Thursday, May 3, 1923.

MISSED THE WASTE BASKET

On two or three occasions lately we published articles from readers who professed to be in sympathy with the U.F.O. movement at the time of the last election but since regretted the course they had pursued. Two of these were from former Liberals and the last one from a man we presumed to have been an old-time Conservative. In giving Kenzie. space to their articles we had a fear of getting in wrong with some of the 34. party who are still faithful in their allegiance to the U.F.O. principles. Notwithstanding this, however, we gave their thoughts publicity and though the last-named contributor though a presumed Conservative originally and still strongly in favor of U.F.O.-ism, we held nothing back, but gave his views just as they were presented to us. In this respect we have been more generous than The Farmers' Sun, if we judge the following contribution, which appeared in its issue of April 28, and reproduced without comment: "Editor The Farmers' Sun:

"Your paper is wrongly-named. It should be Drury, Raney and Doherty's paper. It is a light to their feet, a lamp to their path. They are cursed above all that ever held power. They have done the country more harm this four years than was ever done to it since white men got possession. And you know it, only you are afraid to offend. Likely he pays you well for keeping his dirty work out of the paper, but we get all kinds of papers, so we know the news. I have taken your paper for four years. I have fought hard for the Farmers' Government, but never any more. Away with them. They have ruined the country. They have destroyed us farmers. If Drury was here and heard the talk about him he would crawl into a knot-hole to get out of sight. I could tell you lots but you know it. I have written four times to The Farmers' Sun but it went in the waste basket, and so will this. There is too much truth in this for you to print it. None of the old parties, Grit or Tory, ever brought us in bondage or poverty as we are in now, and you know it. A.G."

"Emo. We said we would give this without comment, but for all that we rise to remark that we do not like the vindictive style in which the article has evidently been written. A milder form of expression would carry far more weight with it.

THE POLITICAL SITUATION

The Liberals have bills out announcing a convention on May 10, to select a candidate for the coming Provincial election. The day following, Friday, May 11, a mass meeting of the Liberal-Conservatives will be held for the purpose of organization, and to select a candidate, if deemed advisable.

At time of writing, we have no idea when the U. F. O. party will convene for similar purposes, nor can we do anything more than guess at the choice of candidate to be made by any of the parties concerned.

It is no longer a secret that Dr. Jamieson is being urged by Conservatives to take the field in their behalf, but from anything we can learn he has not decided to accept. We'll know better after the meeting next week.

We have no idea who the Liberal will be, if they have one, and even from the present outlook it is hard EARLY SEEDING GIVES to say whether or not Dr. Leeson will get the U.F.O. convention. In 1 fairness to the man who fought and won in the last contest, we think he deserves a second chance, but they know their own business best. they have a better winning card is all right for them to play it. There is little doubt there will be two or more in the field.

BRAINS SHOULD COUNT

The Owen Sound Sun-Times in an editorial on the selection and nomination of candidates for political positions says it would be well to give more consideration to the mentality of the caniddates. Popularity is not the only consideration unless the popularity be supported by brains, and there is really no reason why a brainy man should not be a popular man as well. The brainy man should by all means carry the convention, unless ruled out as an impossible on some other count.

The glare of the headlights is menace to motorists but the glare of confirmed by those at Guelph and pedestrians is wholly harmless.

THE LARGEST YIELDS

(Experimental Farms Note) Save only at harvest, there is no work on the farm so urgent and so profitable as that of getting the grain crop seeded early. With no additional cultivation or seed, cereal crops planted early in the spring, produce much larger yields than those seeded later. Accordingly, more profit will be made on the farm if the spring seeding is done as quickly as possible after the land is ready. These views, it must be said, are not new, they have been stated before many times but they are so important that, at this season of the year, especially, they should be remembered and, where possible, acted upon.

The advantage of seeding wheat, oats and barley early in the spring has been very outstanding at Ottawa. While in the Maritime Provinces the spring is later, experiments have not shown such advanta ages, the results at Ottawa have been McDonald College and prove beyond It would be easier to keep the boys all question of doubt that they are tario and in most of the province of The fellows we see wearing the Quebec. In 1890 experiments were commenced at the Central Experimental Farm, Ottawa, in which the

first seeding was made as soon as the lier, and 41.51 per cent. in 1901. land was ready to sow and five sucevery case were secured at the second date of seeding, that is, seven days after the land was ready to sow. However, inasmuch as this land was well drained, the second date of seeding might fairly be said to represent the earliest date on which the average farmer would

express to save bother."

OVER NINETY-SEVEN PER CENT.

OF CANADIANS ARE CHRISTIANS Canadians to the extent of 97.6 per cent. belong to some Christian denomination, according to a census bulletin on religions recently issued by the Canadian Bureau of Statistics. In other words, of a total population of 8,788,483, there are 8,572, 516 classified as Christians. Non-Christians number only 173,143, or 1.9 per cent, including 125,190 Jews. 40,727 of Oriental religions, and 7,226 pagans. This leaves less than onehalf of one per cent. otherwise re-

Roman Catholics in Canada number 3,383,663, or 38.50 per cent., as against 39.31 per cent. 10 years ear-

Presbyterians are given as 1,408,cessive seedings were made at one 812, or 16.03 per cent. In 1911 the 15.68.

Methodists throughout Canada number 1,158,744, or 13.18 per cent. of the population, against 14.98 per cent. in 1911, and 17.07 per cent. in weeks, returned to her home in Par-

Anglicans are shown as numbering 1,407,959, or 16.02 per cent., compared with 14.47 per cent. in 1911 and 12.69 in 1901.

Baptists number 421,730, or 4.80 new home. per cent., compared with 5.31 per cent. in 1911, and 5.92 in 1901.

On the date the census was taken June 1, 1921—there were in Canada Kearney. 19.659 Mormons; 12.658 Doukhobours, 169,882 adherents of the Greek Church, 11.288 Buddhists, 27,319 Confucians and 478 Mohammedans. Sihks and Hindus are given as numbering 840, and Shintos 427. Atheists are shown as numbering only 1,041 throughout Canada, Agnostics 594 and Free Thinkers 1,126.

AN ESSAY ON WOMEN

The woman is the female of the human race which she wins by short head.

In the human race man is scratch ed. It is the woman who does the scratching.

She has many curious habits. One is to tie herself up in whalebone, and pull and squeeze herself into something dreadful. Then she seeks some man to put his arm around her waist and continue the squeezing.

Woman's crowning glory is her lows' meeting. hair, but I do not mind telling you on Good Friday evening, a pleasant, usually on the dressing table. The other half appears to get into the

Father came home the other night with a bright golden crowning glory on his coat. Mother dusted his coat for him.

Woman considers herself to be the ornamental portion of the community. She is the drone of the hive, and never works. Only with her tongue. And that never stops.

Restored to Health By Taking "Fruit-a-tives"

Made of Fruit Juices and Tonics

The most convincing proof of the true worth of "Fruit-a-tives" as a medicine for women is found in the letters written by them to "Fruit-atives". For instance:

"I suffered with all the symptoms of female trouble, pains low down in the back and sides, constipation and constant headache. A doctor advised an operation. I started taking "Fruit-a-tives" and this fruit medicine completely relieved me of all my misery".

> Mrs. M. J. GORSE, Vancouver, B.C.

Gallantry.

A young soldier from the backwoods section had been invited to a military dance and was frankly horrified at the up-to-date ways of the young women. His partner after spending half of the dance in agony over his awkwardness suggested that they sit out the other half of the dance, and led him to the verandah. There she drew out a gold cigarette case and remarked: "Of course, you don't mind girls smoking?"

The young soldier was determined to be just as modern as she.

"Lady," he retorted, "I don't give a: hoot if you chew."
