BACK ACHED

Mrs. McMahon Tells How She

Found Relief by Taking Lydia E.

Pinkham's Vegetable Compound

Chatham, Ont .- "I took Lydia E.

Pinkham's Vegetable Compound for

run-down condition after the birth of

my baby boy. I had terrible pains and

backache, and was tired and weak, not

fit to do my work and care for my three

little children. One day I received your little book and read it, and gave up taking the medicine I had and began taking

the Vegetable Compound. I feel much

better now and am not ashamed to tell

what it has done for me. I recommend

it to any woman I think feels as I do."

-Mrs. J. R. McMahon, 153 Harvey

Lydia E. Pinkham's Vegetable Com-

pound, made from roots and herbs, has

for nearly fifty years been restoring sick, ailing women to health and strength. It

relieves the troubles which cause such

symptoms as backache, painful periods,

irregularities, tired, worn-out feelings

and nervousness. This is shown again and

again by such letters as Mrs. McMahon

writes, as well as by one woman telling

another. These women know, and are

willing to tell others, what it did for

them; therefore, it is surely worth

HOW IS YOUR LABEL?

Though we have endeavored explain it, there are still some who Black, \$8.00; T. J. Brodie, \$11.20 .are unable to interpret the meaning Carried. of the label on The Chronicle. Let us try to make it clear. "Dec. 24" following the name indicates that the paper is paid up to the end of be paid \$25.00 for making out comthe year 1924. "Aug. 24" shows the mission report to the Provincial subscriber paid up to the end of Au- Government.—Carried. gust, 1924. According to our method of marking, the paper expires at the 15 at 10 a.m. end of the month named in the year indicated. "Dec. 09" means that the subscription is paid to the end of the year 1909. The labels are usually changed about the beginning of each month and the changed label is to be taken as a receipt for moneys re-10 25 23 tf ceived. If money be sent at any time during the month and the label is not changed shortly after the beginning of the next month, it would be well for the subscriber to make inquiry. About the end of the year stables; 7-roomed house, brick, with when renewals come in more rapidly than at any other season it means a lot of work to acknowledge each remittance separately. We hope we have made the matter sufficiently plain. Look at your label now and see what it says.

GLENELG COUNCIL

Council met at the Township Hall on Saturday, November 10, for regular business. Members were all present, the Reeve in the chair. Minturning out the finest work on short utes of last meeting read and contf firmed. The following communications were received and read:

From Muskoka Hospital for Can-Messrs. Wm. Moran and W. A. Beaton, claims for sheep destroyed and worried by dogs and from Messrs. C. McArthur and M. McInnis as sheep valautors, fixing an amount of damages re loss of said sheep; from

TORONTO STAR WEEKLY REVIEWS "DICK TURPIN"

Big English Super-Picture Coming to Durham To-morrow and Saturday Nights Appealed to Toronto Fans When Shown There.

Reviewing "Dick Turpin's Ride to York," which will be shown here to-morrow and Saturday nights, The Toronto Star says editorially :

"We have with us this week anrequested to give three days' notice. other British picture, 'Dick Turpin's Ride to York,' a splendjd production which will meet with the approval of old and young elements—adventure, and enough mystery to keep the interest well sustained. At once noon. Highest prices paid. 11 23 tf let it be understood that this isn't an imitation of 'Douglas Fairbanks in Robin Hood.' Although the central figure is a highwayman, the tale is an entirely different one, and is no strain on the credulity. Dick Turpin isnt' the jumping-jack type of hero who does impossible things He's a rogue, of course, but he's solid, reasoning sort of fellow, and while he performs remarkable feats and is bold and fearless as well as lawless, he's very human and likeable. The high spot of the picture is his famous ride across country Marshall, R.R. 1, Varney. 1182pd with the Bow Street Runners in hot pursuit, and the horse he rides shares his glory, a noble beast that's alive in every fibre.

"Matheson Lang plays Turpin and is supported by a competent cast The photography is a feast for the eye and ought to further the mounting prestige of English films, which have been 'getting better and better.' The England of two hundred years ago, when this doughty standside in a state of mingled terror and delight, as reproduced here, is an act to marvel at. The picture rated as England's best, but one can only judge from what has been seen so far of old country photoplays. As BE SURE AND SEE "THE HERRESS a romantic drama of the better sort it leaves nothing to be desired in the mind of the unprejudiced observer."

> Messrs. Thomas Greenwood and Ed Hartford, claims for wire fence benus; the Reeve and Commissioners of the four Wards presented their reports of special work performed.

J. J. Black-Aljoe-That bonus for wire fence erected be paid, as 1pd follows: Ed. Hartford, 40 rods, \$10 Thomas Greenwood, 60 rods, \$15.00. --Carried.

Aljoe-J. J. Black-That reports of Commissioners for the several wards be adopted and payment made as follows: Ward 1, A. A. Aljoe, \$56.00: Mal. Black, \$15.75; Ward 4, T. J Brodie, \$30.50; A. MacCuaig, Reeve, Town Lines and Bridges, \$54.50 .-

Aljoe-J. J. Black-That claims for sheep killed and worried by dogs be \$1.50 for 1 inspection of said sheep. -Carried.

Aljoe-Brodie-That the Clerk bo paid \$50.00 on salary.—Carried.

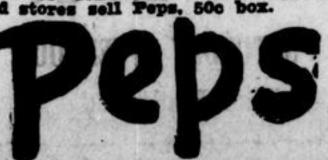

Brodie—M. Black—That the Reeve

Council adjourned to December

→H. H. McDonald, Clerk.

Have you heard about Peps? Peps is a scientific preparation put up in pastille form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles. Peps contain certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs. While no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and healing commences.

across it the name and date of this paper, and mail it (with lc. stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps, 50c box.

TILE DRAINING

It Will Pay to Underdrain the Average Field.

Approximate Cost of Tiling - Loans and lime-washed; leaky roofs, brokand Hay-Within Reach of All.

(Contributed by Ontario Department of Agriculture, Toronto.)

such high-priced crops as onions, roosting in the trees. celery, tomatoes, tobacco or sugarbeets it might pay to pretty thor- to keep the birds active and give oughly drain a whole area. But the them all the green feed you can get idea of giving as careful treatment them to eat. If a variety of green to land that year after year gives feed is used and it is given in varicrops-grain, corn, potatoes or hayespecially at present prices for these kind is used. Sprouted oats, chopcommodities, looks altogether c t of ped clover, rape, cabbage or anyit was all very well when wheat was bringing two to three dollars a bushel given them. It may be used both to think of drainage, but with dollar separately and chopped up wheat scarcely meeting the cost of production, it looks foolhardy to throw good money after bad. Approximate Cost of Tiling.

The important cash items to be met in tile drainage are the purchase price of the tile; the trench digging and the laying. A fair estimate of these costs in Western Ontario at the present time gives \$30 per thousand for three or four-inch tile and thirtyfive cents per rod for digging and laying. At these rates an acre of land tiled at regular distances between lines would cost:--

\$111.41 per acre at 20 feet

At the interest rates and according to the terms under which loans are made to tarmers under the Tile Drainage Act, the total cost of such drainage, both principle and interest, could be refunded to the investor in twenty equal yearly payments of:-

\$8.20 per acre tiled at 20 feet

This means that in order to meet the cost of draining fields at these distances these various amounts would need to be found through increased crops grown on the land so drained.

Grain.

Based on average production per acre and average prices received by farmers in this Province in 1921 and 1922, it would take two and onehalf bushels of fall wheat to meet the cost of tiling at sixty feet apart; only one and one-half bushels to tile it at one hundred feet apart; and even at twenty feet apart it would take an increase of only seven and one-half bushels.

The limits to which drainage might be carried profitably in growing wheat can be seen when you read results such as the following:-

"Eight acres of drained land gave 45 Moran, 1 sheep killed, \$9.00; and that bushess of fail wheat per acre, eight acres undrained land gave 25 bushels Malcolm McInnis be paid \$3.00 for per acre." This result was on adjoining land and in the same year.

"Barley on drained land yielded 50 bushels per acre and nearly a ton of straw, while that on undrained by bushess and half a ton of straw. "My oats on drained land yielded 50 bushels per acre, and those on the un-

Yields of Alfalfa and Hay increased.

The question or economicany underdraining hay nelds is met by the fact that an increase of 318 pounds of alfalfa will meet the cost of draining at 60 feet, while a mere 190 pounds will meet the cost of drains at 100 feet, and 950-a not unusual increase over the average yield-will take care of even aramage at 20 feet, With ordinary mixed clover and hay half a ton increase will meet the cost of a 20-foot system, while only increases of 334 and 200 pounds will take care of the 60 foot and low foot lines. When it is remembered that drainage permits the bringing into the regular rotation of many permanent hay and pasture neids, giving opportunity for the successful growing of our heavier yielding cuitivated grasses, the possibility of securing the required increased amounts to meet the drainage costs are not such as to cause any worry. Loans Made Under the Tile Drainage

Tile drainage is within the reach of all through the loans made possible by the Tile Drainage Act. It is one of the safest and best paying investments the farmer can make. It is common for a system of tile drains to pay for itself in three or four years, and often in much less time than that. In other words, it is an investment that will pay 20% to 25% on every dollar invested, over and over, year after year, turning a money losing or no profit crop into one showing a balance on the right side of the ledger .- V. C. Lowell, District Supervisor, Chatham.

Give Pigs an Early Start. A pig once stunted is not very apt

to recover from it sufficiently to make the gains required for profit. Keep the youngsters growing right along. With the hog market conditions as they are at present it requires very good management to keep the hog raising venture showing a balance on the right side of the ledger. That farmer is wise who provides plenty of good pasture for his pigs and feeds a growing ration, of corn, middlings, tankage and min-

PREPARING STOCK FOR WINTER PRODUCTION

(Experimental Farms Note.)

It is high time to think of preparations for the winter. The houses should be thoroughly disinfected Provided for by Tile Drainage en glass, torn cottons, and cracks in Act-How Underdraining Increas- the walls mended and everything ed the Yields of Grain, Alfalfa put into first-class shape before the pullets are brought in from the

This should be done sufficiently Just how far drainage can be car- early so that the pullets will not ried and made to pay has always been receive a check. When they are an open question with farmers. brought in, conditions should be Nearly every farmer has seen a made as much as possible what they swamp area, a low, flat, "sour" field were on the range, that is, the housor odd corner of his own or his es should be kept open as possible neighbor's farm tiled and made into so that the pullets will not suffer valuable productive land, and he is from the confinement, as no doubt Quite ready to agree that possibly for many of them have been used to

Feed scratch grain sparingly so a fairly average yields of ordinary ous forms the birds can be induced to eat more of it than if only one reason. Besides, it has been argued, thing in the way of green feed that your trial. will prompt the birds should be mixed in a moist mash.

Unless care is taken when the birds are put in, to feed sparingly with grain and heavinly with green feed, they are liable to become sluggish; if any tendency to this is noticed Epsom salts should be freely used, about a pound to 100 birds.

The following methods of feeding have given good results : A hopper of dry mash composed of equal parts bran, middlings, cornmeal and eat chop and half part tankage is kept before the birds at all times, as is Sleep on, beloved sleep, and take also water, grit, oyster shell and charcoal. When possible, milk is also supplied. When milk is not available additional meat food must be supplied. In the morning the birds are given a very light feed of scratch grain scattered in the litter, green feed is also supplied, at noon a moist mash is given in which is mixed a goodly proportion of chopped greens. At night a full feed of scratch grain is fed.

Durham High School

The School is thoroughly equipped Underdraining Improves Fields of to take up the following courses:

(1) Junior Matriculation. (2) Entrance to Normal School. Each member of the Staff is a University Graduate and experienced l'eacher.

Intending pupils should prepare to enter at beginning of term. Information as to Courses may be

obtained from the Principal. The School has a creditable record in the past which it hopes to maintain in the future.

J. A. M. ROBB, B. A., Principal. C. L. GRANT, Chairman.

Durham is an attractive and healthy town and good accommodation can be obtained at reasonable rates.
