Success in Retailing

An essential factor in achieving success in a retail business is ADVERTISING—telling the buyers of your community what you have for them.

One doesn't need to be exceptionally clever or a genius to be a success, but one must have an aim, and pursue it resolutely and intelligently.

The businesses that are prospering and expanding are those that purposefully seek out new customers and place before both old and new customers the news of their service, in the form of newspaper advertising.

A NOTE TO THE PUBLIC

Who serve you best—busy or half-busy men? busy or half-busy shops? Where is your custom most desired and appreciated? Is it not at those shops which stretch out the hand of welcome and invitation—in the form of advertisements in the WEEKLY CHRONICLE?

Good Roads Improve Social Conditions

NO matter what your station in life or where you live, a certain amount of your time must be spent in pleasure to make life worth the living, and to obtain that pleasure you go to town or to your neighbors—especially is this true when living in the country.

Good Roads enable you to get into town or to your neighbors quicker, more often and without you or your horses or vehicles being covered with mud, and without regard to weather conditions or season. They enable your family physician to get to you quickly in times of illness. They enable your children to "foot it" to school every school-day. They keep your boys and girls on the farm by giving them better conditions generally.

Concrete Roads

are "every-day" roads—they have no "closed season" because they are open to traffic every day in the year. They are the most economical roads because they reduce the cost of maintenance to the minimum. They are easy of traction, clean, hard and free of ruts and holes. They keep your road money out of the mud.

Let us send you, without cost, complete information about concrete roads.
