SOME INFORMATION ABOUT IT SOCIAL LEGISLATION.

Land Where There Are No Unemployed Where the Hours of Labor Are Short and Where indigent Old People Ar Pensioned.

New Zealand is dubbed "the country of overlegislation," that is, by those within her borders, whose interests not served by her legislative acts, those outside whose education in ical economy will not permit them leve that some of the peculiar laws, this remote land will stand of every-day practical use, Martin Miller from Christ-

w Zealand. Althoug New Zealand is a British ference is seldom needed. No real hardship has resulted to anybody. Of overns herself independently of the other country. This is ficiently elastic to make provision for just as true, owever, of the other the needs and peculiarities of differsix colonies of ustralasia. But in ent classes of business. Certain exthe compiling of nd tampering with ceptions are made in the cases of hairthe statute book, New Zealand has cerned in the wants of travellers, and dressers, fruiterers, and others conbeen much more a ressive than any of the other colonic and has been tries as the pioneer in hat is termed by many people "experimental local derivations and has been tries as the pioneer in hat is termed by many people "experimental local derivations and has been tries as the pioneer in hat is termed by many people "experimental local derivations of travellets, and so forth, while hotels do not come under the act at all, being properly supervised under the licensing acts. Of course, the weekly half holiday is with the local derivation of the control of the other colonic and has been derivations and has been deriva by many people "experiental legis- us compulsory, as is the observance down.

Here is a country far from the great markets of the world, but inderfully rich in natural resources; a coulture, is not enforced. larger. The total area is 104,471 who are now rigidly kept under, Of lington, Dunedin and Christchurch, all seaports, with a population of about 50,000 each. The distance across the hav you definitely settled your policy Tasman Sea, between New Zealand and in the matter, Mr. Ward?" "Yes, de-Australia proper, is 1,200 miles. The finite.
