A DRY WORLD BY 1940 According to a dispatch from Philadelphia the world will be virtually dry by 1930 and bone dry by 1940. Miss Anna A. Gordon, newly-elected president of the World Women's Christian Temperance Union has made the prediction. "We are rapidly steering toward world temperance and within eight years the W.C.T.U. will annihilate the liquor traffic from the face of the earth. "Two-thirds of the nations of the world are now seriously considering prohibition and several will vote for dry legislation before 1924." In outlining the program for drying up the world, Miss Gordon said the schedule would be as follows: Uruguay, 1924; Argentina, 1924; Chile, 1927; Austria, 1925; Denmark, 1925; Germany, 1929; Great Britain, 1928; France, 1933; Japan, 1936; Brazil, 1929; Africa, 1926; Mexico, 1932; Italy, 1938; Spain, 1939; China, 1939. "First, prohibition will come in these countries by enactment of laws prohibiting strong spirit drinks. Then the fight is won, for rigid temperance laws will follow," said Miss Gordon. EXPERIENCE VS ENTHUSIASM All the retail stores of the U. F. O. are to be closed. Every few weeks brings a sharp retrenchment in activities of farmer co-operative organizations. The enthusiasm that waxed so great on the crest of the farmers' political movement is now replaced by experience, which is safer, but not so pleasant.

Holstein. (Our own correspondent.) Mrs. W. T. Petrie, after a two months' sojourn in the West, returned on Monday evening of this week. Miss Lizzie Brown has returned to Toronto to continue her work in the mission field there. Mr. and Mrs. J. W. Philp spent last Sunday with friends here. Both the Presbyterian and Methodist Sunday schools are preparing for their Christmas entertainments, the former to be held on the 20th inst., the latter on the 22nd inst. Bert Dyer, rural courier Route 1, had quite an experience one day last week when his horse ran away. Bert took good care of the mail, however. The Department of Agriculture has decided to hold a four weeks' Short Course along agricultural lines. Special attention will be given to the judging of live stock. Special speakers on horses, veterinary science, fruit, bees, bacon hogs, and sheep husbandry will be held in Holstein from January 30 to February 23, 1933. At the same time the ladies will have two courses, when addresses on Home Nursing and Domestic Science will be given by Misses E. Harcourt and Gertrude Grey. This should prove an interesting event and should be well patronized. Mr. James McInnes has the roof on his new residence. The Irvin-Lewis shooting match held here on Tuesday was quite a success. All the geese and ducks were disposed of. The strong wind made rifle shooting difficult, nevertheless some good shooting was done. We had a pleasant call from Mr. John Mark of Saskatoon. He is spending a few weeks with his parents and friends here. ALL'S WELL THAT ENDS WELL A friend of mine was married to a scold, To me he came and all his troubles told; Says he: "She's like a woman raving mad." "Alas, my friend," said I, "that's very bad." "No, not so bad," said he, "for with her true "I had both house and lands and money, too." "That was well," said I. "No, not so well," said he; "For I and her own brother went to law with one another, "I was cast, the suit was lost, and every penny went to pay the cost." "That was bad," said I. "No, not so bad," said he, "For we agreed that he the house should keep, "And give to me four score of Yorkshire sheep, "All fat and fair and fine they were to be." "Well, then," said I, "sure that was well for thee." "Twas not so well," said he, "for when the sheep I got, "They every one died of rot." "That was bad," said I. "No, not so bad," said he, "For I had thought to scrape the fat "And put in an oaken vat, "Then into tallow melt for winter store." "Well, then," said I, "that's better than before." "Twas not so well," said he; "For, having got a clumsy fellow "To scrape the fat and melt the tallow "Into the boiling fat the fire catches "And then, like brimstone matches "Burned my house to ashes." "That was bad," said I. "No, not so bad," said he; "For what is best, "My scolding wife had gone among the rest." Growing Brighter. A citizen seven years in arrears for his paper, who had never said a good word for the editor, and who was always opposed to public improvements, was dying. "How do you feel?" asked the editor, who was on hand to write the obituary. "All looks bright before," gasped the dying man. "I thought so," replied the editor. "You will see the blaze in about ten minutes." The beginning of a perfect evening is a decision to let the supper dishes wait until morning. Nothing else is so conducive to contentment as a contemplation of the other fellow's troubles.

WARTON MAN'S FOOT WAS BADLY MANGLED Wesley Hahn, owner of the billiard parlor in Warton, is in the hospital at Owen Sound, where he is being treated for a mangled foot, injured by the accidental discharge of a gun while hunting for rabbits at Manitoulin Lake in Keppel some five or six miles from Warton. He had a double-barrelled gun and seeing a rabbit pulled back both hammers and discharged one barrel at the animal, which continued to run. In following up the chase his long rubber boots in some way jerked the gun from its position and the whole charge entered his right foot. He was taken at once to Warton, where first aid was administered by Dr. Hough, and then taken by motor car to Owen Sound, where his foot was found to be very badly mangled, but it is thought amputation will not be necessary. The honeymoon draws toward a close when the young couple come back to the neighborhood where their relatives live.

Humanity in Action. Two aeroplanes have been sent out to search for a missing schooner with \$200,000 worth of booze aboard, and a crew of thirteen. Heavy loss of life is feared on the New York mainland if she goes down. Wouldn't Burn Much. Wife (away from home)—Horror! I forgot to turn off the electric iron! Husband—It's all right. Nothing will burn long. I forgot to turn off the water in the bathtub.
