### GREATEST THINGS IN THE WORLD.

**Some Information About the Largest Buildings, Monuments, Canals, etc., etc.**

The largest insect known to entomologists is a Central American moth, called the Erebus strix, which expands its wings from 11 to 18 inches.

The largest cask in the world is the Blatner cask of Nuremberg, Germany. It is 106 feet in diameter and 51 feet deep, and its completion a few years ago was celebrated by a ball, at which over 500 persons were on the floor of the cask.

The longest wall in the world is the famous stone defense made by the Chinese against the Tartars about 200 B. C. It is 20 feet high, 27 feet thick at the base, and stretches for 1,280 miles over hills, valleys and rivers.

The greatest bell in the world is in an edifice before the great temple of Buddha, at Tokyo. It weighs 1,700,000 pounds, and is four times greater than the great bell at Moscow, whose circumference at the rim is nearly 68 ft. and whose height is 21 feet.

The highest monument in the world is in Washington, America. It was erected in honor of George Washington. It is 550 feet high, 55 feet square at the base, and contains 18,000 blocks of marble two feet thick. In the interior is an elevator, and 50 flights of stairs, 18 steps each.

The largest room in the world, under one roof and unbroken by pillars, is at St. Petersburg. It is 620 feet long by 159 feet in breadth. By daylight it is used for military displays, and a whole battalion can completely maneuver in it. By night 20,000 wax tapers give it a beautiful appearance. The roof is a single arch of iron.

The largest advertising sign in the world is said to be on the hillside of an inlet of the Grand Canary, north-west of Africa. It is several hundred feet above the level of the sea, and contains the words, "Grand Canary Improvement Company," in letters each 15 feet wide and 30 feet high, each bar of the letters being 3 feet 3 inches broad. The sign is 750 feet long.

The greatest canal in the world is the Suez, opened on November 16, 1869. Its length is 95 miles, its depth is 26 feet, its annual revenue is \$15,000,000, its cost was \$100,000,000. The average time taken to pass through it is 20 hours, less eight minutes. The depth of the canal is being increased, at a cost of \$10,000,000.

The world's longest canal is the Imperial Canal of China, with a length of 1,000 miles. The greatest structure ever raised by the hand of man is the Great Pyramid of Cheops, in Egypt, founded 4,000 years ago, and measuring 746 feet square on the base and 449 feet high. It took twenty years in construction; 100,000 men worked for three months, and, being then relieved, were succeeded by an equally large crew. The massive stones were brought from Arabia, 700 miles away. The cost of the work is estimated at \$145,000,000.

The largest map in the world is the Ordnance Survey map of England, containing over 108,000 sheets and costing \$1,000,000 a year for 20 years. The scale varies from one tenth of a foot to one tenth of an inch to the mile. The details are so minute that maps having a scale of 25 inches show every hedge, fence, wall, building, and even every isolated tree in the country. The plans show not only the exact shape of every building, but every porch, area, doorstep, lamp-post, railway and fire plug.

The hottest region on earth is the southeastern part of Persia, where it borders the gulf. For 40 consecutive days in July and August the temperature has been known not to fall lower than 100 degrees, night or day.

The largest library in the world is the National Library of Paris, which contains 40 miles of shelves, holding 1,400,000 books. There are also 175,600 manuscripts, 300,000 maps and charts and 150,000 coins and medals.

The largest sundial in the world is Hayon Horoo, a large promontory extending 3,000 feet above the Aegean Sea. As the sun swings round the shadow of this mountain it touches one by one a circle of islands, which act as hour marks.

The deepest hole in the earth is at Schladebach, near Ketschau, Germany. It is 5,735 feet in depth, and is for geologic research only. The drilling was begun in 1880, and stopped six years later because the engineers were unable with their instruments to go deeper. This hole was expensive, as its cost was \$50,000.

The largest dwelling house in the world is the Freihaus, in a suburb of Vienna, Austria, containing in all between 1,200 and 1,500 rooms, divided into upwards of 400 separate suits. This immense house, wherein a whole city lives, works, eats and sleeps, has 13 courtyards—five open and eight covered—and a garden within its walls.

The largest history ever published is "The War of the Rebellion," issued by the United States, in 120 huge octavo volumes of 1,000 pages each, with a gigantic atlas in 30 parts. The books occupy 30 feet of shelf room, and weigh one quarter of a ton. The series cost \$25,000,000, is limited to 11,000 sets, and has been in course of publication for over 20 years.

The largest cathedral in the world is St. Peter's, at Rome. The total length of the interior is 612-1/2 English feet; transept, 446-1/2 feet; diameter of cupola, 193 feet; height of dome from pavement to top of the cross, 448 feet. It was begun in 1450 A. D., dedicated in 1626, but not finished till 1883. Forty-three Popes lived and died during the process of building. The cost is set down at \$80,000,000.

The longest tunnel in the world is that of St. Gothard, on the line of the railroad between Milan and Lucerne. It is nine and a quarter miles in length and cost over \$45,000,000.

The greatest distance that a shot has been fired is a few yards over 15 miles, which was the range of Krupp's well-known monster 130-ton steel gun, firing a shot which weighed over a ton and a quarter.

The greatest sea depth known to man is in the South Atlantic Ocean, midway between the Island of Tristan de Cuba and the mouth of the Rio de la Plata, the bottom being here reached at a depth of 40,250 feet, or eight and three quarters miles.

The greatest suspension bridge in the world is the Brooklyn bridge, which also leads the world in the number of its daily passengers. Its length, including approaches, is 5,989 feet, the distance between the towers 930 feet, the weight of the structure is 6,470 tons; its cost was over \$15,000,000. The bridge cars carry about 45,000,000 people every year.

The largest stock yards in the world are in Chicago. The combined plants represent an investment of over \$10,000,000. The yards contain 20 miles of streets, 20 miles of water troughs, 50 miles of feeding troughs, and 75 miles of water and draining troughs. The yards are capable of receiving and accommodating daily 30,000 cattle, 20,000 sheep and 120,000 hogs.

The most magnificent tomb in the world is the Taj Mahal, in Agra, Hindustan. It was erected by Shah Jehan to the memory of his favorite Queen. It is octagonal in form, of pure white marble, inlaid with jasper, carnelian, turquoise, agate, amethysts and sapphires. The work took 22,000 men 20 years to complete, and though there were free gifts and the labor was free, the cost was \$17,000,000.

The largest flower in the world is the Rafflesia Arnoldi, of Sumatra. Its size is fully three feet in diameter—about the size of a carriage wheel. The five petals of this immense flower are oval and creamy white, growing round a center filled with countless long, violet-tinted stamens. The flower weighs about 15 pounds, and is capable of containing nearly two gallons of water. The buds are like gigantic brown cabbage heads.

The greatest empire of the world is the British Empire, extending over one continent, 100 peninsulas, 500 promontories, 1,000 lakes, 2,000 rivers and 10,500 islands. It surpasses the Assyrian Empire in wealth, the Roman Empire in power, and the Persian Empire in area—all of which empires have passed away. The population of the Empire—462,515,890—is 27 per cent. of the population of the world; the 11,338,316 square miles of imperial territory is 21 per cent of the land of the world.

### A SECTION FOREMAN

HIS LIFE ONE OF EXPOSURE AND MUCH HARDSHIP.

Rheumatism and Kindred Troubles the Frequent Result—One Who Has Been a Great Sufferer Speaks for the Benefit of Others.

From the Watchman, Lindsay, Ont.

Wm. McKendry, a gentleman of 52 years of age, has for 25 years been a respected citizen of Fenelon Falls, Ont. For twenty-two years he has held the position of section foreman for the G.T.R., which position he fills to-day, and judging from his present robust appearance will be capable of doing so for many years to come. During his residence at Fenelon Falls Mr. McKendry has taken an active part in educational matters, being an efficient member of the school board on different occasions. Many times he has been nominated as councillor, but owing to the position he held with an outside corporation felt it his duty to withdraw, although much against the wishes of the representative rate-payers. As the public well know the duties devolving on a railway section foreman expose him to all kinds of inclement weather, and it takes a man with a strong constitution to successfully fill the position. Mr. McKendry had no illness until about 3 years ago, when, to use his own words, he says: "I was taken down with severe rheumatic pains in the right knee and the muscles of the leg. I could not sleep or rest night or day. I could not begin to tell you what I suffered. I took many remedies, both internal and external prescribed by doctors and friends, but instead of improving I was steadily going from bad to worse. One day while reading the Presbyterian Review I read of a cure through the use of Dr. Williams' Pink Pills, in the case of a man who had not been expected to recover and this prompted me to give this medicine a trial. The action in my case did not seem to be speedy and I was using my fifth box before any decided improvement was noted, but by the time I had used eight boxes I was a thoroughly well man. Since that time my general health has been the very best and I have no signs of the old trouble. I make this statement voluntarily, because I think it the duty of those cured to put others in the possession of the means of obtaining renewed health and I am satisfied Dr. Williams' Pink Pills will do all that is claimed for them if given a trial.

These pills cure not by purging the system as do ordinary medicines, but by enriching the blood and strengthening the nerves. They cure rheumatism, sciatic, locomotor ataxia, paralysis, heart troubles, erysipelas and all forms of weakness. Ladies will find them an unrivalled medicine for all ailments peculiar to the sex, restoring health and vigor, and bringing a rosy glow to pale and sallow cheeks. There is no other medicine "just as good." See that the full name, Dr. Williams' Pink Pills for Pale People is on every package you buy. If your dealer does not have them, they will be sent post paid at 50 cents a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont. or Schenectady, New York.

The game of billiards was introduced into Europe by the Knights Templars.

"Pharaoh 100," 99 Pages, of "Gleaner," Que' Paper Manufacturer.

A man seeks his ideal; a woman seeks the ideal of another.

**TO CURE A COLD IN ONE DAY**  
Take Laxative Bromo Quinine Tablets. All Druggists refund the money if it fails to cure. 25c.

Some men go when duty calls—but in the opposite direction.

Farmers cannot any longer close their eyes to the fact that something more than ordinary farm-yard manures is necessary to the production of paying crops. The phosphate is absolutely necessary and there is now no room to doubt that large quantities of good manure are absolutely wasted for the want of phosphate to balance the food for the plants. I have had much experience in phosphating lands and I have examined many phosphated crops and I am convinced that double and treble crops of all kinds of produce may be obtained by the use of a proper phosphate such as the Thomas Phosphate, made by the Alberts. I have seen old lands brought up to a wonderful condition of fertility by its aid.—Stroehner, in Farm Topics.

Some men spend half their time in making promises and the other half in making excuses.

Bacon, Pork and Lard are the best for the market.  
LAURENTIAN SAND & GRAVEL CO., Montreal.

The first time a man goes to a racetrack he imagines that he has discovered a new way to make money.

For Over Fifty Years  
MR. WINSOR'S SCOTCH WHISKY has been used by mothers for their children's teething. It soothes the child, relieves the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. 25c. a bottle. Sold by all druggists throughout the world. Write and ask for "Mrs. Winsor's Soothing Syrup."

Violins made of aluminum have appeared in Paris.

**LUBY'S**  
Solely by all druggists. 50c. a bottle.

Women are employed as bricklayers in Finland.

**La Toscana, 10c.** BELLIANER CIGAR FACTORY, Montreal.

The wise man who profits by his mistakes invests his profits in some other line of business.
