OF INTEREST TO FARMERS

FREE DRAINAGE SURVEYS.

Farmers! Have you a field on your place that is too "wet, cold and sour?" Drainage will reclaim it and make it one of the best fields on the farm.

Drainage does four things. First, it removes the surplus water and makes it possible to cultivate and seed about three weeks earlier in the spring than on the same land when undrained. Secondly, it makes the land from ten to fifteen degrees warmer than if not drained, and this warmth germinates the seed properly and gives a good stand of grain. Thirdly, it lets plenty of air down to the roots of the plants, which is necessary for satisfactory growth. Fourthly, it makes the soil more porous, and this in turn causes the soil to store up more water for the use of the crops in time of drouth.

Frequently the increase of crop in one year pays for the drainage, and seldom or never does it take longer than three years, so that drainage pays from 33 per cent. to 100 per cent. per annum on the money invested.

If you have difficulty in drainage the Department of Physics of the Ontario Agricultural College will assist you on application. They will make you a complete survey of the area to be drained, and run a single line of drain, and when done, furnish you with a finished map showing location of drains, grades, sizes of tile, etc., a detailed guide for the thorough drainage of the land in question. No charge is made for the services of these drainage advisers, nor for the maps, only the applicant pays the travelling expenses in connection with his survey, amounting usually to not more than a couple of dollars.

Drop a card to the Department of Physics, O.A.C., Guelph, for the regular application form.

- Any person in Ontario may choose ONE of the experiments for 1914 and apply for the same. The material will be furnished in the order in which the applications are received, while the supply lasts. It might be well for each applicant to make a second choice, for fear the first could not be granted. All material will be furnished entirely free to each applicant, and the produce will, of course, become the property of the person who conducts the experiment. Each person applying for an experiment should write his name and address very carefully, and should give the name of the county in which he lives.

PAINTED WITH MARTIN-SENOUR 100% PURE PAINT

ORDINARY PAINT REQUIRES 3 GALLONS MORE

HOW TO PAINT FOR LESS MONEY

A PAINT is not cheap simply because the price is low—if you would economize on paint, you must look beyond the purchase price per gallon.

The cheapest paint for you to use is the paint that takes the least amount for the job. It may cost a little more per gallon, but because it thoroughly covers more surface, wears better and stays bright longer, it is the most economical in the long run.

Martin-Senour 100% Pure Paint—
"The Paint for wear and weather," is absolutely the cheapest paint to use, because it goes farthest, and endures longest.

"100% Pure" Paint has a covering capacity of 900 sq. ft. of surface one coat, per gallon, as against a covering capacity of hand-mixed-by-guess lead and oil paint of only 500 to 550 sq. ft. of surface, per gallon, or the lower priced Prepared Paint with a covering capacity of not more than 600 sq. ft. of surface per gallon.

Give us the dimensions of your house—let us tell you how few gallons of "100% Pure" Paint it will take to cover it thoroughly—then, you will realize that it pays to use the best. 25 Investigate.

Rexall Dyspepsia Tablets, in addition to other ingredients, contain Pepsin and Bismuth, two great digestive aids used by the entire medical profession. They soothe the inflamed stomach, check the heartburn and distress, stimulate a healthy secretion of the gastric juice, aid in rapid and comfortable digestion of the food and help to quickly convert it into rich red blood, and thereby into flesh, bone and muscle. They relieve stomach distress promptly, and, used regularly for a short time, tend to restore the stomach to a comfortable, easy-acting, healthy state. They aid greatly to promote regular bowel action.

Don't neglect indigestion, for it frequently leads to all sorts of ills and complications. The pain and discomfort is not the most unfortunate part. The fact that when the stomach is acting right, the material needed to repair the wastes that are constantly taking place in the body is not being given to the blood either in the proper condition or fast enough is far more serious. Nothing will cause more trouble than an unhealthy stomach.
