same range as the Cariboo claims. The Last Chance being only separated from the Cariboo claims by the Wiarton Fraction. The Last Chance adjoins the Waterloo on one side, and on the other side the Fontency.

There is no better investment in Camp McKinney to-day than these Claims offer to those who take stock in this company.

Options were secured on these claims from Mr. Stephen Mangott before the full merits of the Camp were known to the public, at a price which would not be accepted to-day. Shareholders in the Company get the full benefit of the options, that were secured at \$20,000 in cash and \$20,000 in stock for the two claims.

The first issue of stock, consisting of 200,000 shares (par value \$50,000), is offered for sale at FIFTEEN CENTS PER SHARE, without deduction for commissions, so as to realize \$30,000. The Company can, from the sale of this stock, make all payments on both properties, and leave nearly \$10,000 in the Treasury to apply exclusively to development work.

After the sale of this issue of stock 280,000 shares (par value \$70,000), will remain in the Treasury for further development and accurrent of the mine. The low capitalization of the Company, coupled with the proved character of the Camp and the Loation of these claims, make this the best prospective mining investment in British Columbia that is ofered to the public to-day.
