Murray Legate has gone to Stratford. The high school opened for this term with a large attendance, and the principal and his two assistants have the classes now in full swing. Mr. C. J. Bellamy left on Saturday on a motoring holiday to Toronto and Muskoka. Miss Damude, who visited for a few weeks with relatives here, has returned to her home in Toronto. Mr. Herman Hyland of Toronto, and Mr. Roy Burgess of Ingersoll, were visitors over the week end at Mr. W. A. Armstrong's. Rev. G. S. Milligan, formerly of this place, has been released by Presbytery from his charge near Sarnia, where he has labored the past two years. Rev. P. K. Dayfoot of Toronto, supplied the Baptist pulpit on Sunday, speaking in behalf of Sunday schools and their work. The Methodist pulpit was supplied by Mr. R. J. Woods of Corbetton. Four young men here took a motor run to Port Elgin on Sunday, but got hung up at Owen Sound on their way home at midnight. They had to leave their stalled engine for repairs and return home by morning train. Quarterly communion will be held in the Presbyterian church next Sabbath. Mr. H. Carrington has taken the position of caretaker of the Presbyterian church, in the place of Fred Plewes, who is moving to a farm. A very pleasant time was spent at the home of Mrs. Oscar Phillips on Thursday evening, when Miss Edna Patton, bride-to-be, was given a miscellaneous shower by her young lady friends in town. Mr. W. A. Armstrong has purchased a handsome new Overland car, delivered last week. Miss Laura already handles the wheel skillfully. Miss Florence Thurston is attending a wedding at Mitchell this week. Rev. and Mrs. Dudgeon were at Rosemont over the week end.

The Hydro-Electric Commission have just completed arrangements for the erection of six transformer station storehouses in Gueth, Berlin, Preston, St. Marys, Woodstock and Cooksville.

A TURK AND A TELEPHONE.

The Grand Vizier Looked on the New Scheme as an Evil One. Long years ago, before the Young Turk party was born or thought of, the present writer was intrusted with negotiations for the issue of a "firm" (concession) permitting the installation of the public telephone in Constantinople, says a contributor to the London Chronicle. Said the then grand vizier, "This talking machine of which you speak, can it be placed anywhere?" "Anywhere, highness." Then followed an exhaustive explanation of the conveniences of the system and the advantages certain to attend establishment of telephone communication between his highness' private residence and the imperial palace. "I think I understand; correct me if I am wrong," said his highness. "It is night. I am fast asleep. Suddenly my slumbers are disturbed by the ringing of a bell within a few inches of my head. Is that so?" "That is so, your highness." "I rouse myself. I take a part of the machine in my hand and hold it to my ear. I recognize a voice from Yildiz." "Exactly, your highness." "Exactly. The voice tells me to proceed at once to the palace, as his majesty wishes to see me immediately." "Your highness' grasp of the procedure is wonderful!" "That would happen every night. I should never have a moment's sleep. I suffer quite enough from the palace as it is. Take the thing away. It is an invention of the evil one, and I will have nothing to do with it." They have a telephone system now in Constantinople. But it took over twenty years to establish it, and it is more than probable that the view entertained by the average Turk with regard to its merit does not materially differ from that expressed by his highness, the grand vizier.

DEEP SEA LIFE.

Why It Cannot Exist Much Below the Four Mile Level.

In the American Magazine Cleveland Moffett describes the discoveries made by scientists who aboard the steamer Albatross fish all over the globe at a depth of three or four miles and bring up specimens for museums. Dr. Austin H. Clark of the Washington National museum, was the scientist in charge of this interesting vessel during one of her recent cruises in the Pacific. In the following extract taken from his article Mr. Moffett reports a conversation that he had with Dr. Clark: "I inquired how far down in the ocean life is found, and the scientist replied that while soundings have been taken to a depth of six miles no traces of life have been found much below the four mile level, and oceanographers believe that at the bottom of the great ocean abyss, say at the five or six mile levels, no life exists or can exist. "Because of the immense pressure?" "No, because of the lack of food. You might think that food would sink to the bottom, since some of the deepest areas are near the shores, notably north of the West Indies, east of Japan, south of Newfoundland and, deepest of all, east of the island of Guam. Undoubtedly there is an abundant food supply on the surface of the ocean at these points, yet none of it in sinking will reach the bottom for the reason that whatever is not devoured on its way down by creatures of the sea will be dissolved in the lower levels, where the solubility of water is greatly increased, owing to the increased pressure. Not only is it believed that practically all animal and vegetable matter is dissolved at a depth of five or six miles, but the softer bones of animals are probably dissolved, leaving only the very hardest ones to reach the bottom. Thus the trawl nets bring up from great depth sharks' teeth and the ear bones of whales, which are extremely hard, but very rarely other bones."

A Brief Introduction.

Mark Twain said the only introduction to a literary audience that seemed to him the right word in the right place, a real inspiration, was as follows:

"Ladies and gentlemen, I shall not waste any unnecessary time in the introduction. I don't know anything about this man—at least I only know two things about him. One is that he has never been in prison, and the other is I can't see why he hasn't."

Approval.

"You approve of your wife's public speaking?" "Yes," replied Mr. Meekton. "I'd rather she told her views about economics and sociology to the throng than have her handing them out to me as little bedtime stories."—Washington Star.

A Bird.

Peggie—Why do you say he is a bird? Polly—Well, he is chicken hearted and pigeon toed, has the habits of an owl, likes to wear a swallow tail coat and collars with wings, he is always acting the goose and he is a perfect jay.—Judge.

He Wanted to Know.

"Ma, what's that big round thing on wheels?" "The water wagon, my dear."

"Is that the one Uncle Tom said pa fell off of?"—Boston Transcript.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years, was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

A splendid program of a literary and musical character will be given free. Miss S. Tucker has fitted up the old post office and has opened up a millinery business therein. Only two weeks more, and the 8th annual fall fair of the Egremont Agricultural Society will have come and gone. The directors as usual, are making every effort to have a successful fair again this year. D. P. Coleridge speeded up his fine new Ford car on Tuesday and with Mr. and Mrs. Irvin, and Mr. Strausser, went to Harrison to be present at the patriotic demonstration in that town.

OFFICIAL FRUIT BULLETIN

FRUIT BRAND—DEP. OF AGRICULTURE Not many days left for securing the best of Peaches and Plums. Crawford and Elberta peaches are obtainable at moderate prices, but prompt action will be necessary to those wishing a supply of these delicious, health giving fruits. It is impossible to have too much fruit in our Canadian winters. The Red Cross Society would be grateful for a few jars for four boys in France, and the Overseas Club has promised to look after delivery. Every Canadian housewife should put down all the fruit—especially Peaches and Plums that she can possibly afford.

UP THEY GO.

"Mary had a little lamb," The poet long has writ. Now with the rising cost of meat, She'd better hang on to it!

People who have arrived at Cochrane from the new Kowash gold fields, announced that every bit of land in the district had been staked as a claim.

House Wiring For Hydro-Electric

I wish to advise all who have house wiring to do, or those having alterations to make in their present wiring, that I am prepared to accept contracts for such work and push it along as expeditiously as possible.

As the Hydro current will be turned on in a few weeks it is necessary for all intending users to make preparations now, as the service will not be given to any one till changes and inspections are made, and permits granted.

Ask us for estimates on alterations or new work.

MOTHERS

REMEMBER! The ointment you put on your child's skin gets into the system just as surely as food the child eats. Don't let impure fats and mineral coloring matter (such as many of the cheap ointments contain) get into your child's blood! ZAM-BUK is purely herbal. No poisonous coloring. Use it always 50c. Box at All Druggists and Stores.

EXPLICIT.

Lawyer (to timid young woman)—Have you ever appeared as witness in a suit before?

Young Woman (blushing)—Yes, sir, of course.

Lawyer—Please state to the jury just what suit it was.

Young Woman (with more confidence)—It was a nun's veiling, shirred down the front and trimmed with a lovely blue, and hat to match—

Judge (trapping violently)—Order in the court!

ACTION OF SINGLE SPOONFUL SURPRISES MANY

Durham people who bought the simple mixture of buckthorn bark, glycerine, etc., known as Adler-ika are surprised at the INSTANT effect of a SINGLE SPOONFUL. This remedy is so complete a bowel cleanser that it is used successfully in appendicitis. Adler-ika acts on BOTH upper and lower bowel and ONE SPOONFUL relieves almost ANY CASE of constipation, sour or gassy stomach, ONE MINUTE after you take it, the gasses rumble and pass out.
