There is a lull just now in the torrent of charges against the Administration and its officials at the gold fields, whether because the alarmists have exhausted themselves or have at length realized how little effect their fulminations were having upon public opinion, it is unnecessary to discuss. It is however interesting to notice Captain Healey's views after fourteen years experience in the Yukon, the last half of which has been spent at Market to-day. Aside from that trade Dyea, Skagway, and Dawson. He ruled slow at Tuesday's prices. That was done frequently and was the cause of the

The Sole Cause of Trouble. A similar explanation applied to the complaints against the Post Office. "Ridiculous charges," Captain Healy said had been made, and he further characterized them as 'simply rot,' He never heard of anything like bribery among the Mounted Police. 'Slow, over-taxed, and over-worked they might have been," 'I never saw men in my life do so much work for so little money" he added. As the Captain explained in general critisism of the whole situation," the sudden accession of population from a couple of thousand to twenty or thirty thousand in a territory where rapid communication with head quarters was imposs.ble would demoralize any organization, it was the sheer physical inability to keep up with the tremendous increase DRUGGISTS & BOOKSELLERS, of work that caused all the compla nts against the officials, The staffs of t e various departments have been suffi iently augumented since, and now th t the cause for complaint has been re-
