

IN ALGOMA.

has had a \$500,000 being unobtainable will have to live in

We are indebted to Mr. John Ritchie Principal of Port Arthur Public Schools for a copy of the Weekly Herald published in that town. It contains the Annual report of the Managers of the "Illustration Farm," in which may be found surprising evidence of the agricultural possibilities of the region.

dition was dropped day. West Huron nominated Mr. Robt. for the Commons, or the Legislature, will again contest

Also two able editorials on the resources of Western Ontario, with an article on the great possibilities of traffic likely to be encouraged by the opening of the Thunder Bay, Nipissing and Algoma Railway. No mistake the country has a future before it. Here is an extract from the Managers' Report: "For successful farming here we must have fall ploughing, good drainage and early sowing. With these there is no doubts as to the results. This district is specially suited for wheat, oats, barley, peas, hay and root crops, and when we get more of our black bottom lands cleared up we will be able to grow flax successfully."

by Aberdeen had all on as the new Gov. had been installed; he had been dramatically and are now on the of brilliant fare: place to brilliant Vice Royalties, their harness at the with as much elat happy will it be for

One Alexander McKenzie of Oliver grew 45 bushels of spring wheat to the acre, on his last year's potato ground. One Koly Martyn of Oliver Township took the first prize in our \$100 potato competition, by growing over 50 bushels on the sixteenth of an acre. The Algoma potatoes are simply matchless for quality. We have no potato bug and the average yield of the district is about 180 bushels.

We have rhubarb stocks 4 feet long and 8 inches round with a leaf wider than an ordinary door, but not as long. All ordinary vegetables come to perfection but corn, sugar cane, peanuts and the like are not a success. We grow them but our summer nights are too cool and delightful to furnish sufficient heat for these and other similar products. Apples and crab apples are now shown every year at our fairs, but we are having the same trouble with these trees that all new settlers in wooded countries have.

Master in Or- defendants costs for the to be nearly d by the de- aving joined ain, a great action and judged liable amount at neighborhood the scattering a terable por-

Rev. William Wye Smith has translated the New Testament into broad or lowland Scotch, and St. Matthew's gospel has been published by Imrie, Graham & Co as a specimen of the work. The completed work will cost \$2. It is a decidedly curious literary performance. The parable of the sower in the thirteenth chapter of Matthew is thus given:—

The Scriptures have been translated into more tongues than Babel ever heard, but it still remained to translate it into the tongue of Burns and Scott.—Globe.

Consumption

Will SCOTT'S EMULSION cure consumption? Yes and no. Will it cure every case? No. What cases will it cure then? Those in their earlier stages, especially in young people. We make no exaggerated claims, but we have positive evidence that the early use of

Scott's Emulsion

of Cod-liver oil with Hypophosphites of Lime and Soda in these cases results in a positive cure to a large number. In advanced cases, however, where a cure is impossible, this well-known remedy should be relied upon to prolong life surprisingly.

chest, always ready, always efficient, always satisfactory; prevent a cold or fever, cure all liver ills, biliousness, constipation, etc. 25c. The only Pills to take with Hood's Sarsaparilla

GOLDEN WEDDING.

1848-1898.

Tuesday Nov. 8th brought with it a very pleasant scene, the celebration of the Golden Wedding of Mr. and Mrs. Archie Little Sr. of Varney. Mr and Mrs. Little are now 73 and 72 years of age respectively, were born in Dumfries, Scotland, coming to this country in 1841. In 1848 they were married in Galt and came to this neighborhood in 1850. Their family consists of three sons and five daughters.

An excellent dinner was prepared by Mr. and Mrs. Adam Little, and served in the Orange Hall, to which about sixty guests sat down. Among the guests were some from Hamilton, Kincardine, Mt. Forest, Walkerton, Thornbury and Durham.

After having partaken of all the turkey allowable, speeches were made by Dr. Jameson M. P. P., Rev. Kitching and others after which the guests retired to the house of Mr. Adam Little, after which games and other amusements were provided, among which were found Messrs. Jones and Galbraith as the musical part.

We next visit the presents and on our way are shown an excellent proof of a photo of the old couple taken by Mr. Browne, Durham, which delighted all.

The presents are as follows:—

A lady's and a gentleman's easy chair by the sons and daughters. Lady's shoes and gent's lined kid gloves, Mr. and Mrs. Pettigrew; Silk Handkerchief kid gloves and jardiner by Mr. Mrs. and Miss Buchan, Mt. Forest; Lady's and gentleman's cups having engraven scenery of Kincardine harbour. Mrs. Miller; Hanging lamp and shade, Mrs. Robt. Miller; Lady's Dress Cap, Mrs. McEwen; Sugar bowl encased in silver frame, Mrs. Dr. Jameson; Nicely framed painting, (Queen of the garden) Thos. Caldwell, Orchardville; Water service, Mrs. John Cornish; Gentleman's gloves and counterpane, Mr. and Mrs. Jas. Alan, Thornbury; Lady's bonnet, Mrs. Clark, Otterville; Fruit Set, Mr. and Mrs. Jas. Adams; Gentleman's slippers, Archie Little; Gold brooch and gentleman's cuff buttons, Mrs. Stewart; Gentleman's pipe and case and lady's brooch, Mr. and Mrs. Weir, Walkerton; Gentleman's overcoat, Mrs. T. and Mrs. S. McComb and Arch Little; Gentleman's and lady's set of reading glasses encased in gold rims, Jas. Allan, Durham.

The cake for the occasion, a four story one, was presented by Mrs. Adam Little and all present can testify to its excellence.

Lunch was again served about 10:30 after which about 5 a.m., the friends took their departure, all wishing that there was one still in the future. Com.

[The Review joins heartily in the good wishes and congratulations so appropriate to the celebration of so rare an event and hopes the evening of their lives may be spent as a glorious sunset. Ed.]

THE SONS OF ENGLAND.

[The following spirited song was published some years ago by John Imrie, Toronto, and in the present strained relations of the powers is applicable. Verse 3 is truer now than it was 6 years ago. Ed.]

The sons of England are her boast, They love her as of yore; Then pledge to her a loyal toast, As oft we've done before!

CHORUS.

Her sons are free! by land or sea They know not craven fear! They dare to fight for God and right, For home and kindred dear.

Should foreign powers invade her strand, And taunt her with their boasts; Her free-born sons from many a land Would rally round her coasts.

America would send her share Across Atlantic's wave; In Freedom's cause their swords declare Their mother-land to save!

From Canada would gladly go,— Rose, Thistle, Shamrock green; They'd help to fight a common foe, And shield their Royal Queen!

From far across old Neptune's line, Behold! a loyal band; Australia, India would combine, To lend a helping hand!

From distant islands of the sea Would rise a gallant host, To prove that England SHALL be free, And guarded well her coast.

READY-MADE CLOTHING.

Do You Require

A SUIT, OVERCOAT, or extra pair of TROUSERS? If so, and want an absolutely Perfect Garment, the proper cut and style, with Linings equal to any tailor-made garment, you can rely upon getting the best quality for the Least Money at the busy store of

OUR OTTAWA LI

The formal opening of servative head quarters Thursday night was made of a characteristic address Geo. E. Foster. There new in his remarks, which closely upon the lines of a since the House adjourned the Liberal party a Keep ante election prom this connection omittin tion to the repeal of the radical re-modelling service superannuation taking of the plebiscite, the ductions, the rushing of the St. Lawrence Canal, ization of several depart are now run at a profit ins loss, and a dozen other undertakings which have fully carried out during the years that the Government in power. He declared the things upon which the ne would be decided (decided a manner, favorable to the were "the honest square deal" Conservatives and the dis principle shown by Mr. L since its advent to power."

Two Policies Compared above; as to "the honest square deal" he was thinking of the Block and Curran Bridge, Section B and Caron sea Sheik's Island Dam, the 40 mel and Little Rapids Lock score of other boodling seem were unearth and admitted absolutely, not by irrespons paper investigation but by testimony of unwilling witness before Conservative committee. Mr. Foster evin agines that Canadian elo mightly short memories.

In spite of unusual and unexpenditures the presentation permanent public works of it value in the development country as for example the of the St. Lawrence Canal entirely new item of Yukon traction; in spite of these, a two years his successor is a surplus of over a million dollars as against the annual deficits which in four years over six millions. The Parliament seems to have chosen the better, at least, as far as results show, and the Opposition yet to appear who can point other Department where their statement is not equally true.

The Way the West is Moving While a great deal has been and written respecting the Immigration Department it is full if citizens generally appreciate tremendous progress that made this year in the work of up and settling the North. Never has there been so much taken up and returns of bond send entries and railway. It demonstrate this to a remarkable pace. During the twelve months ending Sept. 30th, for instance, 19 send entries granted, totaling against 2,215 for the previous month, or an increase of 10 per cent, though the figure year ending September 30th were 30 per cent. In advance previous year. The system C. P. R. land sales for the 4 months of this year are just a tive of the rapid strides with the country is opening up. The Company disposed of 48,2 of its land during the first nine of that year, the price obtained \$187,406 and in the first three of 1897, 114,496 acres were sold total of \$983,281, but this year Sept. 30th, no less an area 1,335 acres has been disposed of total of \$930,974.

Nothing The Matter With T The increase here is even than in the homestead entries above. It is all very well as of election pyrotechnics to against Galicians, Donkhorbonnites and other classes of immigrants while it can be shown new-comers, whatever their nationality, are thrifty, intelligent, abiding, some prepared to earn own homesteads by compliance none too easy regulation others to pay for their land cash to the tune of nearly one dollars, the country will be set let the practical evidences suitability as fellow citizens of the unsubstantial vaporings of its sible stampers.
