IT IS ONE OF THE GREATEST BLESS-INGS OF THE TIMES.

How the Service Has Been Developed Into Plan as worked in the Large Cities-What the Different Calls Means.

In many ways the latter end of th nineteenth century is in advance of all preceding times. In none, however, is one district of the city, the cry goes the glands of the neck they come swollen, causing disfigurement up that it is the same old case. But and discomfort. Affecting the eyes, it versally assented to as in the matter the call must be answered and that causes blindness. Though most comof such charitable institutions as hospitals and their appliances for the successor of the sick and injured. An important part of the outfit of every portant part of the outfit of every large hospital in these days is the am- is still another sort of call. It is the ed. This great medicine has made wrecking of once happy homes, through bulance. For accidents have grown to contagious call. When five bells are thousands of people grateful by its the insanity of mothers, whose reason be so numerous, what with the hurry given, the contagious disease ambu-

ties have therefore to be constantly on the alert, just as is the case with the fire and police departments of a municipality. The telephone is the means by which the call is sent into the hospital, and there is never a moment of the day and night that the receiver in the hospital office is not within hearing

distance of an attendant. There are several sorts of calls for an ambulance. One of these, and per- who have been cured through using haps the most frequent, is the fast, or Dr. Williams' Pink Pills, and as I have emergency call. When word comes experienced much benefit from the use into the office that the ambulance is to let others know they can be relieved wanted at once on account of an ac- from a very painful malady.
