A RED CROSS APPEAL TO THE FARMERS

Our country, with its Allies, waging a great war for justice, for the protection of small nations in the enjoyment of their rights, For the sake of the wounded boys. for continued and growing free- make the gift substantial. It will dom, and for the maintenance of be an investment towards the reits pledged word of honor. Much covery of some Canadian soldier Mrs. A. Stewart; organist Mrs destruction and desolation are be- who stood in our stead that our W. Kent. ing caused. Lives are being lost cause might be upheld. by the thousand. Canada's first contingent is now in the thick of it. Some will fall sick: many may be wounded; some will pay the last full measure of devotion to their country and its cause.

The Red Cross Society exists to succor the sick and wounded war. The need of Red Cross service is great and growing greater as the war goes on. The price of progress towards lasting peace is very, very dear. It costs lives, homes, health, and much besides. Canada's part in the process o payment, through giving for Red Cross work, is mercifully light and easy, even when all have given to the extent of really feeling it.

The soldiers and sailors pav the price exacted by the desolating struggle from week to week. What they paid in blood and did in sacrifice a month ago was not enough for them. Shall we say it was enough for us? What they are doing and suffering and achieving have put aside, for the time, all their thoughts and plans for individual welfare, comfort and safety. They don't hesitate to establish precedents. But they are precedents of heroic sacrifice for our country and its cause, for our principles and ideals that they may be upheld.

Farmers, individually as well as through their Institutes, Clubs. and Cheese and Butter Factories, are in a position to help very greatly. Their business does not suffer from the war. Prices of nearly all farm products have gone up. While labor is scarce there is time to think of the boys at the front and to send to the Red Cross Society a gift to be spent for the sick and wounded.

Farmers are generous it sentiment and generous in giving when their hearts and heads point the way. This is a case when they do so point clearly, persuasively and urgently. In this crisis, in the lives of nations and in the lives of stricken soldiers, none can pray too much, do too much or give too much

I appeal to farmers to send me sums from \$1 to \$50, during the
