SOWING OATS IN THE FALL.

It is strange that farmers do not more generally sow oats in the fall instead of waiting until spring and "mudding them in," as the saying goes; for nine times out of ten, when this plan is followed, at harvest time they are too short to cut except with a mowing machine. My fall oats, which were sown the same time as the wheat, were waist high and almost ripe before the spring oats com-Toronto, Oct., 31.-Newspaper des- menced to head. I have sown a field
