connection with Toronto. Mr. Ander son says:-"I think it would be wise for the Government to raise the price of land here from fifty cents to one THE COUNTRY IS RICH IN FARM dollar per acre, using the added fifty cents to give increased aid to the first eighty miles of the line."

PLENTY OF FARM LAND. In concluding, Mr. Anderson says that in Ontario there are at least 2,500,000 acres of good land at present available for settlement-enough to absorb our surplus agricultural population for many years. The land is cheap; it is easy of access; the climate is healthy; money can be earned at tained in comfort during the first and second years until the farm produces and all those who are putting their labour on the market, there is a better chance for homes in the unlocated land of Ontario than staying in the overcrowded industrial centres, where the cry for work is becoming yearly more acute, for even if such have but
