PRICEVILLE.

We are beginning to get thawed out this week, as for the last two or three days we are having it mild and thawing. A number of all classes are suffering from the effects of the last two or three weeks in the shape of colds, influenza or gripper or whatever name it may assume.

Among the number that are sick we find first Mr. Arch. Butler, our popular grocer, who is laid up for the last few days. We hope to see him all right again. Again we go down street and come to the home of Mr. Hector McKinnon and we find there his good partner, Mrs. McKinnon, laid up with the supposed disease, the gripper. We hope to see the good lady up before long and enjoying her usual health. We take a walk again across to the North Line to see some of our friends there and here find an old couple, Mr. and Mrs. Hugh McDonald (little Hugh) both laid up and left to the mercy of their good neighbors to attend to them. Mrs. McDonald cannot pass many days as she is very low on account of old age and feebleness.

The disease seems to take more effect on her. Mr. McDonald is somewhat better and may get along all right. Mr. and Mrs. Colin McLean moved to John McLachlan's farm, D. Road, Glenelg, whose place Mr. McLean's is rented for a number of years. We gladly welcome Mr. and Mrs. McLean to our locality and wish them much prosperity in their future domestic life.

Mr. McLaughlan and family moved to Owen Sound last week. Miss Weir visited at her uncle's, Postmaster Neil McKinnon, for a day or two last week and attended church on Sunday last in this place. Mr. Thos. Fisher is suffering with inflammation of the eyes and is almost totally blind, but we hope to see him able to be around again soon.

A large quantity of ice has been taken of the mill pond during the last week.

We almost feel inclined to throw out an insinuation to the members and adherents of St. Columba Presbyterian church in this village. In viewing all the churches in the district, and in the Dominion we may add (cities not included) we find comfortable accommodations in the shape of sheds, for that noble animal, the horse, who so faithfully fulfills his duty, excepting St. Columba Presbyterian church, Pricerville. We have a fine church to accommodate ourselves and a good manse for our worthy pastor and family. Duty done very good so far, but on the other hand we find the poor dumb animal who cannot speak on his own behalf, neglected and has often to shelter himself tied to Duncan McAu's fence after the accommodation of our Hotel keeps so freely grant us has been full to their utmost capacity.

We often feel like an act of beggary intruding on good natured hotel keepers on Sunday, while during the rest of the week (as the case may be) we never cast a mite by way of supporting their business. We would suggest, as we are to have a large soiree this week, that a part of the proceeds be laid by as nucleus for a commencement of preparing for the erection of a large and commodious shed for our animals in the near future. By so doing it might be truly said concerning us, "Blessed are the merciful, for they shall obtain mercy.

The Rev. Humphreys and Matheon exchanged pulpits Sunday evening before last. We are pleased to hear that Mrs. Humphreys is getting better after being unwell for some time. We hear that Mr. Humphreys is also unwell.

Miss Jennet and Kate McDonald were the guests of Mr. and Mrs. David Hinks one evening lately.

We are sorry to hear that Mrs. David McIntyre is not improving so fast as desirable as she is suffering yet from erysipelas in the face and eyes.

Mr. C. C. James is home, after attending the A. O. W. convention in Toronto on the 15th inst. We expect a good report of proceedings from Mr. James at our next meeting.

Brownsville.

Mr. M. McCannel has bought a horse from one of your townsmen. Dan never leaves without doing business with some one. He sold Mr. Clark a frost and wood mower, they take the lead.

Dan McKeechnie, the greatest wood cutter in the world except Harry, as B. V. puts it, and just as well for him to say so, Dan is hired at McCannel's for half a month.

Miss Haw of Toronto is around here once more. She says she enjoys the fresh air and the merry sleigh drives of the country. She prefers country life, so a lad says.

Mrs. Haw of this place, we are pleased to say, visited her brother Mr. Alex. McLean of New England; her cousin Hugh is also getting better, and Sandy is mending. Dr. Sneath is in attendance.

Mr. Peter and John Calvert drove through here a week ago Sunday, one of them called on Mr. Neil McFadden while the other took Celia home.

Jack Nelson and the clerk went through here not very long ago, Art got out at Sam's gate and said three was too many in so small a rig. Jack went on but he came back again.

Ronald don't come this way now, he went west the last we heard.

Mrs. D. McFarlane is on a business trip to her brother John, his wife presented him with a young son.

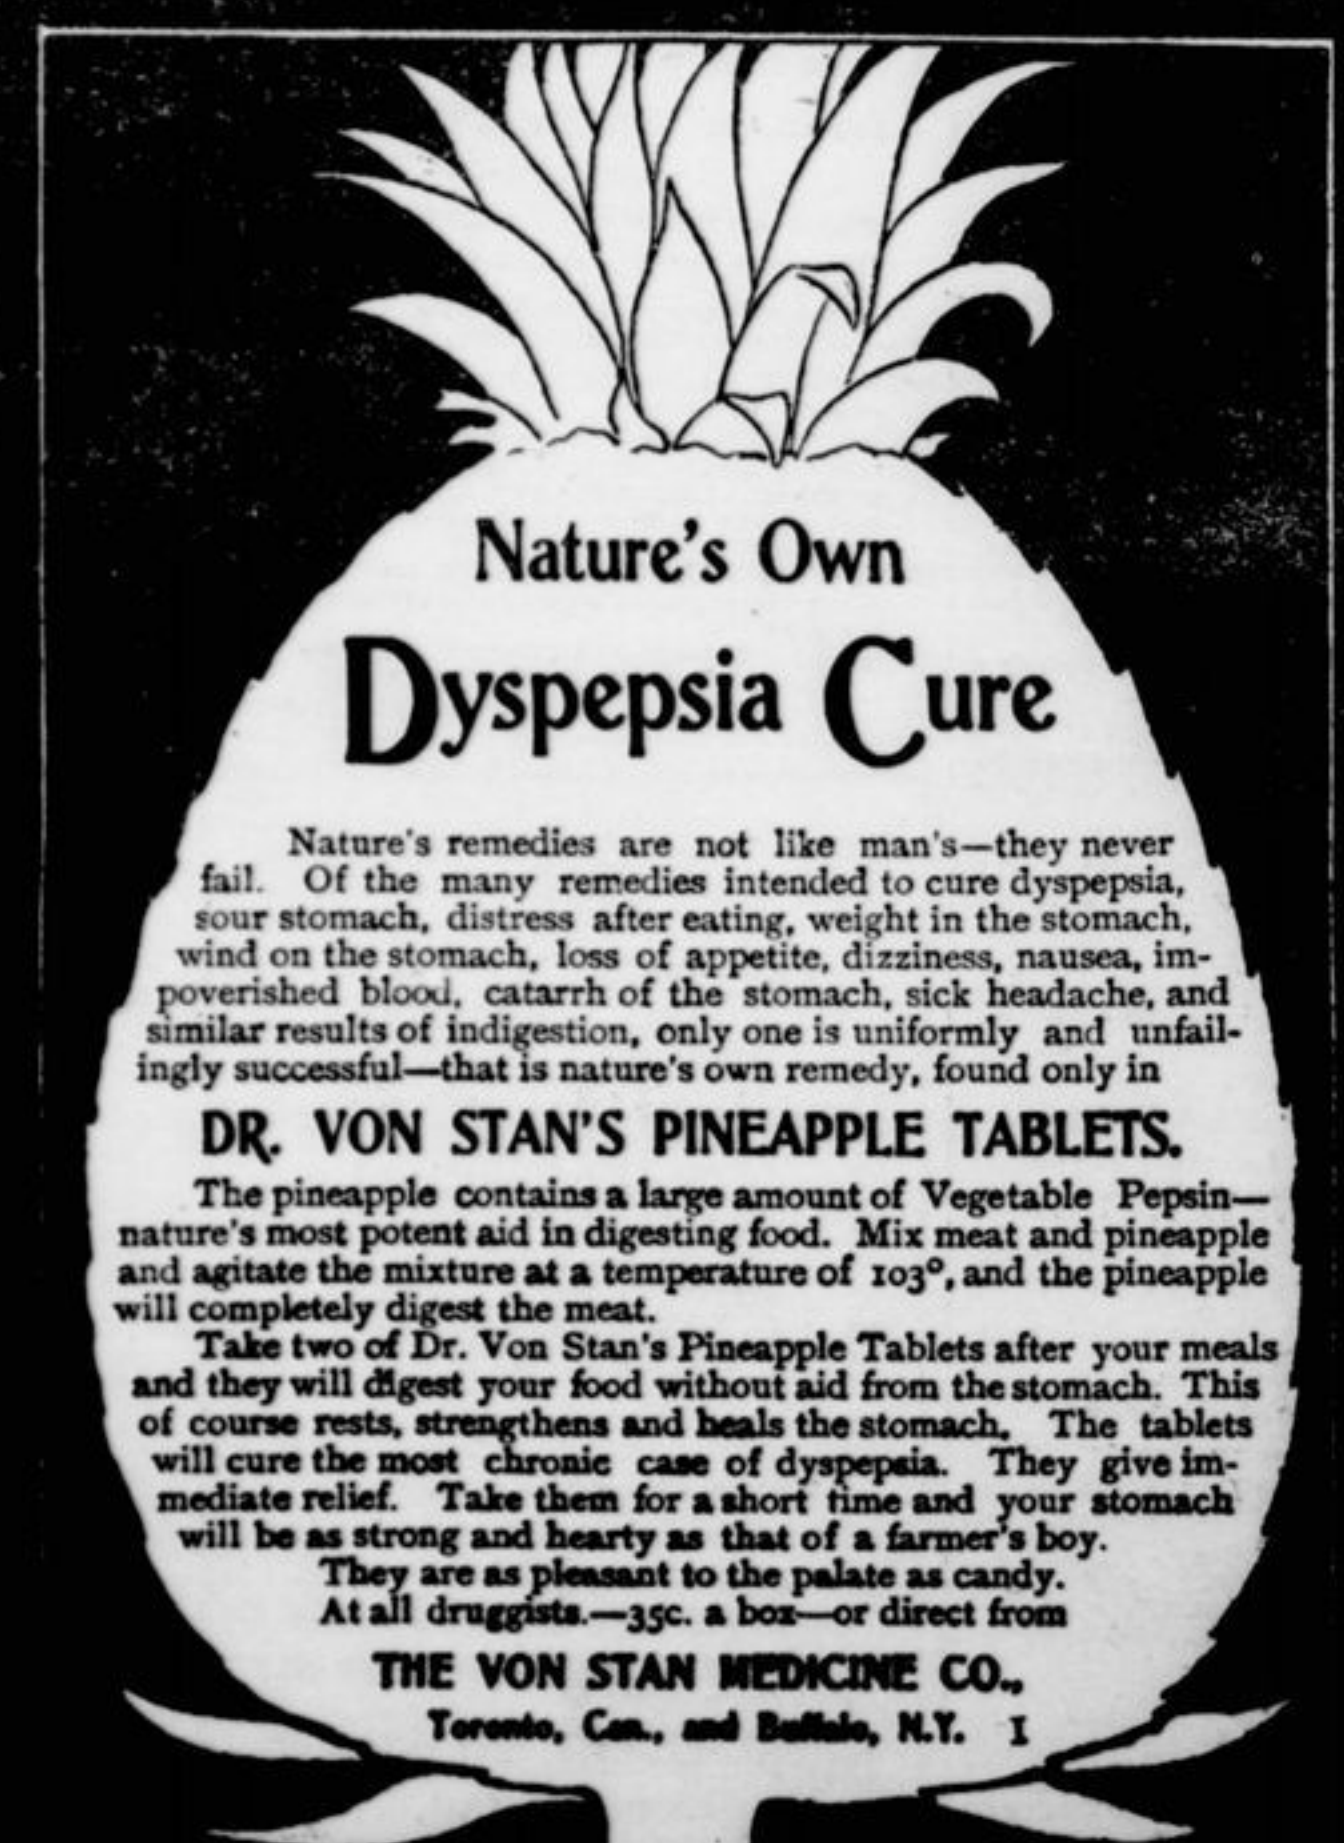

Miss S. McLean is at present in Boothville. Some lad will not have so far to go, what think you Donald.

This way ye cattle buyers as Mr. McDougall has nearly a car load ready for the knife.

Mrs. McDougall and her cousin visited Mrs. Eccles and other old neighbors.

Mr. Sackett was out to Pricerville last week with fish and got his weigh beam taken from him.

Nature's Own
Dyspepsia Cure
Nature's remedies are not like man's—they never fail. Of the many remedies intended to cure dyspepsia, sour stomach, distress after eating, weight in the stomach, wind on the stomach, loss of appetite, dizziness, nausea, impoverished blood, catarrh of the stomach, sick headache, and similar results of indigestion, only one is uniformly and unfailingly successful—that is nature's own remedy, found only in
DR. VON STAN'S PINEAPPLE TABLETS.
The pineapple contains a large amount of Vegetable Pepsin—nature's most potent aid in digesting food. Mix meat and pineapple and agitate the mixture at a temperature of 103°, and the pineapple will completely digest the meat.
Take two of Dr. Von Stan's Pineapple Tablets after your meals and they will digest your food without aid from the stomach. This of course rests, strengthens and heals the stomach. The tablets will cure the most chronic case of dyspepsia. They give immediate relief. Take them for a short time and your stomach will be as strong and hearty as that of a farmer's boy.
They are as pleasant to the palate as candy.
