

THE DURHAM CHRONICLE

W. IRWIN Editor and Proprietor.

DURHAM, FEBRUARY 12, 1914.

CAUSES OF CANADA'S PROSPERITY

Canada has been passing through a trying period of financial stringency and is holding her own well in the face of all difficulties. The Monetary Times says: "Old countries find it hard to cope with tight money, and it is considerably more difficult for a new country such as Canada, building on borrowed capital, to adjust internal conditions to external influences. The Dominion has accomplished this in an effective manner, a fact which critics should weigh well." Again it says: "The Dominion refuses to be sick and to have a doctor, while the international money malady is keeping other nations in bed."

The Toronto News in commenting on this says: "The financial panic of 1907 drove many United States banking institutions to the wall, while our banks came through in safety. History is repeating itself to-day in the ability of this country to hold its own in the face of world difficulties."

The London Financial News says: "There is no doubt that the reaction would have occurred earlier but for two epoch-making events. The first of these was the defeat of the Bill for Reciprocity with the United States. This was the finest advertisement the Dominion of Canada has ever had. Dominion of Canada has ever had natural reaction; it invoked patriotic sentiment and inspired new industrial and financial activity." Continuing, it says: "Then again when the force of this impetus to business showed signs of becoming exhausted, the proposed contribution by Canada towards the British navy once more appealed to the imagination of business men and of investors on both sides of the Atlantic. Still, the reaction had to come sooner or later, and as was expected, it began in the slump in real estate. In actual fact there is nothing seriously the matter with Canada to-day. The trouble lies in London, where a financial stringency has hampered not only the credit of Canada, but of other countries, of companies, and of individuals. In fact, the curtailment of credit is world-wide. The best answer that Canada can give to the criticisms is to say nothing, but to go on paying her interest and taking care of her obligations as they fall due. This is what Canada will do. In the American phrase, she will 'Say nothing, but go on sawing wood.'"

BIG CROWD IN ATTENDANCE AT TOWNSHIP HALL.

One of the largest crowds that ever was at the township hall in Glenelg was present on the evening of February 3 to hear Mr. B. Leslie Emslie speak on Commercial Fertilizers. Mr. Emslie had with him his lantern views, which gave a splendid illustration of the manner in which the potash and nitrate of soda are mined and fertilized. The potash mines are almost all in Germany and it was interesting to see the views of the miners at work and the refining of the crude salts. After showing the mining views Mr. Emslie favored those present with a few views of the Old Land and the Rocky Mountains, which views were his own photos.

Mr. Emslie works on the educational branch of the German Potash Syndicate. In fact he is chief of the branch. His object is to show farmers and others that commercial fertilizers can be used with profit if used right. The ready mixed commercial fertilizer is all O.K. but there is a cheaper method of obtaining the fertilizer. If the user has plenty of nitrogen in his soil he will not need to buy it as it is the dearest of the fertilizers. However, if he is buying mixed goods he will have to buy a certain amount of it to get the other parts of the fertilizer that he does need. The best and cheapest method is to buy the separate ingredients and mix them at home. In this way one does not have to buy what he does not need.

Roughly speaking, the average price for the different ingredients is: Nitrogen 20c per pound, phosphoric acid 5c per pound and potash 4c per pound. If we apply these prices to the analysis of the fertilizer as it is sold to the farmer, then we will be able to arrive at a safe estimate of the value of the fertilizer. The views showed the advantage of using the fertilizer on the different crops. Mr. Emslie stated that he preferred the use of the fertilizers on the root and corn crops, as there was always a certain amount of the fertilizer left in the soil for the next crop to use. He said that it would be better for every farmer to try the fertilizers on his own farm and see what was most needed on the farm to produce the largest and best crops.

Songs were sung by Mr. George Binnie and the President.

DURHAM CURLERS WON

Three rinks of curlers went over to Walkerton from here on Friday and showed the boys in the Bruce capital how to handle the besom and the stanes. If things hadn't been favorable to Durham results might never have been made public. On this occasion, however, Mr. Calder was the careful custodian of the records, and for our personal edification he came in with a smile on Saturday and gave us the figures for perusal. At the risk of causing his displeasure we publish them in full, and further say that the boys were delighted at the kindly treatment received at the hands of the Walkertonians. A return match will be played here shortly, when the visitors will do their best in a friendly way to redeem their lost laurels. The following gives the standing of the different rinks:

Walkerton	Durham
T. Jenkins	H. Allen
T. Pye	S. Hughes
J. Morrison	J. P. Hunter
N. Robinson 9 skip	18 W. Calder

G. Smith	M. Glassford
A. Johnston	J. S. McIlraith
G. McKay	W. H. Lauder
E. Pengally 17 skip	11 J. P. Telford

J. Vogt	G. Lloyd
N. Walford	T. G. Goodchild
J. White	W. Vollett
A. Collins 10 skip	19 W. S. Hunter

Total: Walkerton 36. Durham 48.

The night game:

Walkerton	Durham
N. Hiscox	R. Glassford
J. T. McNeil	J. S. McIlraith
A. Collins	W. H. Lauder
L. H. McNamara 15 skip	16 J. P. Telford

A. Benninger	H. Allen
W. H. McBurnie	S. Hughes
A. E. McNab	J. P. Hunter
F. W. Lippert 16 skip	20 W. Calder

C. Stephen	G. Lloyd
G. T. Rourke	T. G. Goodchild
J. Morrison	W. Vollett
H. McKay 13 skip	14 W. S. Hunter

Total: Walkerton 44. Durham 50.

STOMACH HEALTH - OR NO COST TO YOU.

Very likely others have advised you to use Rexall Dyspepsia Tablets because scores of people in this community believe them to be the best remedy ever made for Dyspepsia and Indigestion. That is what we think, too, because we know what they have done for others and what they are made of. We have so much faith in them that we urge you to try them at our risk. If they don't help you they won't cost you a cent. If they don't do all that you want them to do—if they don't restore your stomach to health and make your digestion easy—just tell us and we will give back your money without a word or question.

Containing Pepsin and Bismuth, two of the greatest digestive aids known to medical science, they soothe the inflamed stomach lining, help in the secretion of gastric juice, check heartburn and distress, promote regular bowel action, and make it possible for you to eat whatever you like whenever you like, with the comforting assurance that there will be no bad after-effects. We believe them to be the best remedy made for dyspepsia and indigestion. Sold only at the more than 7,000 Rexall Stores, and in this town only at our store. Three sizes, 25c, 50c and \$1.00. Macfarlane & Co.

ROBT. BRIGHAM, Auctioneer.

SUFFERED AGONY WITH NEURALGIA

Nothing Helped Her Until She Tried "Fruit-a-tives"

CAMPBELLVILLE, ONT., May 5th, 1913. "I cannot speak too highly of 'Fruit-a-tives'. For over thirty years, I have suffered from Chronic Neuralgia and Constipation, experiencing untold agony. The Neuralgia settled in my lungs and I took bottle after bottle of medicine without relief. The doctor told me I would not get better but 'Fruit-a-tives' proved that the doctor was wrong, by giving me quick relief and finally and completely curing me.

I would not have my present health if it was not for 'Fruit-a-tives' and I am glad of the opportunity of giving you this letter about such a splendid remedy as 'Fruit-a-tives', for the guidance of other women who may be similarly affected."

MRS. NATHAN DUNN.

"Fruit-a-tives" is the only medicine made from fruit juices and is particularly suited to women because of its mild action and pleasant taste.

"Fruit-a-tives" is sold by all dealers at 50c a box, 6 for \$2.50, trial size, 25c, or may be obtained from Fruit-a-tives Limited, Ottawa.

L. O. L. OFFICERS ELECTED

W. L. SAUNDERS
The Shoeman

Near Garafraxa Street Bridge, Durham, Ontario

A GOLDEN OPPORTUNITY.

A clergyman was anxious to introduce some hymn books into the church and arranged with his clerk that the latter was to give out the notice immediately after the sermon. The clerk, however, had a notice of his own to give out with reference to the baptism of infants. Accordingly, at the close of the sermon he arose and announced that "all those who have children whom they wish to have baptized, please send in their names at once to the clerk." The clergyman, who was stone deaf, assumed that the clerk was giving out the hymn book notice, and immediately arose and said, "And I should say for the benefit of those who haven't any, that they may obtain some from the ushers any day from 3 to 4 o'clock; the ordinary little ones at 25 cents each, and special ones at 50 cents."

A Warrenburg, Missouri, skunk corral was entered recently, and 160 living skunks stolen. Excuse me!

MARKET REPORT

DURHAM, FEB. 12, 1914
