability to pay. It cares for those whom other hospitals refuse. It cares for those whom other people are afraid of.

"I was sick and ye visited me," was Christ's commendation. Should not a richer benediction be yours if from a loving heart your dollar makes a golden visit to this hospital, bringing health and joy to those whom other people fear, and whom, in many cases, nobody wants.

Will you have the luxury of giving?

Faithfully yours,

Toronto, 1907.

W. J. Gage

To Rent.

TWO SUITES OF ROOMS TO LET good water and every convenience. Suitable for a respectable couple. Apply Mrs. Finnegan, South of Cement Works. Dec. 5-2pd.

County Council.

O. S. Times.

Continued from last week.

When the county council resumed business on Wednesday morning the clerk read a long list of accounts which were referred to their several committees. Mr. Goldsmith submitted report No. 2 from road and bridge committee, recommending for payment several accounts, which was adopted as read.

Council again went into committee on report No. 1 of the House of Refuge committee. Mr. Thos. Harness was asked to address the meeting, which he did, and the committee rose with leave to sit again. On motion of Mr. John Legate and Mr. James Leslie a special committee composed of Messrs. Ball, Hastie, McNichol, Agnew, McKnight, Harrison and the mover were appointed to visit the House of Refuge to investigate the presentment of the grand jury and report before the close of the session. An amendment moved by Mr. Eaton, seconded by Mr. Patterson, that a committee of ten members of the council, sworn under oath, visit the House of Refuge at some convenient time during the present session of the council and report on the general management of the House of Refuge, such committee to be named by the warden, was lost.

An invitation was received from Mr. W. A. Howard, chief of the department, to visit the fire hall and witness the regular evening fire drill. The invitation was accepted for Wednesday evening.

Council then adjourned until two o'clock.

WEDNESDAY AFTERNOON.

When the members re-assembled in the afternoon Mr. A. W. Campbell, deputy minister of public works for Ontario, was present on the invitation of the council and delivered an interesting address on the Good Roads System, for which he received a hearty vote of thanks from the council at the close.

On motion the resolves of Sydenham, Normanby and Sullivan were added to the special committee appointed. Council then adjourned until the following evening.

THURSDAY EVENING.

When council met another lengthy list of accounts were presented by the clerk, including a report of Isaac Traynor, engineer on the Priceville bridge.

Mr. Preston read report No. 2 from the finance committee recommending for payment the clerk's postage account and granting a free peddler's license to Noah Pionick for six months.

Report No. 3 of the road and bridge committee recommended for payment a number of accounts and that the petition of Charles Willoughby and fifteen others for the erection of two bridges over the Grand River on the townline between Proton and Melancthon be laid over until the January session.

James Leslie read report No. 1 of the county property committee recommending that a number of accounts be paid; that electric lights be supplied for the vaults in the registry office and that no action be taken relative to stationery or typewriter.

Report No. 1 of the education committee was read by Mr. Ball. It recommended that the communication relative to forming a new union school section between the village of Neustadt and the township of Normanby be referred back to be dealt with by arbitration. A number of accounts were also passed and recommended for payment.

Accounts to the amount of \$1553.16 were recommended for payment in report No. 2 of the House of Refuge committee. The report further recommended the confirming of payments by the manager to the amount of \$364.40. With reference to the presentment of the grand jury the report stated that a special meeting of the House of Refuge committee had been called by Dr. Bruce Smith, government inspector, and a thorough investigation held into the charges made in the grand jury's presentment. After going over the presentment clause by clause and interviewing all the inmates the only serious complaint, as far as could be ascertained, was the non-supply of sugar in the tea used by the male inmates. The report also stated that Mr. Arlidge, the only member of the grand jury who was present at the investigation, had admitted that the presentment could be greatly modified, and that the information received was from chronic kickers and grumblers. The report expressed the opinion that it was high time the law should be changed, and that all grand juries should endeavor to make themselves acquainted with all the facts before issuing a report. It was also recommended that sugar be

supplied in future to the inmates and that two more cows be purchased and butter supplied at least once a day to the inmates. The new addition to the barn has been completed at a net cost of \$711.82, and a new cement sidewalk laid costing \$196.25. The report was considered in committee and passed after some amendments had been made.

Mr. M. K. Richardson, an ex-warden of the county, was introduced to the members and addressed them on various matters of interest, after which an adjournment was made until Friday afternoon.

FRIDAY AFTERNOON.

When the council resumed business the clerk presented, along with a fresh lot of accounts, an application from Thomas Harness, manager of the House of Refuge, for an increase of salary.

Report No. 4 of the road and bridge committee recommending for payment a further list of accounts and the filing of engineer Isaac Traynor's report relative to the Priceville bridge, and of the communication from the Halton county council re increased grants for improvements of public highways. The report also stated that the committee had examined the new reinforced concrete bridge over the Pottawatamie river, between Owen Sound and Brooke and found it to be a very strong and durable structure. As it was not finished according to contract \$100 was withheld from the payment until the work was completed and passed by the engineer and committee.

James Leslie read report No. 2 of the county property committee, which recommended that half a dozen chairs be purchased for the solicitor's library and that a ventilating skylight be put in the jail store room. A number of accounts were passed and ordered to be paid. That the action of the committee be ratified in refusing to accept coal of an inferior quality from C. K. Baines, and calling for other tenders, the lowest of which was J. K. McLaughlin at \$6.36 per ton.

Report No. 1 of the printing committee as read by Mr. Schenk recommended the payment of accounts and that the minutes of November session be in the clerk's hands for distribution not later than December 20th.

Mr. Ball submitted the report of the special committee appointed to visit the House of Refuge as follows:—"We found the building in first class condition as to cleanliness and warmth. We found lavatories on every floor occupied by the inmates, also lamps in the halls to furnish light to the same. We found the couches and rocking chairs ordered by the council in June last to be now installed. We found the heating apparatus and temperature in first class condition but no thermometers in the building. Your committee took the sworn evidence of the ten inmates, seven of whom were on the petition to the council asking for improved conditions. A majority of those signing the petition testified that they were not aware of the contents of same, but had simply signed because they were requested to do so. We found all the witnesses excepting two testified that they were satisfied with the conditions and had really no complaint to offer. The complaints of these two were considered trifling by the committee, as may be seen in the evidence. George David complained that one day he suffered somewhat from cold. He also stated that for one period of two months there was no butter served to the inmates. Very little of the man's evidence was corroborated by the other witnesses examined. This man's evidence created an impression on your committee that it was not reliable. George Roy, the other inmate mentioned, was placed in the cell for a period of twenty-four hours for disobedience to the rules in for- es at attendance at Divine service. This occurred some three years ago, since then the rules have been amended in this respect, and now full liberty is given to the inmates to attend Divine service or not as they choose. The clergymen of all denominations are allowed full liberty to visit and minister to the spiritual necessities of the inmates belonging to their respective denominations. We found, in conversation with the inmates, that these Sabbath services are much appreciated by them, many of whom are on the verge of the grave. Other than this, Geo. Roy had no particular complaints outside of the clothes supplied him by the institution. We found that the inmates were supplied with butter from one to three times per week and that the male inmates were not sup-

plied with sugar except in their food. We are glad to state that the House of Refuge committee have made some recommendations in this respect. Two inmates, resident here, who have been maintained in other Houses of Refuge in the Province testify that they much preferred the treatment received in this House to what they received in the other Houses.

We find that the true object of the House of Refuge has not been lost sight of in an effort to make a good financial showing rather than the comfort and happiness of the inmates. We also find that the butter, cream and milk produced on the farm have not been sold but have been entirely used on the premises, and only the surplus vegetables which could not be used were sold. We found no complaint whatever from the inmates as to not receiving a sufficient supply of milk and vegetables of a quality quite satisfactory. We find that the complaint as to the coldness in the morning is wholly due to the opening of the windows of the dormitories for ventilation purposes, and as there are no other apartments which they may occupy during the day we do not think there is good ground for complaint in this respect. We found sufficient seating accommodation and abundance of couches and rocking chairs for the further comfort of the female inmates.

We believe in an institution of this kind discipline must be enforced, and we think it is a compliment to the management that on only one occasion since the establishment of the institution has confinement in the cell been resorted to. This cell we find is used only in extreme cases, and we find that it is reasonably comfortable for the purpose for which it is intended. The custom of the past has not been to conform to a system of cast iron rules for the management of the institution, but that tact and kindness have been used at all times and that firmness has been tempered with justice and mercy. After a careful and thorough investigation we are of the opinion that this institution is carefully and capably managed, and the people of the county may rest assured that no serious grievance exists, but that the inmates are carefully provided for.

On motion of Mr. Stephenson, seconded by Mr. D. Sinclair, report No. 1 of the House of Refuge committee as amended in committee was adopted. This was followed by a motion from Messrs. Ball and Hastie, which was carried adopting the report of the special committee and ordering

LEARN DRESSMAKING BY MAIL

In Your Spare Time at Home, Or Take a Personal Course at School. To enable all to learn, we teach on cash or installment plan. We also teach a personal class at school once a month—class commencing last Tuesday of each month. These lessons teach how to cut, fit and put together any garment, from the plainest shirt waist suit to the most elaborate dress. The whole family can learn from one course. We have taught over 2,000 dressmakers and guarantee to give \$500 to anyone who cannot learn between the ages of 14 and 40. You cannot learn dressmaking as thorough as this course teaches it if you work in shops for years. Beware of imitations, as we employ no one outside the school. This is the only experienced Dress Cutting School in Canada, and excelled by none in any other country. Write at once for particulars, as we have cut our rate one-third for a short time. Address SANDERS DRESS CUTTING SCHOOL 31 Erie Street, Stratford, Ont., Canada. WANTED AT ONCE—We have decided to instruct and employ a number of smart young ladies to teach our course in Dressmaking, having one teacher for the six nearest towns where they live—age 20 to 35. Those who have worked at dressmaking, or like drawing preferred. Please do not apply unless you can devote your whole time. Address—THE SCHOOL.
