SYNOPSIS OF CANADIAN NORTH WEST LAND REGULATIONS.

The sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions. Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity. In certain districts a homesteader in good standing may preempt a quarter section alongside his homestead. Price \$3.00 per acre. Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions. A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300. The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions. W. W. CORY, C.M.G., Deputy of the Minister of Interior.

Notice

The Board of Trade of the Town of Owen Sound having arranged to make a county-wide contribution of oats and potatoes for the boys at the front, the loyal people of Glenelg, not wishing to be behind in matters of this kind, will consult the several members of the Council as follows: In Division 1, Robert Lindsay; Division 2, Thos. Nichol; Division 3, Geo. E. Peart; Division 4, Joseph Young; Division 5, J. A. McMillan. These gentlemen will arrange for dates and points of delivery of contribution made by the loyal people of Glenelg towards a deserving cause. Glenelg, September 21, 1914. J. S. BLACK, Twp. Clerk.

INCREASING LIVE STOCK PRODUCTION

The outbreak of the war in Europe and the consequent demand which is naturally to be expected for increased exports of meats, finds Canada in a very much denuded condition as regards live stock.

As a result of the removal of the American tariff on cattle, a heavy export trade developed to the south in some districts in eastern Canada, nearly everything has been shipped out of the country except dairy cows. This export trade, together with many farmers selling their calves for meat, can have but one result in Canada, viz., a greater scarcity of meat than at present exists, even in a normal market. The meat industry in Canada should not be allowed to dwindle—rather, the production of hogs, sheep and cattle on Canadian farms should be greatly increased. To obtain this increase does not mean that farmers should devote their whole attention to live stock. The majority of farmers will admit that with very little extra effort and expense they could increase by several head the live stock on their farms without in any way interfering with their present system of farming.

From reports to the Commission of Conservation, present conditions indicate a world-wide scarcity of live stock, with little likelihood of an overcrowded market for many years to come. The opportunity of Canadian farmers is therefore apparent. To take advantage of this, farmers should save their heifer calves to produce more cattle, while the others may be turned off, not as veal, but as beef.

Expert stockmen advise that there are good times ahead for those raising sheep. The high price of mutton and of wool and the comparative ease with which a flock of sheep may be sustained upon land which is otherwise unsuitable for agriculture, should suggest a great increase in the number of sheep raised by Canadian farmers.

Increased production in hogs can be brought about more quickly than in any other class of live stock and consequently should receive immediate attention. Animal production on the farm is desirable because it increases the fertility and crop-raising ability of the soil. Good prices are sure to be obtained for any surplus which farmers will have to sell on account of the inevitable shortage of supply resulting from war conditions in Europe. These two conditions should be an incentive to Canadian farmers to increase their live stock production. A little foresight now, with modern methods of feeding, will make increased production easily possible.

THE WORLD-WIDE WAR.

The world wide war now being waged between practically all the civilized nations and which is the biggest and most terrible in the history of the world, has created interest unparalleled. The demands of the public for early and prompt reports of the war happenings are such that we have arranged to club The Chronicle with The Toronto World, which will enable the residents of this county to keep in close touch with the happenings in the war zone.

The World is the only morning paper in Toronto taking the full leased wire copyrighted service of the Central News, which is the most conservative and at the same time the most reliable news service in the world. In addition they receive the war cables of The New York World, acknowledged to be among the best published in America, together with the full Canadian Press service and Canadian Associated Press cable. The Chronicle will publish a weekly review of the war news and with these two newspapers you will be supplied with every event of interest.

The clubbing offer of The Chronicle and the Toronto Morning World is advertised in another part of this paper, and is of vital interest to you from an economic standpoint, for in view of prevailing conditions this very advantageous offer may be withdrawn at any time.
