OUR OTTAWA LETTER.

Practical Tariff Reform.

It is frequently charged by the Opposition that the Government has failed to implement their anti election promises of tariff reform by any appreciable reductions, and in support of this contention the criticism of ultra-free traders within the Liberal ranks are approvingly quoted. One of the most pronounced low tariff men in the House is Mr. K. L. Richardson of the Winnipeg Tribune, but Mr. Richardson has, on this question, a practical knowledge of affairs and appreciates the difficulties with which the Government has had to contend. Speaking to his constituents at Cartwright, Man., the other day, Mr. Richardson is reported by the Pilot Mound Sentinel to have declared that, "With such a high protective tariff as had existed for the past twenty years it must be remembered that it was a difficult matter to make a revolution without paralyzing certain interests, but more reductions should be made, and his influence would be used to that end." There can be little doubt that this is a sentiment very largely prevailing, namely that much has yet to be done before the tariff is down to where it ought to be, but the present Government is admittedly so thoroughly in sympathy with all convenient haste, and the splendid buoyancy of our commercial interests which has been manifest the last year, and which is undoubtedly to a considerable extent attributable to the relief already given, and to the confidence which both capital and labor have in the Administration, will greatly assist in the further prosecution and development of the work of reform.

An Optimistic Forecast.

At a recent meeting of the dairymen of Glasgow Mr. Scott Dickson, Q. C. made an interesting forecast as to the part to be played by Canada in the food supply of Britain:—"The vast rolling prairies of the North West, the older settled provinces of Ontario and Quebec, not to speak of the rapidly rising area of British Columbia with its rich and fertile plains, are all now contributing their quota to the food supply of the mother country. Year by year that supply is increasing, and looking to the practically limitless acres of our great North American colony, it would be difficult to hazard even a guess as to what that country will produce in the way of food supply say ten years hence, or approximately what our imports from the Dominion may be. But one thing is perfectly clear, that our trade with the Dominion is practically in its infancy.

Every year the hardy Scotch emigrant imbued with the characteristic business capabilities of his countrymen sees in the markets of the Old World his nearest and most certain road to that independence which he desires so much, and he has been greatly aided in his efforts in finding markets in this country, by the now rapid journeys of modern steamships, and the great advantages of the cold storage system, by which the goods are brought into the country in as fresh and sweet a condition as when they leave the quay in Montreal.

Lord Herschell's Death.

The altogether unexpected death of Baron Herschell, at Washington this week has come as a terrible shock to the English speaking world a shock intensified by the sadness of the attendant circumstances. The deceased statesman, one of the foremost in the Councils of the Empire, had desired personally to return home some weeks ago but his strong sense of duty detained him. Few men have left behind them a nobler record of service for their country, and few are more sincerely mourned by all classes, those who knew him best regret his loss most deeply. His place both on the Venezuela Boundary Commission and on the High Joint Commission will be most difficult to fill, for his great knowledge of the subjects under consideration, his keen legal judgement, his diplomatic experience made him an ideal arbitrator and counsellor.

Live Stock Markets.
TORONTO.

Cattle market to-day we had a small run of stuff, as all told only 40 loads came in, including 500 hogs, about 100 lambs and sheep, and a few calves and milkers. Business was brisk, prices were strong, and everything was sold out by 11 o'clock.

Shipping cattle were selling well today at from 4 1/2 to 5c per lb. In several cases a little more was paid for selected lots, but as such figures would be possibly more misleading than representative we refrain from quoting them.

Butchers' cattle sold very well to-day; choice stuff fetched easily from 4 to 4 1/2c per lb.; in fact it was quite 10 to 15c per cwt. better than yesterday. Very good loads of cattle sold from 3 1/2 to 3 3/4c per lb., and medium to interior sold down to 3c per lb.

Good feeders to-day fetched up to 4c per lb.

Stockers were a little firmer at from 3 to 3 1/2c per lb. Good stockers are in fair demand.

Good export bulls sold at from 3 1/2 to 4 1/2c per lb.; light bulls are worth from 3 1/2 to 3 3/4c per lb.

The supply of lambs was small, and choice lambs fit to export were scarce. Too many culls are coming in. The best grades of lambs were a little better to-day, and sold at from 4 1/2 to 4 3/4c per lb.

Shipping sheep are worth from 3c to 3 1/2c per lb.

Bucks are unchanged at from 2 1/2 to 2 3/4c per lb.

We had no change in hogs to-day, and prices are fairly steady.

Following is the range of current quotations:

Almost a MIRACLE

OTTAWA, Sept. 9th, 1896.
To the Phenoline Medicine Co., Ltd. Ottawa.

GENTLEMEN,—I hardly know how best to express my appreciation of your valuable rheumatic remedy, Phenoline. My son Gordon, who is 9 years old, has been a sufferer from inflammatory rheumatism for the past two years; was so bad at times that he had to be carried about on a mattress; was attended by two city doctors apparently without the slightest benefit; spent 10 days at Caledonia Springs, came home with no marked improvement; took three bottles of a Homeopathic remedy now being extensively advertised, which did not relieve him in the least. I was beginning to give up all hope of his recovery, when by chance I mentioned the case to a friend who strongly advised me to give Phenoline a trial.

I did so, with the result that when my boy had taken only half a bottle he was able to get on his bicycle and ride like any other boy around the block.

I certainly feel that I cannot say too much in praise of your medicine, and shall do all I can to make known its value to others. Yours very sincerely,
(Signed) REUBEN CLARK.
