

Priceville.

(Our own correspondent.)

We had a nice shower of rain on Sunday forenoon. It prevented a number of people venturing out to church, but after all it did not continue long enough to soak the dry ground as many people would wish for.

A good many fields of barley were cut last week.

The silver black foxes have a great many visitors from outside points to inspect them at the ranch this season.

Nothing is decided upon yet, but the class that prizes will be offered for will likely be babies under one year. Mr. F. G. Karstedt purchased a fine registered Jersey cow from the Sheppard farm near Markdale.

Mr. J. McFaggart has left for the West.

Our local drovers have had some experience with a herd of black cattle purchased in Proton Township. They seemed to think that once they left their own yard that the lands were freehold and acted accordingly. Only after three attempts were they finally driven into the stockyards, and then only with a big gang of men and a few motor cars to head them at the various turns. Mr. H. B. McLean had a close call when one hit him and doubtless would have hurt him seriously if he hadn't got out of the way. Mr. W. Aldern, too, had a narrow escape. Three of the animals are still missing.

The picnic at Currie's bush was well attended. A good program and lunch made for the success of the afternoon.

The fuel situation is much easier here this year as Karstedt Bros. have unloaded a car of stove coal and expect a car of chestnut any day. The price is \$16.50 a ton.

Mrs. Robert Vollett of Cobalt was down for the happy event and is remaining with her brother for a month.

Very sad news came to the members of the Darcy family last week announcing the sudden death of her brother James, who was struck on the head by a falling derrick near his home at Glenorran, Sask. "Jim" was but 50 years of age, a strong, active fellow, born at the old Darcy home on the 9th Con. At the age of 22 he was happily wedded to Miss Annie O'Neil and the union was blessed with a family of five, namely—Rita (Mrs. McLaughlin), of Winnipeg; Edward, Frank, Leonard, and Marguerite, at home. For some years after being wedded they resided in the burg here and on a farm near Townsend's Lake, but later moved West and have been quite successful. It is a heartbreak to the beloved partner and the members of the family, to whom the sympathy of many neighbors and friends of bygone days is extended.

J. E. Peters, M.A. Among the reciters were Elsie and Isobel Mays, Gracie Paylor, Mr. D. A. McIntosh and Editor Irwin of The Chronicle, whose gift at recital was a surprise and delight to many. Rev. J. W. Greenwood of Michigan made a real ideal address for such an occasion, Major McNab a rousing one.

and Rev. Mr. Aird dwell with the weightier matters of life. The songs were good and the music given by the Bell family met with the warmest applause. Their clear enunciation, natural manner and gifts of vocal harmony added much to their success. Mrs. Charles Danard's was a good number, the Lennox twins did splendidly, the Mays twins of Guelph are gifted youngsters and well trained; Mr. Joe Davidson upheld his former reputation. Messrs. John Teeter and Jim Peart supplied good violin numbers and Mr. Apt. Bradley on the pipes caused the warm blood to course faster. "God Save the King" closed a most happy event. Early in the evening an exciting and close game of baseball was played between the home team and one from Edge Hill, but the home crowd had the best of it.

SPECIAL AUGUST TERMS ON TORONTO SILOS

Startling Big Offer Makes it Easy for Any Farmer to Own a Silo

I know that many farmers need silos, but can't buy them right away. But they need them now. To make it easy for every farmer in my community to own a silo and make more money, I am offering special terms for the month of August only. I can do this because a "Toronto" Silo pays for itself. Before you have to pay me, the silo will have paid you. See me to-day for particulars. Don't put it off. This offer is for August only.

TURN YOUR CORN INTO MORE BEEF AND MILK

Experiment and practice have proven over and over again that the biggest returns from a cornfield come from feeding the corn as good ensilage to beef and dairy cattle.

Thousands of farmers have proved that good ensilage is made in a "Toronto" Silo. "Toronto" Silos are made of wood—the best non-conductor of heat and cold. Selected spruce staves, double-tongued and grooved and impregnated with creosote. Silage juices do not affect wood. Ensilage does not freeze to the walls of a wooden silo. You gain 15% greater capacity through our Special Hip Roof construction.

Get my booklet on "Toronto" Silos and Ensilage Cutters. Shows how the latter ensures better silage and saves money.
