SKIN LIKE BABY'S

Skin diseases from the merest pimples to the most obstinate eczema, salt rheum, running sores, are quickly, pleasantly and permanently cured by Dr. Agnew's Ointment—35 cents.

Who does not envy a baby its soft velvety skin? How many suffer from distressing skin diseases—Do you suffer? Have you tetter—salt rheum—scald head—ring worm—eczema—ulcers—blotches on the skin—chronic erysipelas—liver spots and what not else of these distasteful and aggravating disorders which disfigure and discourage? Dr. Agnew's Ointment allays the distressing itching, burning, stinging sensations which are part and parcel of such troubles, and in a thousand cases where internal treatments have failed to heal and eradicate them it has worked wonderful and permanent cures—and no skin disease, no matter of how long standing, has baffled its curative qualities. In cases of chronic eczema it has proved its great worth, and cases are on record where this dread affection has been the birthright of its patient and constant companion until past middle life, and Dr. Agnew's Ointment has cured speedily and permanently. It is a boon to mothers because it is a boon to babyland—scald head and its irritations, which are accompaniments to the teething period, are quickly driven off and restlessness passes away—and where torture reigned with baby this balm brought rest and a cure—it affords instant relief from the itching distress. . . .

Do you suffer from piles—itching, blind, bleeding or ulcerated?—No remedy has brought so quick relief, spared painful surgical operations as Dr. Agnew's Ointment—it has proved itself an absolute cure for piles in all forms and at all stages—one application will relieve the itching, irritating sensations in an instant—and long standing cases disappear after from three to five nights' treatment—the pain and soreness quit you and the tumors vanish.

A lady living in a northern County town writes that for seventeen years she was troubled with salt rheum. She took doctors' treatments and used many lotions without any permanent relief. Reading of the cures made by Dr. Agnew's Ointment, she decided to try it. The first application allayed the irritation and she continued using it—the disease rapidly disappeared and now for two years there has been no sign of a return of it.

The baby of another lady living on Pacific Ave. in Toronto, was terribly afflicted with scald-head and eczema—she tried washes prescribed by her physician, and soaps advertised for such purposes, but the disease remained—Dr. Agnew's Ointment was her good friend; half a box cured the baby and cured herself of troublesome piles which had been the bane of her life since baby's birth.
