

Mount Robson, 13,069 Feet, Is the Highest Peak in the Canadian Rockies

Canada has some of the most magnificent mountain scenery in the world, as anyone who has travelled through the northern Canadian Rockies knows. The scenery is so varied, so full of surprises, that if the traveller gives his constant attention to one side of the car he is almost certain to be missing something very wonderful on the other side.

For years transcontinental railways in America have tried out various types of observation cars through the mountains, the objective being to give their patrons the best possible views of the scenery. Some of them have been simply open platform cars, with no protection from the sun or inclement weather.

Car builders have been vying with one another in the construction of these cars to provide the finest observation facilities along with the maximum of comfort. At

last the Canadian National Railway shops at Leaside, Toronto, have turned out a car which has all the requisites.

This car might almost be described as a sun-room on wheels, in view of the large percentage of glass used in its construction. It is regulation size, with a closed-in section 44 feet long and a spacious open compartment at each end where passengers may enjoy the open air. The interior of the car has sixteen large windows on each side running from the seat arm rests to the ceiling. These windows are 4 ft 5 in high by 28 in wide, having two panes of glass 24 in by 24 in, one above the other. There are also two of these windows at each end of the car, one at each side of the door leading out on to the platform.

The seats are arranged transversely on each side of a centre aisle, as in an ordinary car, there

being sixteen double seats on each side providing seating capacity for 64 passengers. The platforms provide capacity for 36 additional persons. The entire car side framing is of steel, with the interior finished in British Columbia cedar, stained mahogany. The interior is equipped with the most up-to-date ventilators, electric light and shades.

One of these new cars was exhibited at Toronto Exhibition last year for the first time, and 150,000 people inspected the car during the fair. It was very favorably commented upon. The car in many ways is an innovation, and marks another advance move by our National Lines.

These cars are to be used on the Mountain Division of the Canadian National Railways, and will enable travellers to view the majestic scenery on both sides of the car with the utmost ease and comfort.

SPOUSE SOUNDLY SPANKED BY HUSKY DETROIT WIFE

For one year Mrs. Gladys Lessynski, 31 years old and muscular, will act as special probation officer on behalf of Judge Thomas M. Cotter of the Recorder's Court, Detroit, Mich. During that period her sole and immediate charge will be none other than her husband, Joseph, 30, naughtily, though timid, and less brawny-armed than his better half.

Gladys got the job after she convinced the judge that pulling her spouse across her knee and spanking him until he yelled quits was no more trying a task than making her breakfast pancakes.

"You've done a good service to this court," Judge Cotter told the wife, following her assertion and the husband's admission that Tuesday night after he had failed to explain his ten hours' absence from home to her entire satisfaction, she laid him across her knees and spanked him until he shrieked submission.

"If other wives took their husbands in hand as you have done, Gladys, fewer of our citizens would be found loitering in the street drunk and thus getting in trouble with the police," the judge said. "For a year you will be in charge of your husband, who is placed on probation."

Joseph was in court to face a charge of having liquor in his possession. He was arrested at 9.30 o'clock a.m. and was released to go home after an arraignment in high court. He reached home about midnight, he said. Gladys demanded an explanation of the absence, he said, and he told her he had been arrested and was up in court. Furthermore, he told her he would have to appear in the morning.

"Don't tell me that old story," Gladys cried. "I know what you've

been doing. You've been out having a good time with your drunken friends."

Thereupon, Joseph said, the wife grabbed him by the nape of his neck and stretched him over her knees. She spanked and spanked until he screamed, he said. After that she told him to go to bed, promising to accompany him to court Wednesday.

"Well, Judge, if you want me to, I'll spank him every day," Gladys told the court after she was convinced her husband really had been in a mess with the law. "He'll get a spanking to-night."

"Are you going to put him to bed without his supper?" the court asked.

"No, judge, he'll get his supper, then the spanking, and he'll march to bed after that," Gladys explained.

BORN WITHOUT EARS

A most rare and unfortunate case of abnormal childbirth in Chatham is reported. The child in question was born without ears. According to a physician who has examined the child, there are the rudiments of an ear on one side of the face, but there is no sign whatever of one on the other side. There are no canals by which the child will be able to hear. Doctors declare that the child will never be able to talk, owing to the fact that it will never hear others. The parents of the child are Blenheim residents.

CHURCHES AND SCHOOLS CLOSED WHILE JOY PALACES OPEN

(Walkerton Herald and Times.) The local schools having been closed for another week by request of the Board of Health, while the churches, on similar authority, withdrew their services on Sunday night, some who are apparently strong on scruples complained to the M.O.H. that the Pentecostal brethren were holding meetings on week-nights, and asking that it be stopped.

Chief Ferguson was deputed to take the matter up with one of the leaders of the Pentecostals here, but the latter, on being communicated with very fittingly replied that they would close up their house of worship when the moving-picture show, curling and skating rinks and other places of amusement took a spell off. Not much sense, he claimed, in putting the ban on education and religion and letting joy remain unconfined here.
