There were 104 pigs shipped from the station here on Tuesday, \$9.20 per hundredweight being paid. This is more than the average of shipping days, and the price is said to have been higher than Toronto prices for the same date.

Under the auspices of the Varney Grange, an up-to-date picnic will be held in Mr. Wm. Carson's bush on Friday, June 18. J. J. Morrison, secretary of the Farmers' Co-Operative Co., of Toronto, is expected to be present to give an address, possibly along co-operative lines. A live committee is making full preparations for a good jolly time. Admission free. Kindly bring baskets. Everybody welcome.

The ladies at Gore Bay had a box social last week and the proceeds amounted to \$162.20, and the total amount was set in to The Toronto News' Tobacco Fund. Gore Bay is on Manitoulin Island and is credited with a population of 700. Up to this, the star collector for this fund was our townsman, Mr. A. H. Jackson, whose total contributions to date have reached the handsome sum of \$115, all of which has been sent away, and a new list opened up for the "more to follow" contributors. Mr. Jackson is delighted with the success of his efforts, but he gracefully takes off his hat now to the ladies of Gore Bay. He admits defeat, but is mustering his forces for a big drive and when he again assumes the offensive he hopes to recapture all the lost ground. If the boys can find comfort and consolation from a smoke in the trenches, by all means let them have it. Even the women of Durham whose voices have often been heard against cigarette evils were recent contributors to the boys at the front and amongst the contributions were parcels and packages of tobacco and cigarettes.

White, minister of finance, and other prominent speakers will be present, and all who come will hear a sound and sensible talk on Dominion politics. We regret to chronicle the death of William James Matthews, son of Mr. and Mrs. James Matthews, who died on Tuesday, after an illness of only two weeks from typhoid, pneumonia and other complications. The young lad was only a little over 16 years of age and for some time has been engaged with the Durham Furniture Company, where he rendered good service and was popular with his employers and fellow workmen. He was a bright, industrious young lad, and the fond parents, who sadly mourn his death, have the sympathy of the whole community. The many floral tributes from employees of the furniture company are tokens of the esteem in which the deceased was held by his many friends and associates. Interment takes place this afternoon in Durham cemetery.

HYMENEAL

KENNEDY—ADLAM.

A quiet wedding took place in Toronto on Wednesday, June 2 when Miss Laura Adlam, daughter of Mr. Robert Adlam of this place, and Mr. Harry Kennedy, of Toronto, were married. Rev. Mr. Stauffer performed the ceremony. Mr. Frank Davis of Toronto was groomsmen and Miss Zeita Marshall was bridesmaid. The young couple took a short trip to Hamilton and Buffalo. They will reside in Toronto.

MCLEAN—HENDERSON.

The marriage of Miss Grace Henderson, daughter of Mrs. George Henderson of Hampden, to Mr. Hugh McLean, Jr., of Durham, took place at 4:20 p.m. on Wednesday, June 2, at the bride's home, the Rev. W. I. McLean of Hanover officiating. Her brother, Mr. William Henderson, gave away the bride, who wore white embroidered voile, and carried a bouquet of white carnations and snapdragons with maidenhair fern. The young couple were unattended and only the immediate friends of the contracting parties were present. Miss Gertrude Corbett, the bride's niece, played the wedding march. The bride travelled in a dress of black paillette silk with white hat. The young couple will take up their residence immediately in Durham, where they will be at home to their many friends.

TOWN COUNCIL.

The council met Monday night the members all present. The minutes of last regular and special meetings were read and confirmed, and accounts amounting to \$188.61 were ordered paid.

A motion to grant \$100 to the Durham Cemetery Co., whose finances are not in very good shape, was lost.

The clerk was instructed to furnish the collector with a list of parties liable to poll tax, and also list of parties having dogs entered on assessment roll.

The treasurer was instructed to postpone for one month the advertising of lands liable to be sold for taxes and should the owners pay in the meantime, that the interest be refunded.

The report of special committee re street lights, as read, was adopted. This had reference to slight alterations in location of some of the lights from the position indicated by the Hydro engineer.

At the final sitting of the Court of Revision the assessment roll as finally revised was adopted as the roll for 1915.

Mr. and Mrs. James Matthews wish to express their thanks for the kindness shown them during their recent bereavement.

Rev. Mr. Prudham, pastor of the Methodist church here for the past three years, will go to Warton at the end of the present term. His successor is Rev. E. S. Moyer, of whom we know nothing personally.

The Choral Society decided at their winding-up meeting on Tuesday night to donate the balance of their proceeds to the use of the public library. It amounted to about \$30 and represented the net surplus of a series of meetings in which they were engaged. Besides this, they raised about \$100 for Red Cross work in other towns. The donation to the library is to be applied, we understand, towards putting the grounds in order, and the Board will find plenty of room for its expenditure. When we heard it hinted that the library was to be favored, a thought occurred to us that a librarian's desk would be a good addition to the inside furnishings, but we said nothing about it, and the society looking at the many necessities from another point of view has decided otherwise. We voice the sentiment of the board in expressing thanks to the society for their generous gift.

SIMPLE METHOD OF WATER PURIFICATION

A level teaspoonful of Chloride of Lime rubbed into a teacup of water.

This solution should be diluted with three teacupful of water. A teaspoonful of the whole quantity should be added to each two-gallon pail of drinking water.

This method of purification has been tested with Toronto Bay water inoculated with millions of bacteria. Every germ has been destroyed and it has been unnecessary to boil the water. (All traces of the chlorine rapidly disappear after the addition of the above solution to drinking water.)

CLEAN UP YOUR PREMISES

It is an opportune time, now that the hot season is setting in, to draw the attention of citizens once more to the importance of having their premises thoroughly cleaned up. Yards, cellars, wells, cisterns, etc.

There are some cases of typhoid and there may be more, unless every householder loyally does his part to help the Board of Health put the town in as sanitary condition as possible. I am having the public water supply tested and I would ask the local physicians to report all cases of infectious diseases, including typhoid and tuberculosis, in writing, stating location and water supply, whether from wells or waterworks.

WE MUST PAY! PAY! PAY!

The people are patriotic, and many, no doubt, are giving to the different funds as much as they can spare, without making a sacrifice. The poor, in many cases, are giving more than the rich, in proportion to their means. This has always been the way, and perhaps it always will be. We admit the people have been doing well, but the war isn't over yet, by any means, and we'll all have to do a great deal more before the burden is removed.

If a man's wife or child is sick and in danger, the husband and father will never consider the cost. He'll spend his last dollar to have that wife or child restored to health and vigor, if he is the right kind of man and has the comfort and well-being of his family at heart. That man is making a sacrifice. He is spending money that makes him feel poorer. He may feel the pinch of poverty perhaps, but he is willing to make the sacrifice and trust to Providence, courage and a good physique to regain his losses after the sick ones are restored. He never thinks of the cost; he'll just pay, pay, pay as long as he can, and make a still further sacrifice by incurring debt that will be a burden for years to come.

In the present crisis we are similarly situated. It isn't our wife or our child that is sick and in distress; but our country is being assailed by a treacherous and unscrupulous enemy: it is our business to assist in some way to destroy the powers that are operating against us. We may not be able to go to the front and fight our country's battles, but we can all do our little share in keeping the engines of war in good working order. We'll have to pay, and keep on paying, till kaiserism is crushed and the greed of the war gods is shattered beyond repair.

If a certain belief in the ultimate success of the Allies is optimism, then The Chronicle is optimistic regarding the outcome of the war. But arm-chair optimism will never win a battle. We need more. We need men, money and munitions. We must clothe and feed our soldiers and we must furnish comforts for the sick, the wounded, and the dying. To do these is to take a part in the war just as necessary as to go to the trenches. We can't all fight, but we can pay. Can we pay without grumbling.
