A GOOD WINTER WHEAT

Farmers May Try Free a Well Tested Variety.

The O. A. C. No. 104 is a Proven Success—Other Experimental Tests Suggested—All Material is Supplied Free of Charge—A Chance for Enterprising Farmers.
(Contributed by Ontario Department of Agriculture, Toronto.)

The market value of the winter wheat of Ontario amounts to over fifteen million dollars annually. It is, therefore, one of the most important of the money crops of the Province. The acreage of winter wheat during the past year has been about the same as the average annual acreage for the past forty years. There is not a county or district in Ontario in which winter wheat is not grown, although in New Ontario the average annual amount is not more than about 20,000 bushels. Owing to the comparative low price of winter wheat at present, strict attention should be given to economic methods and to large yields.

O. A. C. No. 104 a Carefully Chosen Cross.

The Dawson's Golden Chaff is still the variety most largely grown according to the December Bulletin of the Ontario Department of Agriculture for 1922. With the object of securing even a better variety, crosses have been made at the Ontario Agricultural College between the Dawson's Golden Chaff and some other varieties, such as, Tasmania Red, Crimean Red, Turkey Red, Buda Peeth, Imperial Amber, and Bulgarian. A new variety has been originated at the College by crossing the Dawson's Golden Chaff and the Bulgarian, and this is now known as the O. A. C. No. 104. In both the College and the co-operative tests this new variety has made an excellent record, surpassing the Dawson's Golden Chaff in both yield and quality of grain. It is a white wheat, and resembles the Bulgarian in possessing a white chaff and the Dawson's Golden Chaff in a beardless head. It is a vigorous grower, and has been less subject to winter-killing than the Dawson's Golden Chaff.

The Value of Using Good Seed.

It is also important to use seed of high quality. The results of six years' experiments at the College, show an average increase in yield of grain per acre of 6.8 bushels from large as compared with small seed, of 7.8 bushels from plump as compared with shrunken seed, and of 35.6 bushels from sound as compared with broken seed. Seed which was allowed to become thoroughly ripened before it was cut produced a greater yield of both grain and straw, and a heavier weight of grain per measured bushel than that produced from wheat which was cut at any one of four earlier stages of maturity. In each of two years when winter wheat was sown in the fields, germination tests of the grain were made. The following results show the average percentage of germination from each selection: Skin over germ, unbroken, 94; skin over germ, broken, 76; sprouts one-quarter inch long, 30; and sprouts one inch long, 18. Not only was the sprouted wheat low in germination but the plants produced were very uneven in size.

White Wheats vs. the Red Varieties.

White wheats as compared with red wheats yield more grain per acre, possess stronger straw, weigh a little less per measured bushel, are slightly softer in the grain, are more useful in the manufacture of shredded wheat and of pastry, and furnish a somewhat weaker flour for bread production.

Winter wheat which was grown on clover sod yielded much better than that which was grown on timothy sod, and that which was grown on land on which field peas were used as a green manure yielded 6.5 bushels of wheat per acre more than that grown on land on which buckwheat was used as a green manure.

Several Experimental Union Tests to Choose From.

In time for seeding this autumn, valuable material will be sent out from the College to those farmers residing in Ontario who wish to conduct experiments upon their own farms through the medium of the Experimental Union. The material will be supplied, free of charge, to those who wish to conduct the experiments and report the results in the early autumn of 1924. Any Ontario farmer may apply for the material for any one of the following seven experiments: (1) Three choice varieties of Winter Wheat (including O. A. C. No. 104); (2) One variety of Winter Rye and one of Winter Wheat; (3) Spring applications of five Fertilizers with Winter Wheat; (4) Autumn and Spring applications of Nitrate of Soda and Common Salt with Winter Wheat; (5) Winter Emmer and Winter Barley; (6) Hairy Vetches and Winter Rye as fodder crops; (7) Mixtures of Winter Rye and Hairy Vetches for seed production.

The size of each plot is to be one rod wide by two rods long. Fertilizers will be sent by express for Experiment No. 4 this Autumn, and for Experiment Number 3 next Spring. All seed will be sent by mail except that for Number 4 which will accompany the fertilizers. The material will be sent out in the order in which the applications are received, and as long as the supply lasts.—C. A. Zavitz, O. A. C., Guelph.

If you are going to do anything permanent for the average man, you must begin before he is a man. The chance of success lies in working with the boy, and not with the man.—Theo Roosevelt.

Here and There

The total elevator capacity of Port Arthur and Fort William will reach 65,000,000 bushels by September of this year. By the end of 1924 the elevator capacity is expected to reach seventy millions.

Immigration returns of the Canadian Government for the first five months of the present year show a one hundred per cent increase in immigration from the British Isles over the figures for the same period of last year.

The 1923 apple crop of the Okanagan Valley will amount to 4,620 cars according to the estimate of W. T. Hunter, district horticulturist. This is an increase of 20 per cent over last year and a record for the district. The apple crop for Kootenay and boundary districts will approximate 380,000 boxes.

A new high record of production was established by Canadian newsprint mills during May with 110,252 tons, an increase of nearly 10,000 tons over the month of April and 15,750 over May of last year. The daily production in May was 4,084 tons, the highest in the history of the Canadian industry.

Following the opening of the Banff-Windermere Motor Highway, Lieutenant Governor Nichol of British Columbia and Randolph Bruce were honored by the Kootenay Indians who made them an honorary chief and full chieftain of their tribe respectively. The Indian celebrations were held at Invermere in the beautiful Windermere Valley.

Several new air stations are to be opened in Ontario and Quebec in the near future for the purpose of extending the forest area to be patrolled by airplanes. A base is to be established at Ramsay Lake near Sudbury, and from this point all Ontario work will radiate; operations being carried on at Orient Bay, Remi Lake and at least two other substations not yet announced.

If the Canadian pre-war exports of flour are considered as 100, the Dominion's average export total between 1921 and 1923 can be considered as 207. Comparatively, pre-war exports of the United States being rated at 100, its present export is at the rate of 147. This indicates that Canada has more than doubled her export trade in flour while the United States has increased its trade by 47 per cent. Before the war Canada exported 3,832,000 barrels, while at present her exports average 7,885,000 barrels a year.—"Journal of Commerce."

Mr. Georges Delrue, one of the most important personages of France arrived in Montreal by the S.S. "Minnedosa" to take up residence at St. Johns, Que. Georges is two and a half years old and has spent most of his life with his grand parents in Tourcoin, a small town on the border line of Belgium and France. The journey from the old homestead, via Antwerp, Georges made alone but never out of sight of the watchful eyes of the officials and servants of the company.

Major General Lord Lovett, a passenger on the Canadian Pacific liner "Montcalm," and delegate to the British Empire Forestry Conference, Ottawa, said in connection with his investigations into Canadian forestry methods and applied science, "England has but a small forest area in comparison to Canada, nevertheless, her forests were depleted two-thirds to meet the emergencies of the War, and now we are determined to recover this loss by practical reforestation. We have been working at this for the last three years and expect to make a completion of our work in another year."

Flora—I am never going to speak that awful Dr. Tinker again!

Dora—What's the matter, honey, did he insult you?

Flora—Did he insult me! Well, after he had been courting me for about a year, he proposed and I naturally turned him down. And then, what did he do but send me a bill for sixty visits!

Edge Hill.

(Our own correspondent.)

Miss McKinnon of Toronto is visiting the McFayden family.

Mr. and Mrs. Alex. Firth of Brampton spent a few days with Mr. and Mrs. Arthur Edge.

Miss Ethel Anderson enjoyed a week's visit with her friend, Miss Hazel Beaton, Glenelg Centre.

Mrs. Bond of Buffalo is the guest of her sister, Mrs. Thomas Ritchie.

Mr. and Mrs. Arthur Edge were in Mount Forest on Friday.

Mrs. Burnham and daughter Mrs. Melville, who have spent the past month with the Misses Edge, returned to Toronto on Monday. Mr. Melville was up from Toronto over the week-end.

Miss Myrtle Robinson enjoyed a week's visit with friends at Oliphant Beach. Her cousin from there accompanied her home.

Mrs. Atkinson and little daughter returned to their home in Manitoulin on Friday after a pleasant holiday with her parents, Mr. and Mrs. Thomas Ritchie.

Miss Christene Anderson had the misfortune to fall down stairs the other evening on the old home place and fracture her collar-bone.

Messrs. Archie and Hector McDonald were busy last week finishing up the haying on the old home place near Priceville.

Mrs. Victor Williams enjoyed a week's visit with her brother, Mr. John Mortley of Arthur. She was accompanied home by Mrs. Mortley, who is visiting for a few days with her parents, Mr. and Mrs. H. Williams.

Rocky Saugeen

(Our own correspondent.)

Congratulations to Mr. and Mrs. Earl Vessie on the arrival of a young daughter.

Miss Emma Gadd of the West spent a few days with her uncle and aunt, Mr. and Mrs. Archie Thompson.

Mr. Roy Thompson of Toronto spent the holiday with his parents here.

Miss Freda Cardwell of Toronto is spending a few days with her cousin, Miss Sadie Lawrence.

Messrs. Malcolm McKechnie and Walter Clark spent the holiday at Owen Sound.

Mr. and Mrs. William Lawrence of town spent Sunday with the latter's brother, Mr. Walter Clark.

Mr. Charlie Weppeler is burning another kiln of lime this week.

The Lawson family spent an evening at the home of Mr. Lauchie McLean this week.

Aberdeen.

(Our own correspondent.)

Mr. and Mrs. Duncan Clark and son Jack of Owen Sound, and Mrs. O'Neil and daughter, spent Sunday with Mr. and Mrs. Hugh McLean.

Mr. Jack Ferguson of Proton, and Mr. and Mrs. Runciman and daughter Mary, of Toronto, visited Messrs.

PUTS HEALTH AND VIM INTO WOMEN

So Says Mrs. MacPherson of Lydia E. Pinkham's Vegetable Compound

Brantford, Ontario.—"I was always tired and the least exertion would put me out for a day or two. I had a pressing pain on the top of my head, pain in the nape of my neck, and when I stooped over I could not get up without help, because of pain in my back. I did not sleep well and was nervous at the least noise. I kept house, but I was such a wreck that I could not sweep the floor nor wash the dishes without lying down afterwards. A friend living near me told me what Lydia E. Pinkham's Vegetable Compound had done for her so I began to take it. With the first bottle I felt brighter and got so I could wash dishes and sweep without having to lie down. Later I became regular again in my monthly terms. I have taken ten bottles all told and am now all better. I can truly say that your wonderful medicine cannot be beaten for putting health and vim into a woman."—Mrs. JAMES H. MACPHERSON, 309 Greenwich St., Brantford, Ont.

If you are suffering from a displacement, irregularities, backache, or any other form of female weakness write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for Lydia E. Pinkham's Private Text-Book upon "Allments Peculiar to Women."

James and Hugh Macdonald's one day last week.

Mr. and Mrs. Walters and family of Owen Sound spent the week-end with Mr. and Mrs. D. N. Clark, Master Neil and Miss Margaret Clark returning with them, having spent a week in Owen Sound.

Mr. and Mrs. John L. Ferguson of Proton spent a few days last week with the latter's sister, Mrs. James Macdonald.

Mr. Fletcher McLean of Holstein spent Sunday with his parents here.

Mr. and Mrs. George Duncan, Mr. Gordon Duncan, of Dundalk, and the Messrs. Archie and Kenneth Ferguson of Proton spent Sunday with Messrs. James and Hugh Macdonald.

Durham High School

The School is thoroughly equipped to take up the following courses:

- (1) Junior Matriculation.
- (2) Entrance to Normal School.

Each member of the Staff is a University Graduate and experienced Teacher.

Intending pupils should prepare to enter at beginning of term.

Information as to Courses may be obtained from the Principal.

The School has a creditable record in the past which it hopes to maintain in the future.

Durham is an attractive and healthy town and good accommodation can be obtained at reasonable rates. C. H. DANARD, B. A., Principal. C. L. GRANT, Chairman.
