My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, gradually growing weaker day by day. Three physicians had given me up. Fortunately a friend advised trying Electric Bitters, and to my great joy and surprise the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life and robbed the grave of another victim." No one should fail to try them. Only 50c., guaranteed at our drug stores.

## KIDNEY-SICK PEOPLE!

By far the largest army of sufferers in the world are the kidney-sick people—but by far the largest army of the cured ones distribute their release from disease to the great South American Kidney Cure—Cures Bright's disease. Cures diabetes. Cures all bladder ailments.

Kidney diseases are the most insidious of all diseases common to humanity; within the past few years medical science has made wonderful strides in coping with its ravages. South American Kidney Cure has proved rich in healing power, and every day testimony is piled up for its great curative qualities. Where kidney disease exists changes in the urine, such as mucus, sediment, albumen, brick dust, acid and blood—pain is not necessarily an accompaniment, which only aggravates the insidious nature of it. Testing and experimenting has disclosed the fact that the passing through these organs of the solid particles in the ordinary course of circulation do in a remarkably short while clog up, grind out and impair them so that the functions of these organs are not performed and disease lays hold on the patient with a ruthless hand. Kidney diseases require a solvent—South American Kidney Cure is a solvent—it is a kidney specific—claims to be no more—it has been tested by eminent medical authorities on kidney diseases, and proved and testified to by purifier—a healer—a health builder—efficacious alike to man or woman.

**Good News from the North Country**—A young machinist in a large manufacturing concern in Northern Ontario, fell a victim to the drooping form of kidney disease through atmospheric changes in following his daily labors—was continued his work until almost commanded receiving treatment. He visited Toronto and consulted an eminent authority on kidney diseases. The doctor sent him home with a hopeful story of himself as he could give, but wrote privately to the young man's physician that it was only a matter of time with him until death would claim another kidney victim. When he began to realize for himself that his case was hopeless he took his case in his own hands, determined to fight for his life. He experimented with many so-called cures without relief. South American Kidney Cure was brought to his attention and he began to feel better under its use. He continued to gain strength—he took six bottles—and today that same young man can be found at that same lab, working for that same concern, hale and hearty as the first day he went to work. He gives all the credit to South American Kidney Cure.

**SOUTH AMERICAN NERVINE**—Is a nerve healer. Cures indigestion and all stomach troubles which are forerunners of nervous collapse.

**SOUTH AMERICAN RHEUMATIC CURE**—Has lifted men off a bed of pain after a few days' use, who have not been free from suffering for years.

**DR. ADAMS' GENTLE CURE** cures blind, bleeding, itching or oozing piles in from three to five nights. 25 cts.
